**AGENDA REPORT NO.
October 9, 2025**

STAFF REPORT

CASE NUMBER: VAC2025-00041 - City vacation of a portion of a platted setback.

APPLICANTS/AGENT: Julius Rib Cage Inc. (applicant/owner)

LEGAL DESCRIPTION: Vacating the 20-foot street side setback on the south side of Lot 1, Stevens Ryan Addition, Wichita, Sedgwick County, Kansas.

LOCATION: Generally located on the northeast corner of South Seneca Street and West 29th Street South (2958 South Seneca Street).

REASON FOR REQUEST: To remove encumbrances to development.

CURRENT ZONING: The subject site and property to the south are zoned LC Limited Commercial District (LC), property to the east is zoned NR Neighborhood Retail District (NR), property to the north is zoned GO General Office District (GO) and property to the west is zoned SF-5 Single Family Residential District (SF-5).

VICINITY MAP:

The applicant is requesting the vacation of the platted 20-foot street side setback on the south side of the lot in order to allow the zoning setbacks to apply. The property is generally located on the northeast corner of South Seneca Street and West 29th Street South. The property is addressed as 2958 South Seneca Street and is zoned LC Limited Commercial District (LC). The purpose of this request is to remove encumbrances to development. The proposed building will have a street side setback of 20.5 feet and therefore will follow the Unified Zoning Code standards for a minimum street side setback of 10 feet in the LC District. The property across West 29th Street South from this platted setback is zoned LC District and developed with a commercial use, therefore a removal of the platted setback will likely have no detrimental impacts.

There are no public utilities in the vacation area. A sanitary sewer is located within a utility easement on the east side of the property. This sewer and easement will be unaffected by this vacation request. Wichita Public Works and Utilities, Fire, Stormwater, or Traffic Engineering do not object to this vacation. Comments from franchised utilities have been received. Neither AT&T, Cox, nor Evergy object to the vacation. They do not have any lines or equipment in the vacation area. The Stevens Ryan Addition was recorded with the Register of Deeds April 12, 1977.

Evergy has no items in the areas the applicant is requesting to vacate and therefore has no objection. Sammy Whalen, Area Design Representative, will be the contact for this vacation request and any project associated with it. She can be contacted at (316) 261 - 6334. Standard language applies: **Any relocation or removal of existing Evergy equipment will need to be discussed and will be at the applicant's expense.**

On October 2, 2025, the Subdivision Committee reviewed this application. The committee members were informed that a building was already under construction. A representative of the adjacent property to the east (1010 West 29th Street South) expressed concerns that construction had already commenced within the proposed vacation area, that said construction was noncompliant with a permit issued by MABCD, and that the building under construction would limit visibility from South Seneca Street to one or more signs on the property adjacent to the east. An agent for the applicant indicated that permits from MABCD were issued and were being followed. The agent also informed committee members that the original application proposal was for the vacation of the north 2 feet of the south 20-foot setback, but that Planning Staff recommended increasing this to the full 20-foot setback vacation to let the 10-foot zoning setback apply. Based on the information available, the Subdivision Committee approved vacation of the north 2 feet of the subject setback as originally proposed by the applicant.

Following that meeting, Planning staff reviewed the City of Wichita GIS aerial imagery. It shows a foundation was poured in a location within the proposed vacation area. The foundation appears to be located 18 feet from the north line of the sidewalk. According to MABCD records, a site plan was approved in August 2024 for this property. The site plan shows the new/proposed building at 20.5 feet north of the south property line. In December 2024, a building permit was issued, however this permit has since expired.

In addition, Planning staff also reviewed information about the sign at 1010 West 29th Street South. It is 12 feet long and located 2 feet from the west property line. The sign is located within a building setback and a utility easement. It is unknown when the sign was constructed and no permit for the sign was ever issued.

Based upon information available prior to the public hearing and reserving the right to make recommendations based on subsequent comments from Public Works, Stormwater, Water and Sewer, Traffic, Fire, franchised utility representatives and other interested parties, planning staff has listed the following considerations (but not limited to) associated with the request to vacate the described platted setback.

A. That after being duly and fully informed as to fully understand the true nature of this petition and the propriety of granting the same, the MAPC makes the following findings:

1. That due and legal notice has been given by publication as required by law, in the Wichita Eagle, of notice of this vacation proceeding one time September 18, 2025, which was at least 20 days prior to this public hearing.
2. That no private rights will be injured or endangered by vacating the described portion of the platted street side setback and that the public will suffer no loss or inconvenience thereby.
3. In justice to the petitioner, the prayer of the petition ought to be granted.

Conditions (but not limited to) associated with the request:

- (1) Vacate the described 2-foot portion of the platted south setback. Provide planning staff with legal descriptions of the approved vacated portion of the platted setback on a Word document, via e-mail, to be used on the Vacation Order. This must be provided to Planning prior to the case going to Council for final action.
- (2) Any relocation or reconstruction of utilities made necessary by this vacation shall be the responsibility and at the expense of the applicant. Provide Planning with any needed easements dedicated by separate instrument with original signatures. These conditions must be completed prior to the case going to Council for final action.
- (3) All improvements shall be according to City Standards and at the applicant's expense.
- (4) Per MAPC Policy Statement #7, all conditions shall be completed within one year of approval by the MAPC or the vacation request will be considered null and void. All vacation requests are not complete until the Wichita City Council or the Sedgwick County Board of County Commissioners have taken final action on the request and the vacation order and all required documents have been provided to the City, County and/or franchised utilities and the necessary documents have been recorded with the Register of Deeds.

SUBDIVISION COMMITTEE'S RECOMMENDED ACTION

The Subdivision Committee does NOT recommend approval of the 20-foot setback vacation. Instead, Subdivision Committee recommends approval of a vacation of the north 2 feet of the south 20-foot building setback.
