

SUMMARY OF QUANTITIES (FOR INFORMATION ONLY)		
ITEMS	QUANTITY	UNIT
Pavement Marking (White) (24")	159.0	L.F.
Pavement Marking (White) (12")	678	L.F.
Pavement Marking (White) (6")	1762.0	L.F.
Pavement Marking (Yellow) (12")	213.0	L.F.
Pavement Marking (Yellow) (4")	3578.0	L.F.
Pavement Marking Symbol (Left Turn)	6	Each
Pavement Marking Symbol (Right Turn)	2	Each
Pavement Marking Symbol (Right/Through)	2	Each

RECAPITULATION OF QUANTITIES		
BID ITEMS	QUANTITY	UNIT
Pavement Marking	LUMP SUM	L.S.

Pavement Markings - All pavement markings shall be epoxy, unless otherwise approved by the Engineer. Pavement markings shall be installed per manufacturer's recommendations and shall meet KDOT's 2015 Edition of the Standard Specification Section 806. Full traffic may not be restored (and substantial project completion achieved) until all pavement markings are in place. Should construction timing be such that restoration of traffic becomes necessary during weather prohibiting the installation of markings, the contractor shall install and maintain temporary markings until such time that permanent markings may be properly installed. Except for the material requirement, temporary pavement markings shall be placed equivalent, in every manner (i.e. dimension, frequency, spacing, etc.), to the permanent marking layout. The cost for temporary pavement markings will not be paid for directly, but shall be considered subsidiary to the bid item for "Pavement Markings".

Note: Existing pavement markings removed for temporary traffic control purposes shall be replaced in-kind. Quantities are estimated as follows: 4968 L.F. of 4" yellow, and 1110 L.F. of 6" white. These quantities for this are reflected in the summary of quantities.

SIGNING LEGEND

- Sign not part of project
- ▽ Remove and reset existing sign and post
- ▽ New sign and post
- ⊕ Street Name Sign
- ⊗ Remove sign, post, & return to owner
- Traffic Sign

NOTE:
Coordinate with sign owner prior to the removal of utility company and private signs.
