Dear Applicant,

At its regular meeting on **September 12, 2024**, the Wichita-Sedgwick County Metropolitan Area Planning Commission considered the above captioned request. The action of the MAPC was to recommend **APPROVAL** the request to change zoning from SF-20 Single-Family Residential District to LI.

Property owners opposed to the application may file with the County Clerk a signed, written protest of the MAPC’s recommendation. (Unsigned e-mails are not considered to be legal protests.) To be effective, the protest must be filed by 5:00 p.m. on September 26, 2024. In order to be considered a “valid” petition, the signatures must reflect the correct and entire ownership of the property, the property must be at least partially located within 1,000 feet of the property for which the application was filed, or 200 feet into the City limits of Wichita, and must be submitted to the County Clerk by **September 26, 2024, at 5:00 p.m.**

This application will be presented to the Board of County Commissioners on **Wednesday, October 23, 2024**, beginning at 9:00 a.m. The Board of County Commissioners meeting will be held 100 North Broadway, Lower Level, Wichita, Kansas.

This is a reminder that the zoning notification signs should now be removed from the property. If you have any questions concerning this application, please contact our office at 316-268-4421.

Sincerely,

## STAFF REPORT

MAPC: September 12, 2024

CAB 3: No Meeting

- 
- CASE NUMBER:** ZON2024-00039 (County)
- APPLICANT/AGENT:** Ronald G. Hammock Revocable Living Trust (applicant) / PSC Consulting, LLC; K.E. Miller Engineering; Sheri Dawn Proctor (agents)
- REQUEST:** LI Limited Industrial District
- CURRENT ZONING:** SF-20 Single-Family Residential District
- SITE SIZE:** 3.522 acres
- LOCATION:** Generally located on the west side of South 151<sup>st</sup> Street West and within 200 feet south of the West U.S. 54/400 right-of-way.
- PROPOSED USE:** Future Industrial Development.
- RECOMMENDATION:** Approve

**BACKGROUND:** The applicant is requesting a zone change from SF-20 Single-Family Residential District (SF-20) to LI Limited Industrial District (LI) to allow for future industrial development on the properties and to match the zoning of associated property to the north.

Should the zone change be approved, several property development standards will change, as seen in the table below:

Property Development Standards	SF-20 Single-Family	LI Limited Industrial
Minimum Lot Area	20,000 sq feet	No minimum
Front Setback	25 feet	20 feet
Rear Setback	25 feet	0 feet, subject to compatibility standards
Interior Side Setback	10 feet	0 or 5 feet, subject to compatibility standards
Street Side Setback	20 feet	0 feet, subject to compatibility standards
Maximum Height	35 feet	80 feet, subject to compatibility standards
Minimum Lot Width	100 feet	No minimum

Section IV-B.2 of the Unified Zoning Code (UZC) requires solid screening of commercial and/or industrial properties when abutting or across a street or alley from residential zoning districts. Because the property abuts residential zoning districts on the west and south sides, the applicant will be required to provide solid screening of at least a six-foot screening fence around the west and south property lines. Solid screening may be accomplished through landscaped earth berms that accomplish the same as a six-foot screening fence. The property would also need to adhere to the rules and regulations of the Sedgwick County Sign Code.

The UZC Sec. IV-C.5.a, Compatibility Height standards states that no structure shall exceed 35 feet in height within 50 feet of the lot line of property zoned TF-3 Two-Family Residential District (TF-3) or more restrictive. The proposed LI zoned site abuts and is adjacent to SF-20 zoning districts on the west and south sides. Any future buildings shall comply with the maximum height of 35 feet, which is the same as the abutting and adjacent SF-20 Districts on the west and south sides of the property. Structures located more than 50 feet from the lot line of property zoned TF-3 or more restrictive may increase height at a ratio of one foot in height for each three feet of setback beyond 50 feet. The minimum building compatibility setback shall be 15 feet plus one foot for each five feet of lot width over 50 feet.

Should the zone change be approved, the applicant shall be required to adhere to the parking standards set forth by the UZC, which would be determined based off any combination of uses proposed.

Property to the north is zoned LI, is in the City of Wichita, and is undeveloped. Properties to the west are zoned SF-20 and are developed with a manufactured home park and farming/ranch land. The farming/ranch land to the west has a land use application turned in requesting a zone change from SF-20 to TF-3 Two-Family Residential District (TF-3) to be heard at this same meeting. Property to the south is zoned SF-20 and is developed with a single-family dwelling. Properties to the east, across South 151<sup>st</sup> Street West, are zoned LI and are developed with warehouses and a manufacturing plant.

**CASE HISTORY:** The subject site is currently unplatted. Any commercial or industrial development on the properties will require platting.

**ADJACENT ZONING AND LAND USE:**

NORTH:	LI	Undeveloped
SOUTH:	SF-20	Single-family dwelling

EAST: LI  
WEST: SF-20

Warehouse, Manufacturing  
Manufactured Home Park/Farming/Ranch

**PUBLIC SERVICES:** The site has access to South 151<sup>st</sup> Street West, a paved, two-lane arterial street with no sidewalks on either side. Municipal services such as water and sanitary sewer are nearby, with water in the adjacent right-of-way. If the properties are to utilize the sanitary sewer mains, it's possible that the mains would need to be extended to access the properties.

