STAFF REPORT
MAPC September 21, 2017

- CASE NUMBER:** ZON2017-00037
- APPLICANT/AGENT:** Superior Homes LC/ K.E. Miller Engineering, Kirk Miller
- REQUEST:** TF-3 Two-Family Residential zoning
- CURRENT ZONING:** SF-20 Single-Family Residential zoning
- SITE SIZE:** Approximately 38 acres
- LOCATION:** Generally located one-third mile west of South Meridian on the south side of West 47th Street

BACKGROUND: The applicant is requesting a zone change from SF-20 Single-Family Residential (SF-20) to TF-3 Two-Family Residential (TF-3) zoning on approximately 38 unplatted acres. The applicant proposes to build a mix of single family residences and duplexes subject to final platting.

Property north of the subject site is located in the unincorporated area of Sedgwick County and is zoned SF-20. Property east and south of the subject site is MH Manufactured Housing (MH) developed with a manufactured home park – Southborough Estates. Property west of the site is zoned SF-5 Single-Family Residential (SF-5) developed with single family residences.

CASE HISTORY: The site is located in the unincorporated area of Sedgwick County. A preliminary plat (SUB2017-00029) was filed July 22, 2017 and is scheduled to be annexed before final platting. Attached to the staff report is a copy of the Fox Run Preliminary Plat.

ADJACENT ZONING AND LAND USE:

NORTH: SF-20	Single-Family residence surrounded by agricultural land
SOUTH: MH	Manufactured Home Park
WEST: SF-5	Agricultural land
EAST: MH	Manufactured Home Park

PUBLIC SERVICES: The site has access to West 47th Street, a two-lane paved arterial street with a 100-foot right-of-way with traffic in both directions. City water and sewer lines are in proximity to the subject property along the north, east and west property boundaries.

CONFORMANCE TO PLANS/POLICIES: The adopted Wichita-Sedgwick County Comprehensive Plan; *the Community Investments Plan*, identifies the site as Wichita Urban Growth Area. The Plan encourages expansion and extension of municipal services and infrastructure. Determination of growth is based on municipal political considerations, anticipate population growth, and efficient patterns of growth.

RECOMMENDATION: Based upon information available prior to the public hearings, planning staff recommends that the request be **APPROVED.**

This recommendation is based on the following findings:

- (1) The zoning, uses and character of the neighborhood:** The undeveloped site is surrounded by SF-5, MH and SF-20 zoning districts. The proposed TF-3 zoning will provide a buffer between the single-family residences and the manufactured home park.
- (2) The suitability of the subject property for the uses to which it has been restricted:** TF-3 zoning would allow for single-family and two-family residences to be built, which is an appropriate use for urban residential development. The subject property will be platted and annexed into the Wichita City Limit.
- (3) Extent to which removal of the restrictions will detrimentally affect nearby property:** The adjacent zoning districts are zoned for residential uses. This zone change will be compatible with the area.

- (4) **Relative gain to the public health, safety and welfare as compared to the loss in value or the hardship imposed upon the applicant:** Approval of the request would limit development by right to single-family residential and duplex and some (but not limited to) institutional uses such as a parks, schools and churches.
- (5) **Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies:** The adopted Wichita-Sedgwick County Comprehensive Plan, *the Community Investments Plan*, identifies the site as Wichita Urban Growth Area. The Plan encourages expansion and extension of municipal services and infrastructure. Determination of growth is based on municipal political considerations, anticipate population growth, and efficient patterns of growth.
- (6) **Impact of the proposed development on community facilities:** All services are in place and any increased demand on community facilities can be handled by current infrastructure.
