Crackdown May Produce Payment of Overdue Taxes

By Angel Hernandez
Staff Writer

More than two years after Wichita moved to crack down on an annual deficit of more than \$1 million in special assessment collections, city officials say it is still too early to gauge whether that change has reduced those delinquent tax payments.

The overdue special assessments for new real estate developments were incurred primarily by builders and developers caught in a stagnant real estate market. But the late payments sometimes cost the city's taxpayers at-large money that could have been used in other areas.

Special assessments are taxes on property where the city has paid for improvements such as streets, sewer and water lines. The buyer of a home usually repays that cost to the city, but with the real estate market stagnating, cash-strapped developers unable to sell their properties have, in some cases, withheld payment to the city.

The City Commission began to plug the sieve of delinquent specials in late 1984. The more-stringent standards were devised and first implemented by former city manager Gene Denton's administration.

The standards included stiffer requirements for developers to guarantee that special assessments would be made on time, increased monitoring by city staff to assure that delinquent payments were collected and denial of new special assessments for developers who are delinquent on other projects.

The 1985 tax year, during which the tougher assessments policy went into effect, showed few results from the changes. The city

The 1985 tax year, during which the tougher assessments policy went into effect, showed few results from the changes.

approved \$16.2 million in special assessments; it collected about \$14.7 million — about \$1.5 million too little. The percentage, however, is consistent with the historic rate for special assessment payments that turn up late each year.

Glen Dockery, city budget and management director, noted that developers and others late in paying their special assessments generally have about three years to do so before Sedgwick County officials foreclose. He said he was confident that this year's figures on collections would prove higher than those of previous years.

Dockery says that in the end Wichita receives the bulk, about 98 percent on the average, of what it is owed in specials. The rest apparently falls through the cracks, often because of bankruptcies. Dockery said that in the cases of public foreclosures, the city does get its money back.

Dockery also said his staff does not know how much of a loss the city might have sustained in these cases. Sedgwick County Tax Collector Jerry McCoy did not think his office had an exact figure, either.

McCoy said there are approximately \$5.5 million in late special assessments still owed to governments in Sedgwick County, but "I don't have a total for the city."

Yet there are a handful of builders, including some that have gone into bankruptcy, that owe more than \$100,000 in late taxes to Wichita.

There will always be those who

are late payers. City Finance Director John Moir notes that, on the average, about 5 percent of the city's property taxes are paid late.

Still, Moir and others don't know any particular reason why the rate on late special assessments owed Wichita, although substantially small, is double the late rate on property taxes.

"This is not uncommon for all other cities in the U.S.," Moir said.

City officials do point out that one tenet of the 1985 policy refinement, refusing platting of developments to builders who still owed previous special assessments, has had tangible effects. City Engineer Mike Lindebak, who served for a period in 1986 as interim city-county planning director, said that applying developers were told in six cases to pay up before getting another city nod.

The Wichita Area Builders Association initially protested the tighter standards two years ago and blamed the economy for the problem. Executive director Wes Galyon's only comment last week of the policies' aftermath was, "There is a concerted effort by builders to make their assessments current."

And because of lower interest rates available through private lenders, builder Gaylan Nett, Jr. said, developers soon may turn to paying such street and sewer and water lines costs up front to the city. It'll be cheaper, according to Nett, for the builders to borrow the money from private hands than pay back the city at a higher interest rate.

FROM: Michael E. Lindebak, Director of Planning (Interim)
SUBJECT: Delinquent Special Assessments

During recent weeks, considerable discussion has occurred regarding the extent of the problem with delinquent special assessments. Questions have been raised about the growing amount of uncollected special assessment taxes. Statements have been made about the number of residential lots in delinquency, and so forth. The following information represents our continuing efforts to better understand this issue.

The following table shows the amount of special assessment levies and collections for the City of Wichita from 1980 to the present.

Special Assessment Collections

| <u>Year</u> | <u>Amount Certified</u> | <u>Amount Collected</u> | <u>Amount Uncollected</u> | <u>Percent Uncollected</u> |
|-------------|-----------------------------|-----------------------------|-------------------------------|--------------------------------|
| 1980 | \$4,978,765 | \$4,548,069 | \$430,696 | 8.65 |
| 1981 | 5,529,817 | 5,117,809 | 412,008 | 7.45 |
| 1982 | 7,150,486 | 6,406,819 | 743,667 | 10.40 |
| 1983 | 12,848,736 | 11,635,597 | 1,213,139 | 9.44 |
| 1984 | 15,012,225 | 13,552,965 | 1,459,260 | 9.72 |
| 1985 | 15,713,274 | 14,591,918 | 1,121,356 | 7.14 |
| 1986 | 16,254,615 | 14,705,171 | 1,549,444 | 9.53 |
| 1987 | 17,344,932 | | | |

The amount collected does not include any revenue received in any given year for delinquent taxes due but unpaid for a prior year. Therefore, the amount uncollected is in actuality less than the amount shown.

On October 21, 1986, the Sedgwick County Board of Commissioners filed a case in District Court to foreclose on properties with delinquent taxes. These properties are delinquent since September 1, 1983 and are to be sold at public sale unless redeemed in advance of sale date. The redemption cost includes total unpaid taxes, interest, and court costs. If the tax sale proceeds for a given property are insufficient to cover the entire redemption cost, court costs are first paid and remaining funds are proportionately allocated to all taxing jurisdictions.

November 21, 1986

A review has been made of the above mentioned court documents to determine the extent of residential additions with concentrated (five or more lots) delinquent taxes (see attached table). This review identified a total of six additions containing 66 lots within the City of Wichita. A total of five additions containing 289 lots were identified in Sedgwick County. The Rainbow Lakes West 3rd and 4th Additions were platted and improved as Sedgwick County additions but have subsequently been annexed into the City of Wichita. The general location of these areas are shown on the attached map.

At this stage, the following questions would seem to be relevant.

1. How much delinquent revenue is collected each year from prior years and what is the City's net loss?
2. How many of the delinquent properties will likely be redeemed prior to court sale?
3. Do we have valid letters of credit on any of the delinquent properties?

| Date: | No. | Advising bank reference no. |
| Advising bank | For account of | |
| To beneficiary City of Wichita 455 North Main Wichita, Kansas 67202 | Amount | |
| | | Expiration date |

Gentlemen:

We hereby establish our Irrevocable letter of credit in your favor available by payment for your drafts drawn at sight on and accompanied by documents specified below

- A statement signed by an authorized representative of the City of Wichita certifying that the amount of the draft presented therewith constitutes a penalty for nonpayment of special assessments covering the installation of the following described improvements in the City of Wichita, Kansas:

(Project No.)

Said special assessments having been levied against the following described properties:

Special Conditions:

Partial drawings are permitted.

This original letter of credit must be presented with any drafts drawn hereunder and the amount available shall be reduced by the amount of any drafts drawn not exceeding in the aggregate a total of _____.

Notwithstanding the expiration date noted above, it is understood that this letter of credit shall be automatically renewed for additional two-year periods unless we notify you in writing at least sixty (60) days prior to the then relevant expiration date that it will not be renewed at which time you may draw up to the full amount of the credit available at that time. Upon development (issuance of occupancy permits by the City of Wichita) of 35 percent of the above-described properties, the City of Wichita will, by written instruction, authorize the release of this letter of credit.

Drafts drawn hereunder must be marked "Drawn under _____, Letter of Credit No. _____, dated _____, Authorizing Institution _____."

Advising bank's notification

We hereby engage with you that all drafts drawn under and in compliance with the terms of this credit will be duly honored if drawn and presented for payment at this office on or before the expiration date of this credit.

Sincerely yours,

Authorizing Institution

SUBJECT: New Ownership of Delinquent Tax Property

It has come to our attention that a property listed in the tax foreclosure suit recently cited in a memo to you has changed ownership. We have been told that Cedar Park Chateaux Addition is no longer owned by Jay W. Russell, but by Cedar Park, Inc., a company with Dean DeWitt as a majority owner. Apparently, efforts are underway to correct this item in the court documents. In addition, we understand that these particular properties (16 lots) will likely be redeemed prior to scheduled court sale.

Material Added

WICHITA-SEDGWICK COUNTY
METROPOLITAN AREA PLANNING DEPARTMENT

November 7, 1986

TO: Chris Cherches, City Manager
FROM: Michael E. Lindebak, Director of Planning (Interim)
SUBJECT: Development Policy for Public Improvements, AR 29

A review of the implementation of Administration Regulation 29, Development Policy for Public Improvements dated April 16, 1985, provided the following information.

