WEST:	SF-5	Single-family residences

PUBLIC SERVICES: West Murdoch Street is a local, paved street with a 60-foot right-of-way and on-street parking. A sidewalk is located along the south side of West Murdoch Street. All municipal services are available to the property.

CONFORMANCE TO PLANS/POLICIES: The requested zoning would continue to allow the property to be in conformance with the Community Investments Plan and the Wichita: Places for People Plan.

The Community Investments Plan: The requested zoning aligns with the goals of the Community Investment Plan. The Community Investments Plan (the Wichita-Sedgwick County Comprehensive Plan) includes the 2035 Wichita Future Growth Concept Map. The Map identifies the area in which the site is located to be primarily appropriate for residential uses and defines residential uses as a variety of housing types including duplexes.

Wichita: Places for People Plan: The requested zoning aligns with the goals of the Wichita: Places for People Plan. The Wichita: Places for People Plan provides recommendations for urban infill development in the Established Central Area (ECA). The subject site is located within the ECA. In general, the ECA is envisioned as “a place for people - a place that provides for the movement of people - on foot, on bike and through transit - in balance with automobiles.”

- **Strategies:** The Plan recommends strategies to help guide the community in their actions to create walkable places within Wichita. The requested zoning aligns with Strategy 5, “Provide a diversity of housing options to attract new residents and allow existing residents to remain in the ECA.” The proposed duplex would provide a housing option that otherwise is limited in the area. The requested zoning also aligns with Strategy 6, “Encourage infill and redevelopment that is contextual to the environment in which it is occurring.” The proposed rezoning would allow infill within the undeveloped zoning lot that is residential in nature and compatible with the surrounding area.
- **Current Condition:** The subject property is located within an area identified as an “area of stability.” The Places for People Plan defines Areas of Stability as those “areas that exhibit less stress, or fewer economic, connectivity and accessibility issues than the Areas of Opportunity. Areas of Stability require fewer interventions and potentially less public investment to maintain a stable development environment and community.”

- **Nodal Development Pattern:** The Places for People Plan recommends a nodal development pattern that creates a critical mass at the center of a node and transitions in scale and intensity as uses shift from commercial to residential. The subject property does not fall within the node, transition, or edge areas of an identified node. The plan depicts Central and West as the nearest node and categorizes it as a “Community Core.”

RECOMMENDATION: Based upon the information available at the time the staff report was completed, staff recommends **APPROVAL** of the zone change request. Staff also recommends that the duplex conform to the *Wichita: Places for People* design recommendations (not requirements) as follows:

1. **Garages.** The garage face shall occupy no more than 50 percent of the ground-level façade facing the street and may not project more than five feet in front of the main facade.
2. **Entrances.** Pedestrian scaled entry shall be a prominent feature of the front elevation. Front doors shall be oriented to the street in front of the units.
3. **Windows and Transparency.** Transparent windows and/or doors facing the street are required. To meet this requirement, at least 10 percent of the façade must be transparent. The façade is measured from the base of the house to the start of the roofline and any other vertical walls facing the street, except for gabled portions of the facade not containing livable floor area. Garages facing the street shall count as part of the façade.
4. **Roof Design.** Roofs shall have variation in roof planes in order to break up the large roof mass through dormers, gables, or changes in elevation. Roof forms and roof pitches of porches, dormers and garages shall be consistent and complement the building style within the neighborhood.
5. **Siding materials.** Siding materials shall be appropriate to the architectural style of the structure. Traditional materials consistent with the neighborhood architectural styles are encouraged such as wood, masonry and brick. Siding materials and window trim should be consistent on all sides of the structures.
6. **HVAC.** HVAC units shall be located away from the front of the buildings and screened from public view through landscaping and/or screen walls.

This recommendation is based on the following findings:

1. **The zoning, uses and character of the neighborhood:** Properties to the north and west of the subject site are zoned SF-5 Single-Family Residential and developed with single-family homes. The property to the east of the subject site is zoned SF-5 Single Family Residential and is currently undeveloped. Properties to the south of the subject site are zoned B Multi-Family and developed with multi-family units.
2. **The suitability of the subject property for the uses to which it has been restricted:** The property is presently zoned SF-5 Single Family Residential and could be redeveloped with a single-family home.
3. **Extent to which removal of the restrictions will detrimentally affect nearby property:** Most subdivisions platted and developed prior to the 1960s are in use as single-family residences and duplexes. Because of the similarity of residential use, the UZC does not require screening between SF-5 and TF-3 zoning districts.
4. **Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies:** The requested zoning would continue to allow the property to be in conformance with the Community Investments Plan and the Wichita: Places for People Plan.

The Community Investments Plan: The requested zoning aligns with the goals of the Community

Investment Plan. The Community Investments Plan (the Wichita-Sedgwick County Comprehensive Plan) includes the 2035 Wichita Future Growth Concept Map. Wichita: Places for People Plan: The requested zoning aligns with the goals of the Wichita: Places for People Plan. The Wichita: Places for People Plan provides recommendations for urban infill development in the Established Central Area (ECA). The subject site is located within the ECA. In general, the ECA is envisioned as “a place for people - a place that provides for the movement of people - on foot, on bike and through transit - in balance with automobiles.”

- Strategies: The Plan recommends strategies to help guide the community in their actions to create walkable places within Wichita. The subject property does not fall within the node, transition, or edge areas of an identified node. The plan depicts Central and West as the nearest node and categorizes it as a “Community Core.”

5. **Impact of the proposed development on community facilities:** Development of the property with the requested zoning is not anticipated to have significant adverse impacts on community facilities or resources. All public improvements are available to serve the property.
