Based upon information available prior to the public hearings and reserving the right to make recommendations based on subsequent comments from City Public Works, franchised utility representatives and other interested parties, Planning Staff recommends approval to vacate the platted utility and drainage easement as described in the attached legal, with conditions.

The drainage study will also determine if retention or replacement easement(s) are required. The utility and drainage easement will be retained until the Storm Water Engineer and Public Works determine if any or all of the utility and drainage easement can be vacated.
- (2) Provide Staff with any required replacement easements for utilities and/or drainage. Public Works/ Storm Water must approve dedications. Approved dedications, with original signatures, will be provided to Planning to be recorded with the Register of Deeds with the Vacation Order.
- (3) Any relocation or reconstruction of utilities made necessary by this vacation shall be the responsibility of the applicants and at the applicant's expense.
- (4) All improvements shall be according to City Standards.