Presented in Attachment A is a flow chart of the lines of responsibility contained in the development policy. Since the policy went into effect (April 16, 1985) through October 31, 1986, two hundred twenty six (226) projects were built or were in the process of being built. All developers requesting special assessment financing for public improvements after April 16, 1985 were required and have complied with the rule that they provide an irrevocable letter of credit or some other instrument which would cover 35% of the estimated principal costs of the project (Attachment B). If special assessments on all or a portion of the development are not paid, the financial guarantee would be applied annually to satisfy the costs of the public improvements. Developers have provided the City of Wichita with instruments of irrevocable credit margins from a low of \$1,750 to a high of \$193,500, which will be used to pay for special assessments if the taxes become delinquent. To date no financial guarantees provided by developers have had to be used to pay delinquent specials.

A sufficient amount of time, generally 2 or more years, has not passed since the implementation of AR 29 to have had delinquent special assessment taxes assessed to property developed under the new policy.

Uncollected special assessments for the time period 1982 through 1986 are as follows:

| <u>Year</u> | <u>Amount \$</u> |
|-------------|------------------|
| 1986 | \$1,549,444 |
| 1985 | 1,121,359 |
| 1984 | 1,459,260 |
| 1983 | 1,213,139 |
| 1982 | 743,667 |

Uncollected special assessments in 1986 could be from special taxes assessed in 1984 or before. These delinquent specials should be able to be reduced by enforcing the letters of credit previously issued against these projects which were developed before April 16, 1985.

Mike's Review

Chris Cherches, City Manager
November 7, 1986
Page 2

Another feature contained in AR 29 was to not permit any developer with delinquent taxes on any existing development to be considered for new development under policy AR 29. The delinquent taxes not only included those owed to the City of Wichita but included those owed to other governmental entities in the State of Kansas. All developers requesting special assessment financing for public improvements after April 16, 1985 were required to sign an affidavit that they and anyone else having an interest in the property that was to be improved did not have any delinquent special taxes anywhere in the State of Kansas (Attachment "C").

Policy AR 29 approaches the delinquent specials from two sides: 1) delinquents on a specific parcel covered by financial guarantee, 2) delinquents on any parcel not covered by the specific financial guarantee but owned by a developer requesting special assessment financing for a project. Under the first approach, the general public is protected by the letter of credit. If delinquency occurs, the City of Wichita will draw down on the letter of credit to keep the special taxes current. This is a rather straight forward process--monitor projects by matching delinquent special assessment lists with projects covered by letters of credit. If delinquency occurs, draw down on letter of credit.

The second approach may appear straight forward but it becomes complicated by the fact that ownership in any delinquent assessment is sometimes difficult, at best, to determine. Ownership may be held in other family member names, corporations, trusts, etc. Matching these delinquent specials will involve establishing procedures and tools which presently do not exist.

The present approach is to have the developer sign an affidavit swearing to the facts. It would be difficult to actually verify that the developer or any one with an interest in the project does not have unpaid special assessments anywhere in the State of Kansas.

The message that AR 29 was trying to convey to developers was that if the developer wanted to use special assessment financing to install public improvements the developer must keep current on outstanding tax liabilities. That message in the long-run should reduce the amount of uncollected special taxes, but it should be noted in the short term uncollected special assessments reached a six year high in 1986 of \$1,549,444. The policy does not replace the judgement of the developer and the lending institutions. The market place will still dictate the success or failure of development. The policy will aid in protecting the public and home owner from developers not completing the installation of public improvements. The policy will not protect against homeowners not keeping special assessment taxes current. This would be a function of individual responsibility and the current economic conditions of Wichita.

While the policy as expressed in AR 29 is still appropriate and should in the long-term reduce the amount of uncollected special assessments,

procedures for its implementation can be strengthened. A "common link" needs to be established between the specific parcels covered by the development guarantee and ownership in all its forms, i.e., corporate,

← close
gap

Chris Cherches, City Manager
November 7, 1986
Page 3

individual, trusts, etc. Part of that link was to be "key" or parcel numbers. Because parcel numbers are not always available for each "new" platted lot, they are not available when the developer applies for special assessment financing.

The present system relies too heavily on self-disclosure and new procedures should be established which will update and document steps to be followed in determining eligibility for program participation.

Some suggested changes to the present system follows:

1. When key numbers are not available when the project is instituted include legal description (lots and blocks). When key numbers are assigned, up date City of Wichita records with numbers. This will promote easier cross checking of records.
2. When letters of credit that were issued before April 16, 1985 expire or developer request a change, substitute new forms of assurances and enforce them if any delinquency occurs.
3. When the developer applies for special assessment financing, have the developer provide to the City of Wichita a certificate signed by the Sedgwick County Clerk that the developer or any principals in the proposed project do not have any delinquent taxes.

Another solution to the delinquent special problem would be for the City of Wichita to get out of the business of providing subsidies to private developers through special assessment financing.

If you wish to discuss this matter or require further information, do not hesitate to contact my office.

Michael E. Lindebak
Director of Planning (Interim)

ML:LPM:rh
Attachment A: Development Policy Flow Chart
Attachment B: Irrevocable Letter of Credit
Attachment C: Affidavit

Clark Charles, Div. Manager
November 1, 1986

Individual, transfer, and other information is being provided to you. Because special numbers are not available when the developer applies for a special assessment, please refer to the following information for more details.

The present system allows for special assessment on a lot-by-lot basis. The system should be established with the following steps to be followed in determining eligibility for special assessment:

Some suggested changes to the present system follow:

1. When key numbers are not available when the present is installed, the lot developer (lot and block) should be provided with a key number. When the City of Wichita receives the application, it will assign a key number to the lot. This will provide a key cross checking of records.

2. When letters of credit that were issued before April 15, 1985 expire, the developer should be notified. A letter should be sent to the developer and also to the City of Wichita to advise of the expiration date.

3. When the developer applies for special assessment, the developer should provide the City of Wichita with a certificate signed by the Sedwick County Clerk that the developer has any parcels in the project that are not being assessed for special assessment.

Another solution to the delinquent special problem would be for the City of Wichita to set out the business of providing subsidies to private developers through special assessment financing.

If you wish to discuss the matter or require further information, please contact my office.

Administrative Regulation

Date: April 16, 1985

AR 29

Subject: Development Policy for Public
Improvements

Supersedes: AR 31
September 8, 1976

Statement of Policy

It is the policy of the City of Wichita to facilitate new development by providing installation of public improvements (streets, drainage, sanitary sewers, water mains, etc.) upon petition, whenever reasonable assurances are provided by the developer or others that the special assessments will be paid when due.

Assurances are considered to be provided whenever the city has been furnished with a financial guarantee (irrevocable letter of credit, corporate completion bond, cashier's check, escrow account, or cash) on 35% of the estimated principal cost of the project (engineering design, construction, inspection, temporary note interest, and administration).

In addition, installation of public improvements may be authorized and directed by the Board of City Commissioners, upon petition and without guarantee, whenever it is determined that such action is in the public interest and when one or more of the following conditions exist:

- 1) Projects are ordered in by the Board of City Commissioners.
- 2) Projects that are infill in areas with multiple owners and where a majority of the benefit district (by square foot or lots) has development on it.
- 3) The majority of the benefit district is in public ownership.

The financial guarantee will be released upon request of the developer when certificates of occupancy are issued for at least 35% of the development that received the improvements.

Should special assessments on all or a portion of the properties not be paid, the financial guarantee will be applied annually to satisfy the costs of public improvements of such property.

Any developer with delinquent special assessments on existing development will not be considered for a new development under this policy. All developers filing an application under this policy will be required to certify, under oath, that no person having a financial interest in the lands in the benefit district is delinquent in special assessments for any city special assessment project within or without the city.

Development Guarantee Procedure

The Director of Planning shall be responsible for receiving requests and assurances and monitoring the implementation of this policy.

The Planning Department shall determine the cost of and receive the credit assurance which will include a list of the key numbers of properties to be developed. The assurance will be in one of the forms listed earlier in this policy.

City of Wichita, Kansas

Administrative Regulation

AR 29
Page 2

The development guarantees shall be submitted to the Departments of Law and Administration for review and and approval as to legal and financial form, respectively.