**CONFORMANCE TO PLANS/POLICIES:** The requested zone change is in conformance with the Wichita-Sedgwick County Comprehensive Plan, the *Community Investments Plan*, identifies the site as "Commercial" and "New Employment" on the Future Growth Map Concept Map. "Commercial" is described as follows: "*Encompasses areas that reflect the full diversity of commercial development intensities and types typically found in a large urban municipality. Convenience retail, restaurants, small offices, and personal service uses are located in close proximity to, and potentially mixed with, Residential Uses. Major destination areas (centers and corridors) containing concentrations of commercial and office uses that have regional market areas and generate high volumes of traffic are located in close proximity to major arterials or highways and typically are buffered from lower density residential areas by higher density housing types.*" "New Employment" is described as follows: "*Encompasses areas that likely will be developed or redeveloped by 2035 with uses that constitute centers or concentrations of employment primarily in manufacturing, warehousing, distribution, construction, research, technology, business services, or corporate offices. Major shopping centers and office parks likely will be developed within this area as well, based upon market driven location factors. In certain areas, especially those in proximity to existing residential uses, higher density housing and convenience retail centers likely will be developed. In areas where the uses are already established, pockets of industrial uses associated with extraction, processing or refinement of natural resources or recycling of waste materials likely will be developed.*" Establishing LI zoning on these parcels is appropriate considering the proximity to other LI zoned parcels. However, with the property to the west requesting to be rezoned to TF-3 simultaneously, increasing the amount of LI zoned properties next to a potential large residential development will need to be considered. However, the screening and compatibility requirements of the UZC are designed to promote compatibility between uses.

**Locational Guidelines:** The request is in partial conformance with the Land Use Compatibility Locational Guidelines of the Comprehensive Plan. Under the heading "Development Pattern," Guideline 1.e recommends that, "*Higher-density residential uses and neighborhood-serving retail and office uses should buffer lower-density residential uses from major commercial and employments centers and industrial uses.*" Although a Manufactured Home Park is west of the subject sites, a concurrent request to rezone other abutting land to the west from SF-20 to TF-3 would potentially place a large residential development directly to the west of the subject sites. Additionally, an SF-20 zoned parcel is directly south of the subject area. Also, under the heading "Development Pattern," Guideline 3.d recommends that, "*Low-density residential uses should be buffered from commercial and industrial areas by open space, water bodies, changes in topography, or major barriers such as arterial streets or highways.*" If the request is approved, along with the concurrent zone change to the west, the residential uses would more than likely not be buffered in accordance with the Locational Guideline. Lastly, under the heading "Land Use Compatibility," Guideline 3.a recommends that, "*Except in mixed-use developments, residential and non-residential development areas generally should be separate and distinct with appropriate screening and buffering to ensure compatibility among land uses while maintaining connectivity among uses.*" Any commercial or industrial uses developed on the subject sites would need to be screened and buffered where abutting residential properties, according to the UZC.

**RECOMMENDATION:** Based upon the information available at the time the staff report was completed, staff recommends **APPROVAL** of the request.

The recommendation is based on the following findings:

1. **The zoning, uses and character of the neighborhood:** Property to the north is zoned LI and is undeveloped. Properties to the west are zoned SF-20 and are developed with a manufactured home park and farming/ranch land. The farming/ranch land to the west has a land use application turned in requesting

a zone change from SF-20 to TF-3 Two-Family Residential District (TF-3) to be heard at this same meeting. Property to the south is zoned SF-20 and is developed with a single-family dwelling. Properties to the east, across South 151<sup>st</sup> Street West, are zoned LI and are developed with warehouses and a manufacturing plant.

2. **The suitability of the subject property for the uses to which it has been restricted:** The properties are presently zoned SF-20 Single-Family Residential District and are suitable for single-family use and a limited number of public and civic, commercial, industrial, and agricultural uses.
3. **Extent to which removal of the restrictions will detrimentally affect nearby property:** The subject properties are in close proximity to other LI Limited Industrial properties. Should the zone change take place, it is not anticipated that nearby properties would be detrimentally affected. However, the concurrent zone change request to the west would permit a large residential development abutting the subject sites. This could detrimentally affect that potential development.
4. **Length of time the property has been vacant as currently zoned:** It appears that the properties have never been developed.
5. **Relative gain to the public health, safety, and welfare as compared to the loss in value or the hardship imposed upon the applicant:** The requested zone change would permit almost the entirety of the public and civic, commercial, industrial, and agricultural uses on the subject site. Denial could represent loss of economic opportunity for the applicant.
6. **Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies:** The requested zone change is in conformance with *The Community Investments Plan* as discussed in the staff report.
7. **Impact of the proposed development on community facilities:** It is not anticipated that development of the property will have significant negative impacts on community facilities or resources.
8. **Opposition or support of neighborhood residents:** At the time of the publication of the staff report, staff has not received any comments from the public.
