TO BOARD OF COUNTY COMMISSIONERS

PROPOSED AGENDA ITEMS : SCZ-0727 - Request for a zone change from "LC" Limited Commercial and "SF-20" Single Family Residential to "LC" Limited Commercial on property generally located east of Webb Road, north of Harry (9718 E. Harry).

PRESENTED BY: Marvin S. Krout, Director of Planning *MK dm*

PROPOSED AGENDA DATE: January 8, 1997

COMMISSION DISTRICT #5

MAPC Recommendation: Approve (10-1), subject to the additional provisions of a Protective Overlay (P-O) district and subject to platting within 1-year.

Staff Recommendation: Approve, subject to the additional provisions of a Protective Overlay (P-O) district and subject to platting within 1-year.

Background/Discussion: The applicant requests a zone change from "SF-20" Single-Family Residential and "LC" Limited Commercial on unplatted property generally located east of Webb Road, north of Harry (9718 E. Harry). The subject property measures 4.6 acres, with the western 30% of the site already zoned "LC" Limited Commercial. The applicants have indicated that they feel the "best and highest" use of this property is for commercial development. They further indicate that the entire intersection of Harry and Webb has developed with commercial uses.

The application area is located in the County, but surrounded to the east, north, and west by the City. The property to the west is zoned "LC" and developed with an Intrust bank and the Port of Wichita restaurant. There is a day care center located on the northwest portion the application area, on "LC"-zoned property; the remainder of the application area is unimproved. There is duplex development to the north on property zoned "TF-3" Two-Family Residential. The area adjacent to the east is zoned "GO" General Office and has been developed with an office complex. Across Harry to the south is a mix of commercial uses (Auto Zone, Splash'N'Dash car wash, and Sunnyside Nursery), and a single-family residence on property zoned "LC" Limited Commercial & "TF-3" Two-Family Residential.

A sketch plat developed by the agent for the applicants shows the property being platted into 3 lots. The existing school building is shown on Lot 1 with a small 20 foot landscape buffer (Reserve A) at the northeast corner of the lot, with the remainder of the lot available for development. Lots 2 and 3 also have 20 foot landscape buffers along their northern boundary where adjacent to residential development and being platted as Reserves B and C. Each lot is shown to have one opening to Harry, with complete access control from Lots 2 and 3 to Boston Circle to the north.

During the MAPC meeting the agent for the applicant stated they were in support of most of the staff's recommended conditions. However, the recommended street improvements were not made part of the approval and will be addressed at the time the subject property is platted. The applicant also wished to limit the amount of screening required along the northern property line. Several residents to the north spoke in support of the development as requested by the applicant. After discussing the request, the MAPC voted (10-1) to approve the request, subject to the additional provisions of a Protective Overlay (P-O) district and subject to platting within 1-year.

- Recommended Action:
1. Adopt the findings of fact of the Metropolitan Area Planning Commission and approve the zone change subject to the additional provisions of a Protective Overlay (P-O) district and subject to platting within 1-year; adopt the resolution and authorize the chairman to sign; and instruct the Planning Department to withhold publication until all conditions have been complied with; or
 2. Return to the Planning Commission for reconsideration.

(An override of the Planning Commission's recommendation requires a 2/3rd majority vote of the membership of the governing body on first hearing).
