Dear Applicants,

We received and reviewed your request for an Administrative Adjustment to PO #49 to permit five (5) building signs on the east elevation for the business on Parcel 6. The proposed building sign package includes the following:

- store name as the main building sign (375.4 square feet);
- four (4) accessory signs advertising services (total combined area of 170.73 square feet).

The total area of all five (5) proposed signs is 546.13 square feet or 3.2 percent of the total east elevation. This does not exceed the total sign area limit of 20 percent. The proposed sign package also illustrates a stand alone “bullseye” logo sign, but that sign is considered a window sign and the does not count toward the number building signs on the east elevation.

General Provision 5 states, “Signs shall be in accordance with the Wichita Sign Code with the following exceptions.” The listed exceptions do not apply to building signs. Therefore, the building signs must comply with Section 24.04.195 of the Wichita Sign Code, which limits the number building signs per elevation for a single-tenant to three (3).

Section 24.04.251.2.d of the Wichita Sign Code permits an increase of up to two (2) additional building signs for buildings in the LC Limited Commercial District by Administrative Adjustment.

Our signatures below indicate that PO #49 shall be adjusted as stated above. This PO adjustment shall not be deemed to alter any other provisions of PO except as expressly stated herein. This PO does not alter any other applicable codes including but not limited to zoning, building, health or fire.

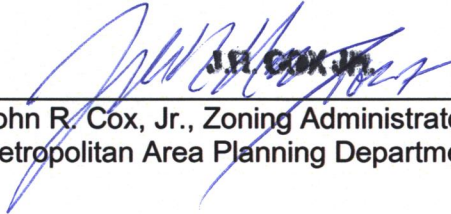

Section V-C.14 of the Unified Zoning Code ("UZC") allows the Planning Director, with the concurrence of the Zoning Administrator, to approve minor adjustments to an approved PO. We find that modifying General Provision 5 to permit five (5) building signs on the east elevation of the building on Parcel 6 meets the conditions required by Sec. V.I.6 of the UZC.

The "Development Application" sign should now be removed from the property.