At the time the assurances have been provided, the Director of Planning shall submit the requests for public improvements to the City Manager for presentation to the City Commission. Upon approval of the governing body, the City Engineer shall initiate action to install the public improvements.

The development guarantees, along with the list of key numbers on property to be developed, shall be filed with the City Controller. The Controller shall be responsible for (a) renewing the guarantees, when necessary, and (b) semi-annually comparing key numbers for property developed under this policy and property with delinquent special assessments. Any property having delinquent special assessments with development guarantees shall be referred to the City Treasurer (with copies to Law, Planning, and the City Manager) for collection of the guarantee and payment of the delinquent special assessment and penalty.

To seek release of a financial guarantee, the developer must file with the City Controller a written request accompanied by evidence that certificates of occupancy have been issued for at least 35% of the development on which the guarantee is filed.

Robert G. Finch
City Manager (Interim)

TO: Development Review Committee

FROM: Michael E. Lindebak, Director of Planning (Interim)

SUBJECT: Delinquent Special Assessments

During recent weeks, considerable discussion has occurred regarding the extent of the problem with delinquent special assessments. Questions have been raised about the growing amount of uncollected special assessment taxes. Statements have been made about the number of residential lots in delinquency, and so forth. The following information represents our continuing efforts to better understand this issue.

The following table shows the amount of special assessment levies and collections for the City of Wichita from 1980 to the present.

Special Assessment Collections

| <u>Year</u> | <u>Amount Certified</u> | <u>Amount Collected</u> | <u>Amount Uncollected</u> | <u>Percent Uncollected</u> |
|-------------|-----------------------------|-----------------------------|-------------------------------|--------------------------------|
| 1980 | \$4,978,765 | \$4,548,069 | \$430,696 | 8.65 |
| 1981 | 5,529,817 | 5,117,809 | 412,008 | 7.45 |
| 1982 | 7,150,486 | 6,406,819 | 743,667 | 10.40 |
| 1983 | 12,848,736 | 11,635,597 | 1,213,139 | 9.44 |
| 1984 | 15,012,225 | 13,552,965 | 1,459,260 | 9.72 |
| 1985 | 15,713,274 | 14,591,918 | 1,121,356 | 7.14 |
| 1986 | 16,254,615 | 14,705,171 | 1,549,444 | 9.53 |
| 1987 | 17,344,932 | | | |

The amount collected does not include any revenue received in any given year for delinquent taxes due but unpaid for a prior year. Therefore, the amount uncollected is in actuality less than the amount shown.

On October 21, 1986, the Sedgwick County Board of Commissioners filed a case in District Court to foreclose on properties with delinquent taxes. These properties are delinquent since September 1, 1983 and are to be sold at public sale unless redeemed in advance of sale date. The redemption cost includes total unpaid taxes, interest, and court costs. If the tax sale proceeds for a given property are insufficient to cover the entire redemption cost, court costs are first paid and remaining funds are proportionately allocated to all taxing jurisdictions.

November 21, 1986

A review has been made of the above mentioned court documents to determine the extent of residential additions with concentrated (five or more lots) delinquent taxes (see attached table). This review identified a total of six additions containing 66 lots within the City of Wichita. A total of five additions containing 289 lots were identified in Sedgwick County. The Rainbow Lakes West 3rd and 4th Additions were platted and improved as Sedgwick County additions but have subsequently been annexed into the City of Wichita. The general location of these areas are shown on the attached map.

At this stage, the following questions would seem to be relevant.

1. How much delinquent revenue is collected each year from prior years and what is the City's net loss?
2. How many of the delinquent properties will likely be redeemed prior to court sale?
3. Do we have valid letters of credit on any of the delinquent properties?

WICHITA-SEDGWICK COUNTY
METROPOLITAN AREA PLANNING DEPARTMENT

November 7, 1986

TO: Chris Cherches, City Manager
FROM: Michael E. Lindebak, Director of Planning (Interim)
SUBJECT: Development Policy for Public Improvements, AR 29

A review of the implementation of Administration Regulation 29, Development Policy for Public Improvements dated April 16, 1985, provided the following information.

Presented in Attachment A is a flow chart of the lines of responsibility contained in the development policy. Since the policy went into effect (April 16, 1985) through October 31, 1986, two hundred twenty six (226) projects were built or were in the process of being built. All developers requesting special assessment financing for public improvements after April 16, 1985 were required and have complied with the rule that they provide an irrevocable letter of credit or some other instrument which would cover 35% of the estimated principal costs of the project (Attachment B). If special assessments on all or a portion of the development are not paid, the financial guarantee would be applied annually to satisfy the costs of the public improvements. Developers have provided the City of Wichita with instruments of irrevocable credit margins from a low of \$1,750 to a high of \$193,500, which will be used to pay for special assessments if the taxes become delinquent. To date no financial guarantees provided by developers under the new policy have had to be used to pay delinquent specials.

A sufficient amount of time, generally 2 or more years, has not passed since the implementation of AR 29 to have had delinquent special assessment taxes assessed to property developed under the new policy.

Uncollected special assessments for the time period 1982 through 1986 are as follows:

| <u>Year</u> | <u>Amount \$</u> |
|-------------|------------------|
| 1986 | \$1,549,444 |
| 1985 | 1,121,359 |
| 1984 | 1,459,260 |
| 1983 | 1,213,139 |
| 1982 | 743,667 |

Uncollected special assessments in 1986 could be from special taxes assessed in 1984 or before. These delinquent specials should be able to be reduced by enforcing the letters of credit previously issued against these projects which were developed before April 16, 1985.

Chris Cherches, City Manager
November 7, 1986
Page 2

Another feature contained in AR 29 was to not permit any developer with delinquent taxes on any existing development to be considered for new development under policy AR 29. The delinquent taxes not only included those owed to the City of Wichita but included those owed to other governmental entities in the State of Kansas. All developers requesting special assessment financing for public improvements after April 16, 1985 were required to sign an affidavit that they and anyone else having an interest in the property that was to be improved did not have any delinquent special taxes anywhere in the State of Kansas (Attachment "C").

Policy AR 29 approaches the delinquent specials from two sides: 1) delinquents on a specific parcel covered by financial guarantee, 2) delinquents on any parcel not covered by the specific financial guarantee but owned by a developer requesting special assessment financing for a project. Under the first approach, the general public is protected by the letter of credit. If delinquency occurs, the City of Wichita will draw down on the letter of credit to keep the special taxes current. This is a rather straight forward process--monitor projects by matching delinquent special assessment lists with projects covered by letters of credit. If delinquency occurs, draw down on letter of credit.

The second approach may appear straight forward but it becomes complicated by the fact that ownership in any delinquent assessment is sometimes difficult, at best, to determine. Ownership may be held in other family member names, corporations, trusts, etc. Matching these delinquent specials will involve establishing procedures and tools which presently do not exist.

The present approach is to have the developer sign an affidavit swearing to the facts. It would be difficult to actually verify that the developer or any one with an interest in the project does not have unpaid special assessments anywhere in the State of Kansas.

The message that AR 29 was trying to convey to developers was that if the developer wanted to use special assessment financing to install public improvements the developer must keep current on outstanding tax liabilities. That message in the long-run should reduce the amount of uncollected special taxes, but it should be noted in the short term uncollected special assessments reached a six year high in 1986 of \$1,549,444. The policy does not replace the judgement of the developer and the lending institutions. The market place will still dictate the success or failure of development. The policy will aid in protecting the public and home owner from developers not completing the installation of public improvements. The policy will not protect against homeowners not keeping special assessment taxes current. This would be a function of individual responsibility and the current economic conditions of Wichita.

While the policy as expressed in AR 29 is still appropriate and should in the long-term reduce the amount of uncollected special assessments, procedures for its implementation can be strengthened. A "common link" needs to be established between the specific parcels covered by the development guarantee and ownership in all its forms, i.e., corporate, individual, trusts, etc. Part of that link was to be "key" or parcel

Chris Cherches, City Manager
November 7, 1986
Page 3

numbers. Because parcel numbers are not always available for each "new" platted lot, they are not available when the developer applies for special assessment financing.

The present system relies too heavily on self-disclosure and new procedures should be established which will update and document steps to be followed in determining eligibility for program participation.

