1. Place Bales tightly together, with loose straw or hay wedged between Bales to close off any openings.
 2. Wood Stakes shall be 2" x 2" (nom.) x 4'-0" long (min.)
 3. Refer to plan sheets to estimate the linear footage of Bales required.

- 2) The slope barriers shall be placed along contour lines, with a short section turned upgrade at each end of the barrier.
- 3) At culverts, the Straw or Hay Bales or Silt Fence shall be placed over the culvert, not through the streambed flowline.
