**Re: BZA2019-47: County Administrative Adjustment to centerline road setback from 85 feet to 68 feet for an accessory garage on property zoned RR Rural Residential**

**Legal Description: W 215 FT NW1/4 NE1/4 EXC N 50 FT FOR RD. SEC 24-25-1W, SEDGWICK COUNTY, KS; generally located on the South side of West 101st Street North and within one half mile West of North 24th Street West (3213 W 101st St N.)**

Dear Applicant:

We have reviewed your request for a Zoning Adjustment for a 20% reduction of the front building setback from 85 feet to 68 feet on 5.96 acres zoned RR Rural Residential.

Sec. V-1.2.a of the Unified Zoning Code allows a Zoning Adjustment permits the reduction of the front building setback by up to 20%. We find that reducing the front building setback from 85-feet to 68-feet on your property meets the four conditions required by Sec. V-1.6 of the Unified Zoning Code as set out below:

- 1) Impact on safety and convenience of vehicular and pedestrian circulation: This request is to reduce the front building setback on a county arterial road from 85 feet to 68 feet on the front property line on 5.96 acres. Public vehicular and pedestrian circulation will not be affected and the structure will not interfere with traffic circulation patterns.
- 2) Impact on existing uses in surrounding areas: There should be no negative impact on the existing uses in surrounding areas as a result of the structure being placed in front of the house 68 feet from the center line of a county section line road.
- 3) Compatibility with existing or permitted uses on abutting sites: Reducing the front building setback by 20% from 85-feet to 68-feet is within allowable adjustments and should not detract from the existing or permitted uses on abutting sites. Properties to the west and south are zoned RR Rural Residential and are agricultural land. Property to the north and east is zoned RR and developed with a single-family residence.

- 4) Effect on public health, safety or welfare: There will be no encroachment into public utility easements or right-of-way. There will be no negative impact on the public health, safety or welfare, nor will properties or improvements in the vicinity be materially injured.

Our signatures below indicate that a Zoning Adjustment to permit an accessory structure to be placed in front of the principal structure and reduce the front setback by 20% for the aforementioned property is hereby GRANTED, subject to the following conditions:

- 1) The 20% reduction of the front setback shall apply only to the proposed accessory structure illustrated on the approved site plan. All other structures or additions on the subject property shall conform to the development standards of the Unified Zoning Code unless a separate Zoning Adjustment or Variance is granted.
- 2) If the Zoning Administrator finds that there is a violation of any of the conditions of the Zoning Adjustment, the Zoning Administrator, in addition to enforcing the other remedies set forth in the Unified Zoning Code, may, with the concurrence of the Planning Director, declare that the Zoning Adjustment is null and void.

The "Development Application" sign should now be removed from the property.
