PROPOSED AGENDA ITEMS : SCZ-0722 - Chris and Linda Betzen (property owners); Terry Smythe (agent) requests a zone change from "RR" Rural Residential to "LC" Limited Commercial located at the southeast corner of 21st Street North and 167th Street West.

PRESENTED BY: Marvin S. Krout, Director of Planning *MKS DM*

PROPOSED AGENDA DATE: January 8, 1997

COMMISSION DISTRICT #3

MAPC Recommendation: Approve (10-2), subject to the additional provisions of a Protective Overlay (P-O) district and subject to platting within 1-year.

Staff Recommendation: Deny

Background/Discussion: The applicant requests a zone change from "RR" Rural Residential to "LC" Limited Commercial for a 5.1 acre (net) unplatted tract located at the southeast corner of 21st Street North and 167th Street West. The applicant is requesting this rezoning "to provide a logical location for existing commercial demand for residents in the general area as well as motorists who utilize the much-travelled 21st Street corridor. In addition, the rezoning would provide a logical location for future commercial development at the intersection of existing and future major transportation corridors."

The surrounding land is zoned "RR" and is currently used for agricultural purposes. There are two houses located within approximately 1/4 mile of the application area to the west and north, and two houses located within approximately 1/2 mile to the south and east of the application area. The applicant submitted a site plan for the proposed development showing a gross area measuring 661.56 feet by 455 feet (6.91 acres). Subtracting out street right-of-way, the acreage is reduced to 5.1 acres.

This case was first heard by the MAPC on October 17, 1996. At that time the applicant agreed to defer the case for one month in order to create a set of development restrictions for the property. At the applicant's request, the case was deferred for a second time during the November 14, 1996 MAPC meeting.

During the December 5, 1996 MAPC meeting the agent for the applicant proposed several Protective Overlay restrictions to address the type of commercial uses allowed at this location, architectural character of the development, lighting, and signage. The overlay also addressed how the site will be served with water and sewer. After a lengthy discussion of the appropriateness of commercial zoning at this location, the MAPC voted (10-2) to approve the request, subject to the additional provisions of a Protective Overlay (P-O) district and subject to platting within 1-year.

- Recommended Action:
1. Adopt the findings of fact of the Metropolitan Area Planning Commission and approve the zone change subject to the additional provisions of a Protective Overlay (P-O) district and subject to platting within 1-year; adopt the resolution and authorize the chairman to sign; and instruct the Planning Department to withhold publication until all conditions have been complied with; or
 2. Return to the Planning Commission for reconsideration.

(An override of the Planning Commission's recommendation requires a 2/3rd majority vote of the membership of the governing body on first hearing).

MAPC Recommendation: Approve, subject to platting within 1 year (9-0).

Staff Recommendation: Approve, subject to platting within 1 year.

Background/Discussion: The applicant requests a zone change from "SF-20" Single-Family to "LI" Limited Industrial on a 5.2 acre unplatted tract located 1/4 mile south of MacArthur Road on the west side of 119th Street West. The applicant makes this request in order to expand his business, Precision Profiling. Precision Profiling is a machine shop which machines parts for local aircraft manufacturers. Currently, they have 63,875 square feet of building space on Lot 5 of Schulte Industrial Park Addition (recorded in 1989), located south of the application area. Machine shops are included in the "manufacturing, general" definition of the code and are permitted uses in the "LI" district. Residences are located approximately 1/4 mile north, just north of MacArthur. Other industrial and commercial uses are located south of Precision Profiling's existing building along K-42 Highway.

During the Planning Commission's discussion of this matter, the agent for the applicant stated that the applicant, Precision Profiling, is requesting the zone change in order to expand their current facilities in the near future. No one spoke in opposition. After discussion, the MAPC voted (9-0) to approve the request as recommended by staff.

- Recommended Action:
