

BY	DATE

* Prior to beginning construction, the contractor shall excavate the existing waterline to verify pipe size, type, fittings, and horizontal and vertical location. The contractor shall report his findings to the engineer so that any necessary plan modifications may be made. Any additional labor or materials necessary to complete the connection shall be considered subsidiary to the project.

⊔ - Denotes Caps or Plugs to be Installed
X - Denotes Waterline to be Abandoned

All pipe elevations subject to change based on field conditions as directed by the engineer
