SECRETARY'S REPORT

CASE NUMBER: BZA2024-00028 (City)

APPLICANT: Bibleway Baptist Church (Applicant)/Steve Coleman (Agent)

REQUEST: Variance to reduce the minimum lot size

CURRENT ZONING: TF-3 Two-Family Residential District

SITE SIZE: 0.07 acres

LOCATION: Generally located on the north side of West 20th Street North, within 500 feet east of North Arkansas Avenue.

JURISDICTION: The Board has jurisdiction to consider the variance request under the provisions outlined in Kansas Statutes Annotated 12-759 *et. seq.* The Board may grant the request when all five conditions, as required by the statutes, are found to exist.

BACKGROUND: The applicant requests a Variance to reduce the minimum lot size on a property zoned Two-Family Residential District (TF-3). The property is generally located on the north side of West 20th Street North, within 500 feet west of North Arkansas Avenue. The subject site is 0.07 acres (3,049 square feet) in size and is currently undeveloped.

The applicant is requesting the Variance in order to build a duplex on site. The Unified Zoning Code (UZO) requires a 3,500 minimum lot size for a single-family dwelling in TF-3 zoning and a 6,000 minimum lot size for a duplex (3,000 square feet per dwelling unit). The minimum lot size can be reduced by ten percent through an Administrative Adjustment. A further reduction in percentage requires a Variance.

According to the applicant-submitted site plan, the lot measures 36 feet by 88 feet. The proposed duplex shall be placed within the allowed setbacks: 25 feet from the front (south) property line, eight feet from the east and west (side) property lines, and 23 feet from the rear (north) property line. The proposed duplex will measure 40 feet by 20 feet.

The applicant has indicated that there will be two efficiency units in the proposed duplex. The UZO requires one parking space per dwelling unit for a duplex. Parking shall be located off-site: across the alley to the east is a church also owned by the applicant. Section IV-A.10 of the UZO outlines the criteria for off-street parking on separate lots. The Zoning Administrator, in conjunction with the Planning Director, may authorize the applicant to utilize the church's parking when the criteria are met. The site would normally require two parking spaces; parking can also be reduced through an Administrative Adjustment through the Planning Department. Staff is thus recommending one parking spot on site as a condition of approval if all five criteria are met to grant the Variance.

SURROUNDING DEVELOPMENT: Properties to the north, south, east and west are all zoned TF-3. Property to the east is owned by the applicant and is developed with a church. Properties to the north and west are developed with single-family dwellings. Property to the south is developed with a non-conforming, early 20th-century duplex; the lot is 0.134 acres in size, which is now less than the minimum lot size required for a duplex.

ADJACENT ZONING AND LAND USE:

NORTH:	TF-3	Single-family dwelling
SOUTH:	TF-3	Single-family dwelling
EAST:	TF-3	Church
WEST:	TF-3	Single-family dwelling

CASE HISTORY: In 1902, the Brooks and Oldham Addition was created. There are no zoning cases associated with this property.

THE FIVE CRITERIA FOR GRANTING A VARIANCE:

1. The request is unique to this property and was not created by the applicant.

- a. The applicant states that "[The] previous owner had this property split off. This is unique because we are still able to develop within reasonable standard for normal functionality."

Staff Analysis:

Staff is in agreement with the above statement. The previous owners split the lot, which was not created by the applicant. Its lot size makes it unique because it is surrounded by developed properties which limit its ability to achieve the minimum lot size in order to be developed.

2. The granting of the Variance will not adversely affect the rights of the adjacent property owners or residents.

- a. The applicant states that "The development of this property will not affect surrounding properties or the rights of others."

Staff Analysis:

Staff is in agreement with the above statement. The duplex shall be constructed within the existing setbacks, allowed uses, and maximum height requirements to continue harmonious development within the surrounding community.

3. The strict application of the provisions of the code would constitute an unnecessary hardship on the applicant.
 - a. The applicant states that "this would constitute unnecessary hardship. Bibleway Community of Faith is working to expand independent women to get on stable living, once [the] program is completed at TEC, located at 2035 North Jackson."

Staff Analysis:

Staff is in agreement with the above statement. The current lot size does not allow for any residential development in its current zoning. The requested Variance allows for a duplex with two efficiency units, which contributes to a diversity of housing options in the neighborhood and utilize a currently undevelopable parcel to its highest and best use.

4. The Variance will not adversely affect the public health, safety, morals, order, convenience, prosperity, general welfare, or harmonious development of the community.
 - a. The applicant states that "the desired Variance does not affect public safety, health, order, [or] convenience. It will be developed within [the] standards for functional just as other properties surrounding."

Staff Analysis:

Staff is in agreement with the above statement. The Variance will grant the applicant the opportunity to develop upon a vacant lot within the required setbacks. The proposed duplex is in character with the surrounding neighborhood.

5. The granting of the Variance will not be opposed to the general spirit and intent of the Code.
 - a. The applicant states that "given this does not oppose to neighboring properties or the spirit and allowing it to be developed."

Staff Analysis:

Staff is in agreement with the applicant's statement. The site is zoned for a duplex, but it does not meet the minimum lot size. The property to the south is developed with an early 20th century, non-conforming duplex; the lot is under 6,000 square feet. According to the site plan, the applicant intends to develop the duplex within all the required setbacks, which is in keeping with the spirit and intent of the Code.

RECOMMENDATION: The recommendation of Staff is that the request to reduce the minimum lot size for duplex construction **meets** the five criteria required to grant a Variance. Staff recommends the following condition of approval:

1. The site is to be developed in general conformance to the revised site plan that will include the location of the off-street parking space.