Some suggested changes to the present system follows:

1. When key numbers are not available when the project is instituted include legal description (lots and blocks). When key numbers are assigned, update City of Wichita records with numbers. This will promote easier cross checking of records.
2. When letters of credit that were issued before April 16, 1985 expire or developer requests a change, substitute new forms of assurances and enforce them if any delinquency occurs.
3. When the developer applies for special assessment financing, have the developer provide to the City of Wichita a certificate signed by the Sedgwick County Clerk that the developer or any principals in the proposed project do not have any delinquent taxes.

Another solution to the delinquent special problem would be for the City of Wichita to get out of the business of providing subsidies to private developers through special assessment financing.

If you wish to discuss this matter or require further information, do not hesitate to contact my office.

THE CITY OF WICHITA

October 21, 1986
John Roberts

TO: Glen E. Dockery, Research and Budget Officer

FROM: Harry Robbins, Management Intern *HR*

SUBJECT: Tax Sales and Foreclosures on Delinquent Real Estate

As per your request, I have gathered the following information on tax foreclosures and sale of property for delinquent taxes. After a review of the applicable state statutes, I met with Bob Rogers, Sedgwick Co. Controller, for clarification of the County's timetable from when a property becomes delinquent to the actual tax sale.

In summary, any property with taxes due in June 1983 would not come up for auction until Spring of 1986 or 1987 depending upon what type of tax was delinquent. The period of time after the County "bids" off the real estate considered for sale to the foreclosure proceedings is called the "redemption period." For properties with both ad valorem and special assessment taxes due the redemption period is 2 years. Property with all other delinquent taxes due has a redemption period of 3 years. Table I, below, summarizes the County's timetable.

TABLE I

| | |
|---------------------|--|
| Dec. 20 | 1/2 taxes due for tax year. |
| June 20 | 2nd. half of taxes due plus any unpaid balance. |
| June 21 | Any property with unpaid taxes considered for sale. 18% /yr interest starts on unpaid taxes. |
| July 1 - July 10 | County Treasurer prepares list of delinquent property (unpaid as of June 21). |
| September | 1st Tuesday - County bids off on delinquent property. Redemption period begins at this point. 2 year redemption period for property with delinquent ad valorem and special taxes due, but no homestead exemptions. 3 year redemption for all other delinquent taxes. |
| September | 1st Tuesday. Earliest date of filing foreclosures on real estate with expired redemption periods. (2 or 3 years after "bid"). |
| Spring | (following year after September foreclosure filing). Auction held on foreclosed real estate. Persons with right of redemption may redeem property up to 5:00 pm of the day before the auction. |

Additional Information

- (1) Persons having the right to redeem property (usually the owner) may do so at any time up to 5:00 pm the day before the foreclosure sale. If done during the 2 or 3 year redemption period an amount of the tax due plus any interest is due. If done after the September foreclosure filing but before the 5:00 pm closing date, the tax due plus any interest, court costs, and other charges is due.
- (2) A person having the right to redeem the property may not bid on the property at the tax foreclosure sale. Persons bidding at the sale must sign an affidavit stating that they have had no prior interest in the property. This, however, does not completely remove the possibility that owners bid on their own property.
- (3) Cities may bid on property sold at tax sales provided there are special assessments connected with the property.
- (4) If the property in question is part of a bankruptcy proceeding the process of redemption and foreclosure stops until the proceedings are over, (usually ordered by the court).
- (5) The county has around 750 parcels of property up for sale. The auctions of the properties are spread out to one a month over a three month period (250 pieces of property per auction).

Bob Rogers was helpful in providing information where the statutes were unclear, at least to the extent of outlining the County's timetable on the foreclosure sales. Because of the delay between the redemption period expiration, foreclosure filing, and actual auction of property, a two year redemption represents a period of three years (from delinquent to auction) and a three year redemption extends out to four years. From my analysis, there are two avenues of relief -- lobby to have the law changed to reduce redemption periods or attempt to penalize delinquent taxpayers by withholding permits, etc. It would seem to me that the latter avenue would be more realistic because there would be a greater chance of collecting unpaid amounts before the redemption period expires.

Please advise if further information or assistance is required.

Harry Robbins

Exhibit I

Summary of Applicable Statutes

All real estate taxes due and unpaid on June 21st draw interest of 18 percent per year (1 1/2 % per month) until real estate is sold for taxes by foreclosure or taxes are paid, (K.S.A. 79-2004; K.S.A. 79-2968).

All real estate on which taxes have not been paid on or before June 20 ... shall be subject to sale, (K.S.A. 79-2301).

Between July 1 and July 10 of each year the county treasurer "shall prepare a list subject to sale, describing the real estate, ... for the amount of the delinquent taxes and legal charges due on the real estate and that the sale will be on or after the first Tuesday of September following publication of notice," (K.S.A. 79-2302).

Real estate sold for delinquent taxes is sold as property and not as the "property of any person or persons," (K.S.A. 79-2315).

Real estate bid off by the county for both delinquent taxes (ad valorem) and special assessments shall be held by the county until the expiration of two years from the date of sale, subject only to the right of redemption. Any owner ... may redeem the real estate sold in the sale at any time within two years after the sale by paying to the county treasurer the amount for which the real estate was sold plus the interest accrued, (K.S.A. 79-2401(a)).

Real estate bid off by the county for both delinquent taxes and special assessments shall include only real estate on which there are delinquent taxes of a general ad valorem property tax nature and delinquent special assessments or other special taxes, located within a special assessment district (where) public improvements were installed by a city, county, or other municipality in response to a petition or request of the landowners, (K.S.A. 79-2401(c)).

If at the expiration of the redemption period, the real estate has not been redeemed, the real estate shall be disposed of by foreclosure and sale in the manner provided by K.S.A. 79-2801 et seq., (K.S.A. 79-2401(d)).

Persons having right to redeem may purchase property up for sale at public auction for amount not less than judgment lien and interest plus costs, charges, and expenses of the proceedings and sale, (K.S.A. 79-2804(g)).

Cities may buy real estate offered for sale if special assessments have been levied and remain due and unpaid at time of such sale, (K.S.A. 79-2804(i)).

THE CITY OF WICHITA

Harry

OFFICE OF Budget and Management DATE September 16, 1986

TO Chris Cherches, City Manager
FROM Glen E. Dockery, Research and Budget Officer

SUBJECT Report on Tax Receipts
 from Sedgwick County

The City Manager and the City Commission are aware of the problem the City has experienced in 1986 receiving in a timely fashion fund distributions from the County Treasurer. The problem was initially discussed in relation to the local sales tax monies when delays were experienced in receiving funds distributed by the State through the County Treasurer's office.

The purpose of this report is to provide information to the City Manager and the governing body concerning the City's experience in 1986 with the County Treasurer's Office for the distribution of County-wide sales tax funds, the special City and County highway gas tax Fund, and delinquent special assessment taxes.

County-wide Local Sales Tax

State statutes covering the local sales tax were amended by the 1986 legislature which corrects and streamlines distributions made to cities. The first direct distribution from the State was received September 4, 1986, somewhat earlier in the month than previous distributions from the County.

The following table illustrates the delays experienced in 1986 for the County-wide sales tax from the County Treasurer and the estimated interest loss to the City.

TABLE I

County-wide Sales Tax

| <u>Date County Received from State</u> | <u>Date City Received from County</u> | <u>Amount</u> | <u># Days Delay</u> | <u>Interest Lost</u> |
|--|---|---------------|-----------------------------|--------------------------|
| 2/4/86 | 2/12/86 | \$1,798,062 | 8 | \$ 2,796 |
| 3/4/86 | 3/14/86 | 2,252,626 | 10 | 4,380 |
| 4/1/86 | 4/8/86 | 1,714,055 | 7 | 2,333 |
| 5/5/86 | 5/13/86 | 1,890,966 | 8 | 2,731 |
| 6/3/86 | 6/10/86 | 1,785,797 | 7 | 2,257 |
| 7/9/86 | 7/17/86 | 1,985,341 | 8 | 2,867 |
| 8/1/86 | 8/12/86 | 2,168,154 | 12 | 4,330 |
| | | | | <u>\$21,694</u> |

Page two
 Chris Cherches
 September 16, 1986
 Subject: Report on Tax Receipts from Sedgwick County

Representatives of the State have indicated that a reasonable number of days required for the County Treasurer to make distribution would be two to three days. From the above table, it can be observed that in the majority of cases the monthly distributions were delayed seven or eight days with a high of a 12-day delay for the August payment. This by the way was the last payment made by the County prior to the amended statute taking effect.

