ATTEST:

Scott Knebel, Secretary

BACKGROUND: The applicant submitted a Conditional Use request for Group Residence, Limited on property zoned SF-5 Single Family residential generally located 250 feet east of North Edgemoor Drive and one-block south of East 13th Street North (5516 Polo Dr.). The applicants currently operate the Rosewood Cottage which is a Home Plus Group Home on the property and house up to 8 residents in addition to two staff. The request for Group Residence, Limited would allow the facility to house up to 12 residents in addition to staff. The Kansas Department for Aging and Disability Services (KDADS) generally defines Home Plus as “any residence or facility caring for not more than 12 individuals not related within the third degree of relationship to the operator or owner by blood or marriage...who...need personal care or supervised nursing care to help with limitations in activities of daily living” (see attached full definition).

The Unified Zoning Code defines Group Residence as “a residential facility providing cooking, sleeping, and sanitary accommodations for a group of people, not defined as a “family, on weekly or longer basis.” It defines Group Residence, Limited as “a Group Residence that is occupied by more than 15 persons, including staff members who reside in the facility.” Group Residence Limited is permitted within the SF-5 zoning district by Conditional Use.

The facility is an existing single family home located in a single family neighborhood. The house was built in 1954, has 6 bedrooms and 3,084 square feet of furnished living space. The two-car garage has been converted to living space accounted for in the stated description. The facility is licensed by KDADS to have up to 12 residents and has met all necessary requirements of the Kansas State Fire Marshall and National Fire Protection Association (NFPA) Life Safety Code 101 for such a facility. The applicants state that the purpose of a Home Plus facility is to provide a small retirement care home located in a residential area so that residents can live in a traditional home environment near their families. They facility will not require any modifications (interior or exterior) in order to accommodate the additional residents.

The off-street parking requirement for Group Residence, Limited is one per bedroom. The facility has 6 bedrooms. The applicants indicate that all residents do no drive or own vehicles as they are care-dependent. Therefore the only vehicles parked on site will be for staff (maximum of two at any given time) in addition to visiting family members. The facility’s driveway can only satisfy a portion of the parking requirement. Therefore, the applicant has filed a Variance application (BZA2019-0049) to reduce the parking requirement down to two spaces. This case is being heard concurrently.

Properties north, south, east, and west are zoned SF-5 and are single family residences.

CASE HISTORY: The site is platted as Lot 9, Block 1, McEwen Estates 1st Addition in 1952.

ADJACENT ZONING AND LAND USE:

NORTH:	SF-5	Single Family Residence
SOUTH:	SF-5	Single Family Residence
EAST:	SF-5	Single Family Residence
WEST:	SF-5	Single Family Residence

PUBLIC SERVICES: Access to the property is off of East Polo Drive, a paved local street with on-street parking. North Edgemoor Drive is classified as a paved, two-lane local street at this location. Municipal water and sewer services currently serve the site.

CONFORMANCE TO PLANS/POLICIES: The adopted Wichita-Sedgwick County Comprehensive Plan, the *Community Investments Plan*, identifies the site as within the Established Central Area - the downtown core and mature neighborhoods surrounding it in a roughly three-mile radius. The Plan encourages infill development within the Established Central Area that maximizes public investment in existing and planned infrastructure and services. The Future Growth Concept Map identifies the area as Residential, which reflects the full diversity of residential

development densities and types typically found in an urban municipality. The Plan discusses that the range of housing densities and types include anywhere from single-family detached homes to multifamily units, condominiums, and special residential accommodations for the elderly (assisted living, congregate care, and nursing homes).

RECOMMENDATION: Based on the information available prior to the public hearing, MAPD staff recommends the application be **APPROVED** subject to the following conditions.

- 1) The Conditional Use approval is limited to a maximum of 12 persons needing assistance with daily activities.
- 2) Residents within the care of this facility are prohibited from having personal vehicles at the facility.
- 3) The owner or the manager of the facility shall comply with all regulations and licensing required by the Kansas Department of Aging and Disability Services.
- 4) No freestanding signs shall be allowed.
- 5) The site shall be developed and operated in compliance with all federal, state, and local rules and regulations.
- 6) If the Zoning Administrator finds that there is a violation of any of the conditions of the conditional use, the Zoning Administrator, in addition to enforcing the other remedies set forth in Article VIII of the Unified Zoning Code, may, with the concurrence of the Planning Director, declare that the conditional use is null and void.

The staff's recommendation is based on the following findings:

1. The zoning, uses and character of the neighborhood: Properties north, south, east, and west are zoned SF-5 and are single family residences.
2. The suitability of the subject property for the uses to which it has been restricted: The property is zoned SF-5 currently operates and a Group Home for up to 8 residents and two staff. Group Home is permitted by right in SF-5. It could also continue to be used and a single family dwelling.
3. Extent to which removal of the restrictions will detrimentally affect nearby property: Group Residence, Limited is permitted as a Conditional Use within the SF-5 district. The property is currently being used as a Group Home for up to 8 residents and two staff. The request for Group Residence, Limited is to expand the use to up to 12 residents and two staff, but the type of care is not changing. In addition, the facility does not require any modifications in order to accommodate that additional residents. Therefore, negative impacts to surrounding properties should be minimal.
4. Conformance of the requested change to adopted or recognized Plans/Policies: The adopted Wichita-Sedgwick County Comprehensive Plan, the *Community Investments Plan*, identifies the site as within the Established Central Area - the downtown core and mature neighborhoods surrounding it in a roughly three-mile radius. The Plan encourages infill development within the Established Central Area that maximizes public investment in existing and planned infrastructure and services. The Future Growth Concept Map identifies the area as Residential, which reflects the full diversity of residential development densities and types typically found in an urban municipality. The Plan discusses that the range of housing densities and types include anywhere from single-family detached homes to multifamily units, condominiums, and special residential accommodations for the elderly (assisted living, congregate care, and nursing homes).
