RE: ZON2020-00053: County Zone Change from RR Rural Residential to GC General Commercial on property located at the southwest corner of East 63rd Street South and South Hydraulic Avenue.

Dear Applicant;

At its regular meeting on **July 21, 2021**, the Sedgwick County Board of County Commissioners considered the above captioned request. The action of the BOCC was to **APPROVE** the request subject to Protective Overlay #361:

Protective Overlay #361

1. Uses shall be limited to those as permitted by-right in RR Rural Residential in addition to Vehicle Storage as permitted in GC General Commercial.
2. The following conditions shall apply only if the property is developed with a Vehicle Storage Yard:
 - a. The Vehicle Storage Yard shall be limited to the storage of operable boats and recreational vehicles only, and in no case shall it be used for sales, repair work, dismantling, or mechanical servicing of any vehicles or equipment, or for storage of materials or supplies.
 - b. The storage area and all entrance/exit drives shall be surfaced with an all-weather surface that meets the approval of the Director of the Metropolitan Area Building and Construction Department (or other chief jurisdiction code enforcement officer) and shall be maintained in good condition and free of weeds, trash, and other debris.
 - c. A landscape buffer shall be provided along arterial street frontages. The landscape buffer shall employ landscaped earth berms a minimum of four to six feet above at-grade elevation of the abutting right-of-way. The landscaping shall consist a minimum of two trees per 40-linear feet. Trees can be shade or ornamental. Shrubs and/or ornamental grasses shall be planted in-between tree spacing. The landscaping shall be irrigated and maintained. The following minimum standards shall apply for planting sizes:
 - i. Shade Tree: 2-inch caliper
 - ii. Ornamental Tree: 1-inch caliper
 - iii. Conifer Tree: 5-foot height
 - iv. Shrubs: 2 gallon
 - d. Visual screening of areas adjacent to residential zoning districts shall be provided to protect adjacent properties from light, debris, and noise, and to preserve adjacent property values. In no case shall screening be less than that required by Section IV-B.1-3 of the Unified Zoning Code, unless the applicant demonstrates adequate screening may be provided

through alternative means, and the requirements imposed by Section IV-B.1-3 would be overly burdensome on the applicant.

- e. Outdoor lighting sources shall conform to Unified Zoning Code Section IV-B.4, which requires cut off luminaries to minimize light trespass and glare. All light poles within 200 feet of residentially zoned properties shall not exceed 15 feet in height.
- f. There shall be no off-site/billboard signs. Signage is restricted to one (1) pole sign and one (1) building sign per street frontage. The pole sign shall not exceed 25 feet in height and shall not exceed 150 square feet in area. The area of the building signs shall not exceed 20 percent of the building façade, and shall not exceed 200 square feet each. Electronic message boards are prohibited. All illumination of signs shall be internal or directed away from residentially zoned properties.
- g. A revised screening/landscape plan shall be submitted to the Planning Department for review and approval prior to the issuance of any building permits and/or applicable licenses.
- h. The site shall comply with all required compatibility requirements of Section IV-C of the Unified Zoning Code regarding setbacks, height, and noise. However, there shall be no outdoor speakers or sound amplification systems.