Special City and County Highway Gas Tax Fund

The Special City and County Highway Gas Tax Fund distribution is a split distribution with a direct payment received from the State and a second distribution through the County Treasurer's Office. In these type distribution formulas the County Treasurer's Office acts merely as an agent for the State and has no direct control of the funds to be distributed within Sedgwick County.

The State Treasurer's Office has informed us the State distributes the County's allotment (to be distributed within the County by the County Treasurer) the same day the City receives the direct State payment.

The following table illustrates the delays experienced in receiving our distribution from the County Treasurer's Office.

TABLE II
Special City and County Highway
Gas Tax Funds

| Received from State | Amount | Received from County | Amount | # of Days Delay |
|---------------------|-------------|----------------------|-----------|-----------------|
| 1/20/86 | \$1,236,758 | 2/3/86 | \$807,336 | 14 |
| 4/24/86 | 853,609 | 5/20/86 | 558,231 | 26 |
| 7/31/86 | 1,225,804 | 9/5/86 | 615,186 | 36 |

The trend that is indicated in the above table on the number of days delay ranging from 14 in January to 26 in April and a 36-day delay in July is alarming. The average number of days delayed in 1984 and 1985 amounted to approximately 13 days, which is a reasonable amount of time for the County Treasurer to make whatever distribution is required.

With one more payment to be received in October, (if this trend continues), it is estimated the City will lose approximately \$8,000-9,000 in interest earnings for 1986.

Delinquent Special Assessment Taxes

A potentially more severe problem than the two funds discussed above relates to the delinquent special assessment tax receipts. This is a revenue source to the General Debt and Interest Fund and was estimated to be in the amount of \$1,100,000 in 1986.

As a revenue source to the General Debt and Interest Fund the proceeds are dedicated to debt service payments on outstanding bonds. The budgeted amount of \$1,100,000 is an integral part of the General Debt and Interest Fund revenue stream. Any significant reduction from the budgeted amount could place the City in an extremely low cash flow position to make the December 1, 1986 bond payment.

It must be noted in any discussion relating to delinquent special assessment tax distributions that the City does not have at this time access to County data processing tax information. Therefore, the projected annual revenue to the General Debt and Interest Fund must be based on prior year historical collection experience and the amount of special assessments spread by the City in previous years.

From an historical standpoint, the following table presents an eight-year overview of special assessments levied and collected.

TABLE III
Special Assessment Levies and Collections

| <u>Revenue Year</u> | <u>Assessments Certified to County</u> | <u>Assessment Collections</u> | <u>Uncollected</u> | % Uncollected of Certified Amount |
|---------------------|--|-------------------------------|--------------------|-----------------------------------|
| 1979 | 4,761,885 | 4,392,891 | | |
| 1980 | 4,978,765 | 4,548,069 | 368,994 | 7.75% |
| 1981 | 5,529,817 | 5,117,809 | 430,696 | 8.65% |
| 1982 | 7,150,486 | 6,406,819 | 412,008 | 7.45% |
| 1983 | 12,848,736 | 11,635,597 | 743,667 | 10.40% |
| 1984 | 15,012,225 | 13,552,965 | 1,213,139 | 9.44% |
| 1985 | 15,713,274 | 14,591,918 | 1,459,260 | 9.72% |
| 1986 | 16,254,615 | 14,705,171 | 1,121,356 | 7.14% |
| 1987 | 17,344,932 | | 1,549,444 | 9.53% |

30% per year

 Subject: Report on Tax Receipts from Sedgwick County

Delinquent Special Assessments Received

Delinquent taxes received by the City obviously relate directly to the amount of specials spread and the amount of uncollected taxes from the preceding years. For example, delinquent special assessment receipts in the early and late 1970s amounted to less than \$200,000 to \$300,000 annually. However, when the City began to issue an increased amount of special assessment bonds for development purposes, the uncollected amount increased, resulting in an increased delinquent special assessment amount received in the following year. Thus, in 1983, the City received in delinquent special assessments \$413,395; in 1984 the amount was \$1,436,229; and, in 1986, the total amounted to \$1,091,565.

The following table provides an historical overview of the dates and the amount of delinquent special assessments received by the City for the years 1984 and 1985.

TABLE IV

Delinquent Special Assessments Received

| <u>1984</u> | | <u>1985</u> | |
|-------------|--------------------|-------------|--------------------|
| 6-18-84 | \$ 775,613 | 1-04-85 | \$ 433,591 |
| 8-03-84 | 302,003 | 4-24-85 | 257,757 |
| 10-03-84 | 358,613 | 7-19-85 | 148,368 |
| | <u>\$1,436,229</u> | 10-03-85 | <u>251,850</u> |
| | | | <u>\$1,091,565</u> |

By previous memorandum, the City Commission was aware that the City had not received delinquent special assessment receipts through August of 1986. This was unusual in that in 1984 we had collected over \$1 million by August and in 1985 over \$700,000 had been distributed by July 19.

On September 4, 1986 a distribution for delinquent special assessments was received from the County in the amount of \$178,453. City staff was initially told by the County Treasurer this would be the only distribution of delinquent taxes made in 1986. The amount received is \$921,547 below the budgeted estimate.

While City staff does not at this time have access to the computer records, there is no reason to believe delinquent payments would be \$1 million less than 1985 and \$1,300,000 below 1984, especially considering the amount of current uncollected specials as reflected on Table III. We are in the process of requesting through the County Treasurer to have access to existing computer runs for purposes of determining delinquent taxes that have been collected and owed to the City.

Page five
Chris Cherches
September 17, 1986
Subject: Report on Tax Receipts from Sedgwick County

Recent discussions between the City Attorney's office and the County Attorney's office have resulted in a review of the records by the County Treasurer. Apparently, while not confirmed in writing, the County Treasurer has discovered an additional \$400,000 to \$500,000 to be distributed to the City. Further discussions will be held to determine the date we are to receive the additional delinquencies and also if in fact a fourth quarter distribution will be made.

For fiscal planning purposes and the six-year Capital Improvement Program projection, it is necessary for City staff to review historical data relating to the collection of special assessments. Regardless of the outcome of the delinquent special assessment distribution schedule, City staff will request access to Sedgwick County Data Processing information in this area.

Updated correspondence and events will be provided to your office upon receipt.

The Kansas Real Property Judicial Tax Foreclosure Process: Policy and Procedure

by Chris McKenzie
County Administrator
and
David Corliss
Management Intern
Douglas County

Kansas local government officials are keenly aware of the importance of the ad valorem tax on real estate as a source of revenue to finance essential local services. Many of the same officials are aware that the latent threat of judicial tax foreclosure is a necessary feature of the property tax collection process. These two factors combine to make Kansas procedure and policy concerning real estate tax foreclosure actions of interest to all people gathered around the public fisc.

This article surveys Kansas law authorizing foreclosure suits for real property with delinquent taxes and offers suggestions to both the practitioner and policy-maker blessed with this responsibility. Due to the Leviathan nature of the chore, tax foreclosure suits are often the victim of postponement and procrastination. This delay, however, inevitably multiplies the number of defendants and tracts that are eventually included in foreclosure suits requiring even greater legal and abstract work and even further delay. Filing regular and timely foreclosure actions is certainly the advisable path. While many property owners with tax delinquencies are overly ambitious developers or distant heirs of the near-forgotten, unfortunately, some are fixed-income homeowners for whom the threat of foreclosure can command life-changing decisions. Notwithstanding these facts, tax foreclosure sales can be seen as serving an important public purpose — ensuring that the costs of government are

borne equitably by all those who share its benefits.

Before discussing the actual commencement of the tax suit, it is helpful to survey the statutory provisions concerning redemption of property. K.S.A. 79-2301 *et seq.* sets forth the procedure for redeeming property on which taxes have not been paid as of the twentieth day of June in each year. On the first Tuesday of September, real estate with unpaid taxes from the preceding year is "bid-off" by the county treasurer to the county for the amount of delinquent taxes. This bidding off (or lien-perfection) by the county begins the redemption period under K.S.A. 79-2401a during which the property owner may redeem the real estate by paying to the county the amount of the sale (delinquent taxes), the interest accrued and other costs. K.S.A. 79-2968 sets the interest rate for delinquent taxes at 18 percent per year. Partial redemptions of less than the total amount due are authorized by law at this stage of the process.

