Re: SCZ-0578 - "R-1" to "E" - North side of K-42 on both sides  
of Maize Road (Associated with S/D 86-114 Dugan Industrial  
Third Addition).

Dear Lowell:

On February 23, 1987, I wrote John Dugan a letter which stated that the above-referenced case had been approved by the County Commission subject to recording a plat of the property by February 18, 1988, or the case would be considered denied and closed. You were sent a copy of that letter (another copy is enclosed for your reference). The letter stated that it would be our only letter advising of the platting deadline.

My notes in the file indicated that I called you on December 30, 1987, to remind you of the approaching deadline and that you said everything was finished except the tracing, which you needed to get signed and turned in. That never happened, nor was an extension of the platting time requested; therefore, when February 18, 1988, came and went with no plat getting recorded, the zone case file was marked "denied and closed" in accordance with the action of the County Commission on February 18, 1987.

I have recently learned that you have been in contact with the subdivision planners in our department about completing the plat. This letter is to advise you and Mr. Dugan that the property is still zoned "R-1" and a new rezoning application and public hearing will be required if industrial zoning is still desired for this property.

If you have any questions about this matter, you may call me at 268-4421.

Sincerely,

Louise Olivarez  
Principal Planner
