

Approved as to form:

Gary E. Rebenstorf, City Attorney

City of Wichita
City Council Meeting
February 12, 2008

TO: Mayor and City Council

SUBJECT: ZON2007-00064 – City zoning on un-zoned property to “LC” Limited Commercial. Generally located on the north side of Central Avenue, just east of the Big Ditch (Wichita-Valley Center Floodway). (District V)

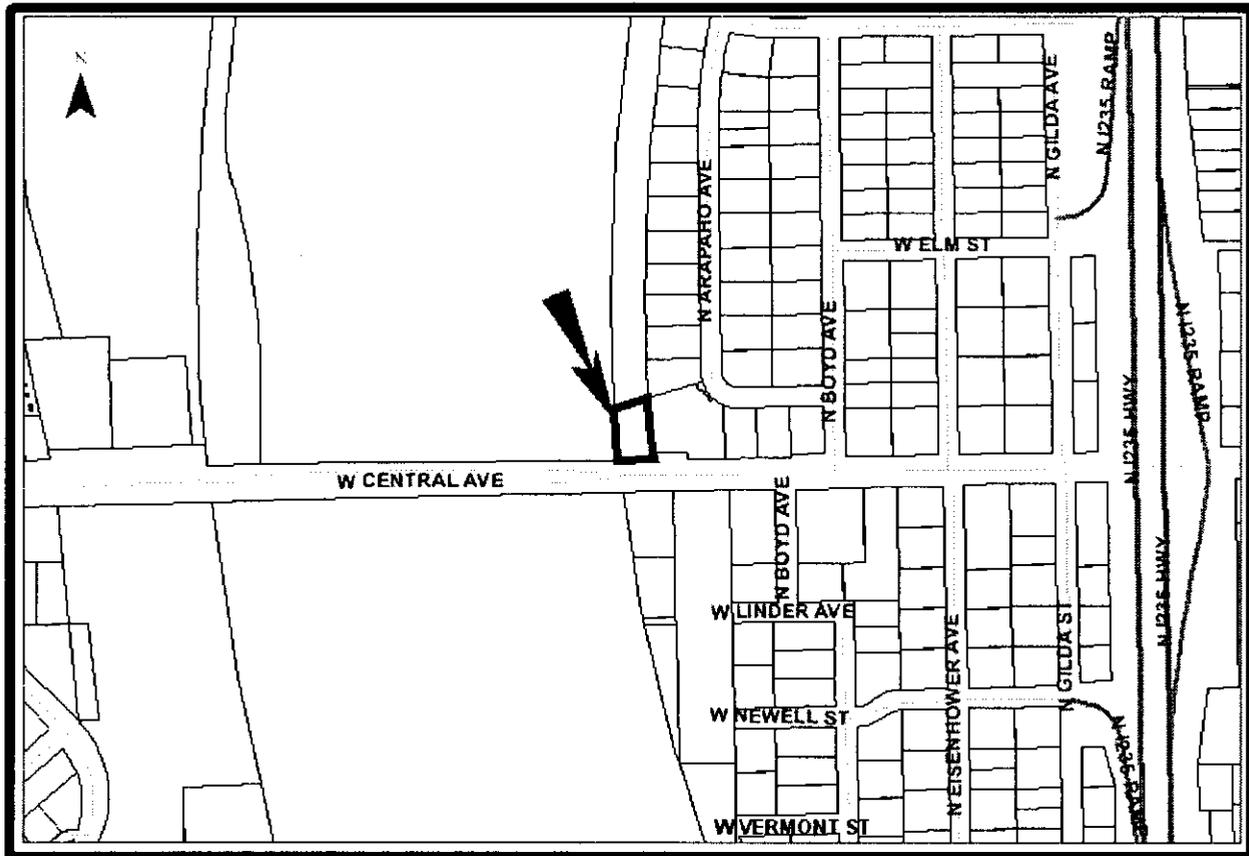

INITIATED BY: Metropolitan Area Planning Department *JLS*

AGENDA: Planning (Consent)

MAPC Recommendation: Approval, without platting, vote 8-5.

MAPD Staff Recommendation: Approval, subject to platting within one year.

DAB V Recommendation: Approval, subject to platting within one year, vote 7-0-1.

Background: The applicant requests a zone change on un-zoned property to “LC” Limited Commercial on a 0.4 acre site located east of the east bank along the Wichita-Valley Center Floodway and on the north side of Central Ave. The site is about 250 feet east of the crest of the floodway’s levee and was just recently sold to the applicant from the City of Wichita. While the City owned the property, it was not zoned and was utilized as a buffer for the floodway. The applicant proposes to market the property for an unspecified commercial use. The property currently is paved for use as a parking lot.

The property is located within the Flood Hazard Zone “X,” which is described as the flood insurance rate zone that corresponds to areas outside the 100-year floodplain, areas of 100-year sheet flow flooding where average depths are less than 1 foot, areas of 100-year stream flooding where the contributing drainage area is less than 1 square mile or areas protected from the 100-year flood by levees. No Base Flood Elevations or depths are shown within this zone. A Base Flood Elevation (BFE) is the height of the base flood, usually in feet, in relation to the National Geodetic Vertical Datum of 1929, the North American Vertical Datum of 1988, or other datum referenced in the Flood Insurance Study report or average depth of the base flood, usually in feet, above the ground surface.

The site’s location is abutting commercial development bordering the east property line, extending east along Central Avenue. The LC zoning to the east is approximately 0.9 acres and contains a strip retail center. North of the retail center there is a residential development, which is all zoned “SF-5” Single-family Residential. The 0.58 acre property located south of the site, across Central Avenue, has an automotive repair shop on it is zoned “GC” General Commercial followed by (going east from this site) a 4.96 acre site containing a mini-storage facility, zoned LC and GC, and a 0.6 acre site containing an office building, zoned LC. South of the commercial developments there are single family and duplex developments zoned SF-5 and “TF-3” Two-family Residential. All other properties located west, northwest and southwest of the subject site are undeveloped, and utilized as the Wichita-Valley Center Floodway.

Analysis: At the District Advisory Board V meeting held January 7, 2008, the DAB V voted (7-0-1) to approve the request, subject to platting within one year. No citizens were present to speak and no protests have been received. At the MAPC meeting held January 10, 2008, the MAPC voted (8-5) to approve the request without the platting requirement. No citizens were present to speak, and no protests have been received.

Financial Considerations: None.

Goal Impact: Promote Economic Vitality.

Legal Considerations: The ordinance has been reviewed and approved as to form by the Law Department.

Recommendation/Actions:

1. Adopt the findings of the MAPC, approve the zone change to “LC” Limited Commercial and approve the first reading of the ordinance; or
2. Return the application to the MAPC for reconsideration.

(An override of the Planning Commission’s recommendation requires a two-thirds majority vote of the City Council on the first hearing.)