K.S.A. 79-2401a provides for a two-year redemption period from the date of sale (to the county), except for homestead property under Section 9 of Article 15 of the Kansas Constitution which is granted a three-year redemption period. Subsection (d) of K.S.A. 79-2401a provides that if at the expiration of the redemption period the real estate has not been redeemed, the real estate shall be disposed of by foreclosure and sale in the manner provided by K.S.A. 79-2801 *et seq.* The county also may

foreclose on property with delinquent special assessments according to this timetable (i.e., two years, except for homesteads) if the city clerk certifies the public improvements for which the special assessments were levied were requested by the landowners.

In preparing to file the actual tax foreclosure action, all of the owners or supposed owners of the real estate and persons having or claiming to have any interest in the property must be identified because K.S.A. 79-2801 requires the county to name all such individuals and corporations as defendants in the foreclosure suit. Abstract and title companies are skilled and eager to prepare an ownership and title report in this regard. With the list of owners and additional parties from the abstract company identifying the defendants, the next step is to locate them. Finding addresses for certain defendants will require little beyond the telephone directory. However, property owners (and their heirs, judgment creditors or mortgagees as the case may be) can be difficult to locate.

Before the suit is filed, the board of county commissioners must authorize the county attorney or county counselor to institute the foreclosure action in the District Court. If the tax foreclosure suit involves numerous defendants, it may be advisable to obtain a court order under K.S.A. 60-205 which will avoid the necessity of the county and the defendants having to serve every party with every pleading. Joinder of defendant parties in one lawsuit is provided for in K.S.A. 79-2802. Additionally, appointment of an attorney for defendants in the military service and as a guardian ad litem is necessary under federal and state law.

Under the provisions of the federal Bankruptcy Code (11 U.S.C. Subsection 362(a)), the filing of a bankruptcy petition automatically stays a real estate tax foreclosure action. Counties routinely receive copies of bankruptcy petitions from the bankruptcy court clerk. Debtors listed in active petitions should be checked against property owners in the foreclosure suit to avoid violating the automatic stay provisions of the code.

The tax foreclosure suit petition (which must be filed in duplicate) must contain:

- ✓ a legal description and any applicable city address for the delinquent property
 - ✓ the amount of taxes, charges, interest and penalties chargeable to the property
 - ✓ the names of the owner, supposed owner and any parties having or claiming to have an interest in the property
 - ✓ and the year the real estate was "bid-off" by the county under K.S.A. 79-302
- The petition should request that the court determine the amount charged against the property and also determine the identity of the owner and interested parties. Finally, the petition should request that the amount

due be adjudged a first and prior lien upon the real estate and that the property be sold at public sale for the satisfaction of the lien and other expenses.

After the petition has been filed, payment of taxes upon the real estate included in the petition no longer occurs under the redemption provisions of K.S.A. 79-2401a; instead K.S.A. 79-2803 governs post-petition redemption. At this stage, only the owner, mortgagee or party claiming ownership can redeem the property. Redemption of property in the suit is accomplished by completing an Application to Redeem in the district court clerk's office, tendering court costs and paying the delinquent taxes and interest to date in the treasurer's office. The treasurer's office forwards a copy of the Application to Redeem and paid tax statements to the county counselor or attorney. He or she then prepares a motion for dismissal for the various causes of actions which have been redeemed. The motion and order of dismissal is then mailed to the defendants in the dismissed causes of action.

Post-petition — unlike pre-petition — redemptions must be for the full satisfaction of taxes due on the property, not just for the earlier delinquent taxes that made the property eligible for the foreclosure suit. In other words, partial redemptions are not authorized by law after the filing of the foreclosure petition.

While the service and summons of the petition follow routine Kansas Civil Procedure, it is important to note that since many property owners will not be located and therefore not personally served, service by publication will become a necessity. If service is made by publication, the notice, in addition to the requirements prescribed by the Code of Civil Procedure, must contain a description of the real estate.

Under K.S.A. 79-2803, tax foreclosure suits "shall have precedence over all other actions except criminal cases," in the District Court. Tax foreclosure suits differ from other forms of litigation in that most defendants fail to answer, and those defendants who do answer seldom set forth a defense. Since there is rarely any factual dispute, a jury trial is usually waived. Thus once all defendants have been provided notice — either by personal service or publication — a default judgment against the defendants can be sought and a journal entry of judgment prepared for approval by the court.

K.S.A. 79-2802 provides that the journal entry must particularize the judgment lien amount and the owner(s) for each piece of real estate. The judgment lien should include the statutory interest to date and the costs, charges and expenses of the suit (including abstracting expenses) and anticipated cost of the sale (such as publication and auction costs) chargeable to each piece of unredeemed property.

After judgment is rendered, the clerk of the district court issues an order of sale to the sheriff, who publishes legal notice of the sale for three consecutive weeks. The notice of sale describes the property and judgment lien and fixes a sale date not less than 30 days from the date of the first publication.

The property is sold at public auction for "the highest and best bid obtainable." Tax foreclosure sales will draw the keen attention of many neophyte real estate entrepreneurs fresh from no-money-down seminars. The level of interest expressed by potential purchasers will be determined by the number and quality of unredeemed pieces of real estate. It is certainly in the interest of the county to encourage active and monied participation in the auction. One way in which Douglas county accommodates public interest in such sales is by agreeing to send the final notice of the sale and the property included therein to any individual providing the county with a self-addressed, stamped envelope.

The successful bid may be for an amount below the judgment lien. However, K.S.A. 79-2804g prohibits the sale of foreclosure property directly (or indirectly) for an amount less than the judgment lien to any person having a statutory right to redeem the property. This proscription is enforced by K.S.A. 79-2804h which requires all purchasers to file an affidavit with the district court clerk stating that the purchase of the real estate was not made, either directly or indirectly, for any person having the statutory right to redeem. If the property sells for an amount greater than the judgment lien, the owner or creditors can obtain the excess by court order.

After the sale has been confirmed, the sheriff executes a deed to the purchaser. The sheriff's deed vests the purchaser with fee simple title to the property subject only to covenants and easements of record and taxes which have become a lien on the property since judgment was rendered. All past tax liabilities, debts and liens are removed, but the property remains liable for all future taxes (and special assessments).

The proceeds of the sale are paid by the clerk of the district court to the county treasurer, who has the responsibility under K.S.A. 79-2805 to prorate to each fund, if practicable, its proportionate interest in the entire lien. As those familiar with mill levy mathematics might presume, apportioning the tax sale proceeds for each tract is a time-consuming task.

K.S.A. 79-2804b provides that any action to open or set-aside a tax foreclosure suit or sale must be commenced within 12 months after the date the sale of real estate was confirmed by the court. However, most litigation surrounding tax foreclosure actions concerns either the failure to sue the proper owners and additional parties or the failure to provide these individuals with

adequate legal notice of the suit. The Kansas Supreme Court has held the 12-month time limitation in K.S.A. 79-2804b is generally inapplicable against such parties who claim a due process deficiency in the tax foreclosure suit or sale. With this as background, the importance of service and legal notice to all owners, supposed owners and parties claiming a legal interest in the property is not easily exaggerated.

Kansas law governing tax foreclosure provides a straightforward, albeit time-consuming, procedure for the collection of delinquent property taxes. Both the public official and legal practitioner should appreciate the duty to all taxpayers to vigorously advance tax collection efforts. As the tax collection agent for all other taxing subdivisions, counties bear a special obligation to ensure the prompt collection of delinquent real estate taxes. The failure to utilize the tax foreclosure mechanism provided by state law only shifts a greater tax burden on those who make timely payments, thereby increasing the inequities in the property tax system.

Another Tax on Tax-Exempt Income

Congress' \$9 billion tax package to fund the costs of the toxic waste removal program (Superfund) includes \$2.5 billion to be raised over five years through the alternative corporate "book income" minimum tax provision of the new tax reform legislation. Book income includes tax-exempt interest income.

The rate would be .12 percent for Superfund financing and would be assessed against all corporations subject to the minimum tax, including banks.

Although the President has threatened to veto the legislation, it passed both houses of Congress by overwhelming margins.

Women Gubernatorial Candidates Set Record

The National Leadership Conference of Women Executives in State Government reports that a record nine women candidates have won gubernatorial primaries in 1986 statewide elections.

A record 20 women have sought governorships in 1986, and eight states will have women in this fall's general election, with Nebraska having women candidates on both Republican and Democratic tickets.

Kentucky Governor Martha Layne Collins and Vermont Governor Madeleine Kunin are currently the only incumbent women governors, with Kunin up for reelection this fall.

Mr. Chris Cherches
Manager, City of Wichita
455 N. Main
Wichita, KS. 67202

Dear Chris:

I am in complete agreement with you that improvements need to be made concerning taxpayer payments of delinquent special assessments. As I related to you in an earlier meeting, I am much more interested in directing the efforts of this office towards improving the collection of all taxes than in quibbling with the City of Wichita about insignificant matters. With our limited resources, I personally resent the time I've had to spend defending my operation with Mr. Klose and Mr. Dockery and the Legal Department. I assure you this time would be better spent in working together with the taxing districts in developing plans to increase collections.

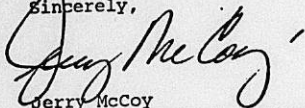

With regards to assisting the City of Wichita in reducing the tax delinquency rates:

1. I recommend that all developers seeking building permits be checked against the delinquent special list which we provide to you. (If we can provide those lists on a quarterly basis to be more helpful, let me know.) If a developer claims he has paid the delinquent taxes in question, the City Clerk has had the capability to verify payments on our accounts receivable records on-line for the past year.
2. I recommend that all developers requesting improvements which will result in special assessments be required to post a bond or letter of credit which may be collected on by the city upon default. This would assist in protecting the City in the event of insufficient proceeds from tax foreclosure sales to cover delinquent specials.

Chris Cherches
Page 2
October 9, 1986

For your information, tax foreclosures are not under my jurisdiction. They are handled for the Board of County Commissioners through the County Controller, Bob Rogers, who is directly responsible for the operation of the tax foreclosure office. Bob has been aggressive in improving procedures in this area and I am sure he would welcome discussion how we could improve collections.

Sincerely,

Jerry McCoy
Sedgwick County Treasurer

THE CITY OF WICHITA

OFFICE OF Housing & Economic
Development

DATE October 23, 1986

TO Chris Cherches, City Manager

FROM Don E. Anderson, Director of Housing & Economic Development

SUBJECT Status Report - Loss of City
Revenue from Special Tax
Assessments

On September 26th, a call from A. J. Sorres, a local investor, was received relative to Special Assessment problems, which he identified as follows:

1. Loss of revenue to City when property is sold at Tax Foreclosure Sale;
2. Possibility of relaxing total balance due requirements when developers cannot make full payments -- to assist the City inasmuch as taxes would not be forgiven, and to the developer in time of financial hardship.
3. Reduction of Special Assessments to property owners as a result of the City's refunding bond issues for such improvements.

Brief discussion with the Legal Department has indicated if Specials are forgiven upon tax sale, a review of existing legislation is needed for immediate corrective action.

A brief review with the City Clerk, who in turn verified information with the County, has revealed the following:

1. Special taxes are forgiven at Tax Foreclosure Sale.
2. Real Estate is being sold for pennies on the dollar. Two examples:
 - a. One with over \$4,000 sold for \$17.50; and,
 - b. Two with \$6,787 each sold for \$900 each.
3. Over 700 parcels will be sold in Spring of 1987.
4. Monies collected by County at sale applied:
 - a. First to costs (court fees, appraisals, etc.)
 - b. Taxes
 - c. Special Taxes
5. Rainbow Lakes Addition has 152 lots involved in foreclosure.

Ms Cherches, City Manager
October 23, 1986
page 2

Pat Miller met with Jeanne Lemon, Sedgwick County Tax Foreclosure Office, who was most cooperative in providing the following clarification/recommendations:

1. Only delinquent Specials are forgiven.
2. Under existing system, foreclosure cannot start until taxes are delinquent for at least two years. By actual sale, three years of taxes are due.
3. She recommends that:
 - a. Delinquent period be reduced to a much shorter period, i.e., 6 months to 1 year.
 - b. Developers pay for improvements and Special Assessment. Bonds not be issued for such purpose
4. Allocation/distribution of funds collected at tax sales are handled by the County Treasurer and it is her understanding the amount collected is prorated to costs and governmental entities, regardless of how small the amount might be.
5. She is currently finalizing three tax foreclosure cases involving over 700 parcels, of which about 80% are vacant lots. Cases are to be finalized and filed with the court in October with earliest sale dates of March, April and May of 1987.
6. Even though individuals must sign a statement that they have no current interest in the property they purchase, it is felt that many are sent by the owner of the property. The County is not allowed to transfer title to the individual who purchases the property at the sale. This must be done by the purchaser. Some property simply remains in the name and ownership of the individual who owed the taxes -- now permanently forgiven! A new three-year no-payment period begins.
7. Commencing with the next cases, she will provide copies of all information on all foreclosure cases to HED.

Cursory review of KSA 79-2801 appears to provide considerable latitude to County relative to Tax Foreclosure matters -- including fund disposition. Even so, the City should have access and understand just exactly how the process works and how the funds are being disbursed after sale.

A meeting was held with Lyle Botkin, Don Gisick, Pat Miller and myself on September 30th with the following information obtained.

1. County computer access is denied to City, so that information necessary to determine magnitude of problem/loss is currently unavailable.

Cherches, City Manager
ber 23, 1986

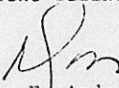

3

2. County Treasurer requires written justification for release of all information to insure City has "need to know". Discussion on uncooperative attitude of County Treasurer with City staff.
3. The following HED information available, shared with participants. All alarmed at rate of increase of number of foreclosures and decrease of revenue obtained at sales, and current projected increase:

| <u>Sale Date</u> | <u>No. of Parcels</u> | <u>Delinquent Amount</u> | <u>Sales Amount</u> | <u>Percent Recovered</u> |
|------------------|-----------------------|-----------------------------------|---------------------|--------------------------|
| 4-79 | 22 | \$ 12,879 | \$ 5,817 | 45.2% |
| 4-81 | 35 | 15,115 | 11,242 | 74.4% |
| 9-82 | 35 | 19,622 | 6,830 | 34.8% |
| 8-83 | 53 | 30,789 | 11,376 | 36.9% |
| 7-84 | 118 | 401,277 | 31,333 | 7.8% |
| 1985 | 375 Est | U N K N O W N | | |
| 1986 | 700+ Est | SALES SCHEDULE FOR MAR - MAY 1987 | | |

4. All agreed that in order to properly identify the problem, City must immediately obtain Special Assessment information on County Computer.
5. Agreed HED would request in writing three copies of the Delinquent Special Assessment Tax Report from County Treasurer.
6. Once information obtained, Controller's office will review and provide information relative to all delinquent Specials -- not just those scheduled for foreclosure at the next sales.

It is suggested that the new Finance Director be requested to address the problems presented in this memo. We need legislation developed on how the County handles Special Assessments and the Controller should finalize his review of the current delinquent Special Assessment problem.

Change
This

This is another area where sufficient time has not passed where the true impact of the policy can be judged.

Uncollected Special Assessment for the time period 1982 through 1986 are as follows:

| Year | Amount \$ |
|------|-----------|
| 1986 | 1,549,444 |
| 1985 | 1,121,359 |
| 1984 | 1,459,260 |
| 1983 | 1,213,139 |
| 1982 | 743,667 |

Uncollected special assessment in 1986 would be from ^{taxes assessed} projects begun in 1984 or before. It could be ~~generalized~~ ^{suggested} that the April 16, 1985 AR29 should have put developers on notice to keep special assessment current or the city would not participate in future development with the developer. That message in the long run should reduce the amount of uncollected special assessments from developers using the special assessment technique in ~~establishing~~ ^{public improvement} in private development.

One should be careful in generalizing the influence of the policy on uncollected specials

While the policy as expressed in AR29 is still appropriate the procedures for its implementation can be strengthened. A "common link" needs to be established between the specific parcels covered by the development guarantee and the owner in all its forms i.e. corporate, individual, trusts etc.

Attachment A

Development Policy

Flow Chart

Developer contacts MAPD to provide installation of Public Improvements (streets, drainage, sanitary sewers, water mains).

MAPD determines cost of project (engineering design, construction, inspection, temporary note interest, administration).

Developer required to put up financial guarantee equal to 35% of principal cost as well as sign affidavit of no delinquent specials.

MAPD submits guarantee to Departments of Law and Administration for review and approval as to legal and financial form.

MAPD submits project to City Commission for approval and awarding of contract.

MAPD ~~awards~~ and Operation and Maintenance monitors construction contract of successful bidder.

Controller's office responsible for renewing guarantees and semiannually comparing key numbers for property developed under this policy and property with delinquent specials.

Controller releases financial guarantee when the developer provides evidence that certificates of occupancy have been issued for at least 35% of the development.

Controller's Office Notifies City Treasurer of property having delinquent specials assessments with development guarantee for payments of special assessment and penalty.

TO Russell L. Brenner, Director of Administration
FROM Don E. Anderson, Director of Housing and Economic Development
SUBJECT Information Regarding Delinquent
Special Assessments

I am providing you with a letter from Joel Pollack dated November 6th, wherein he asks specific questions regarding the above subject.

During the November 29, 1984, meeting of the Economic Development Commission, Rod Stewart requested information as follows:

1. How do we get the guarantee bond or letter of credit cashed on a per-lot basis?
 - a. Do we need the requirements for the bond or letter of credit rewritten?
 - b. Can we do it ourselves?
 - c. Do we need the state law changed?
2. How can we get our fair share of penalties and interest on delinquent special assessments from the county?
 - a. Will the county give it to us freely?
 - b. Do we go to war with them in Topeka?

I believe you have provided some of the answers to these questions in previous packets of information you have furnished EDC, however, at this time I would like to request that you provide my office with both a complete assemblage of previous information you have furnished, along with any additional information needed to be comprehensive in answering both Mr. Pollack's and Mr. Stewart's questions.

Specifically, during the EDC meeting of January 24th, Mr. Pollack outlined his desire to have information as follows:

1. The actual amount of dollars lost as a result of foreclosing on delinquent specials for the last five years.
2. The mechanics involved in a piece of property going to tax sales as a result of delinquent special assessment taxes.

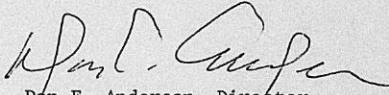

W

Russell L. Brenner, Director of Administration
Page 2
January 24, 1985

3. An actual list of the properties that were involved in these foreclosures.
4. What portion of the taxes were recovered as a result of the tax sales?

I have asked Nelson Hall, working with the Law Department, to prepare a memorandum outlining the state law and the procedures established at the county for tax sale and the exact mechanics of how this works.

I would like to request your office provide answers to the remaining questions as soon as possible, so that all of this information can be packaged and provided to the EDC/MAPC subcommittee.

NOV 8 1984

November 6, 1984

Don Anderson, Director
Department of Economic Development
City of Wichita
455 N. Main
Wichita KS 67202

Dear Don:

I recommend cancelling the November 8, 1984, Economic Development Commission meeting. I do not know of any pressing matters of Commission business that would occur during that period of time.

Assuming the City Commission does approve the requested extension of time for logical and reasonable approach to a revised "development policy for public improvements", I would hope that we could get the appropriate background and technical information to the EDC as soon as possible and no later than our next meeting of November 29, 1984. Specifically, the following items:

1. The amount and extent of excess cost that has occurred by virtue of delinquent specials.
2. Details of delinquent special assessments over the past 5 to 7 years.
3. Details of total special assessments over the past 5 to 7 years.
4. Details of bonds issued relating to special assessments over the past 5 to 7 years.
5. Any actual losses incurred by the city on special assessments.
6. Any other information appropriate to helping us make a stronger and better policy for the benefit of the city, the private sector, and the citizens of the city of Wichita.

Don, if we could receive the above data before our next meeting, it would help us to be informed for the public hearing which I would like to see held on December 13, 1984.

I will be out of the city from Thursday, November 8 thru November 22, 1984. Please call me if you have any questions.

Sincerely,

Joel M. Pollack

THE CITY OF WICHITA

OFFICE OF THE CITY MANAGER
CITY HALL - THIRTEENTH FLOOR
455 NORTH MAIN STREET
WICHITA, KANSAS 67202
(316) 268-4351

November 7, 1984

Mr. John Oliphant
Executive Vice President
Wichita Area Builders Association
730 North Main - Suite 1
Wichita, KS 67203

Dear Mr. Oliphant:

During the Wichita City Commission meeting of October 16, 1984, you presented a series of questions concerning the 35% development policy of the city. We have reviewed your questions as part of our review of possible changes to the policy. Our preliminary observations are as follows:

- 1) We believe that the use of special assessments to finance improvements in new developments benefits all those you listed: the developer and builder in reducing the need for up-front financing costs; the home buyer in a lower interest rate and total interest paid for such improvements; and the city in promoting greater developments and increasing the tax base.
- 2&3) It is not possible to definitively answer how much property tax revenue or employment was generated specifically because of the use of special assessments. With or without special assessment financing, houses would be built generating employment in the construction industry and taxes paid on those new houses. Whether the same or a lesser level of development activity would occur in the absence of special assessments is not fully demonstrable. We can agree, however, that special assessment financing is an incentive to some degree.
- 4) The differences between 15-year special and 30-year homeowner financing are (a) a lower interest rate for special assessments, (b) lower total interest paid with specials because of the lower interest rate and a shorter pay-back period, and (c) possibly lower annual payments. The degree of difference depends on the rate of interest for homeowner financing compared with the rate of interest for specials, both of which vary with the market. Assuming a total of \$10,000 in special assessments, 15-year specials at 9% interest, are paid back \$1,240.59 annually or \$18,608.83 total for 15 years. Conventional financing over 30 years at 14% interest results in \$1,428 annual payments and a total of \$42,840 for 30 years.

$$\begin{array}{r} -10 \\ 32,840 \\ \hline 48,524 \end{array}$$
 or 21M

Mr. John Oliphant
November 7, 1984
Page Two

- 5) The standards for public improvements in new developments are set in the subdivision standards. Irrespective of the method of financing such improvements, we would expect the same high quality.
- 6) The annual financial report includes sections on "Special Assessment Levies and Collections." For the most recent report for 1983, these sections are on pages 65 and 121. The section on page 121 reports total assessments for the year and the amount and percent collected. Also shown are collections from prior years. All of the approximate 2.3 million dollars is delinquent and not collected. Approximately 1.45 million dollars is not collected from 1983 and the balance of approximately \$890,000 is delinquent from prior years. The county has paid the city approximately \$650,000 in delinquent special assessment taxes since the July 28, 1984, data processing run. The amount paid to the county and not paid to the city prior to the date of the data processing run is not available to the city.
- 7) The current policy included several options for satisfying the 35% criterion: construction activity on at least 35% of the lots, sales contracts on at least 35% of the lots, and letters of credit or other credit assurances covering at least 35% of the lots. We have judged the letters of credit on those developments for which we have them to be marginal in enforcement. One of the efforts we are making in our review of the policy is to revise our letters of credit to make them more enforceable. Because a principle concern of the city is to collect the money on special assessments when they are due, we are also seeking to revise the guarantees generally to directly relate the guarantee to the payment of special assessments. Hence our focus on eliminating construction activity and sales contracts as options.
- 8) You added a last question orally about the city's loss on special assessments. The answer here lies in relative terms on the time value of money. If a banker is not paid on time for a loan, the banker may eventually collect the actual principle and interest, but has lost the option to invest that money in other ventures. Similarly, the city is forced to pay the bonds on delinquent special assessments and must lose the time value of that money. The city's problem is compounded because another unit of government collects and keeps the interest and penalties imposed as a result of the delinquency. With 2.3 million dollars in delinquent special assessments, the city's loss is the cost to finance that delinquency until the responsible parties finally pay. One way to look at it might be to envision how much you could earn in interest if you invested 2.3 million dollars -- very substantial, no doubt. In addition to delinquencies on special assessments, the city is carrying the interest differential between the interest on the bonds payable and interest charged to property owners in the amount of \$287,480 in 1984 and an estimated \$350,000 for 1985. This differential is recovered in the 10th through 15th year.

Mr. John Oliphant
November 7, 1984
Page Three

We will continue to look at these issues you have raised as we continue to review possible policy changes. The Economic Development Commission has asked the City Commission for a 120-day period in which to fully examine the current policy, conduct public hearings, and suggest changes. That request was approved by the City Commission on November 6, 1984.

You and your association are invited to participate in the deliberations of the Economic Development Commission and other groups. We have a common interest in this matter to assist in the development of the community and keep the cost to new home buyers as low as possible while insuring the integrity of the public's tax funds. Together we can find a course of action acceptable to all.

Sincerely,

E. H. Denton
City Manager
