

RECOMMENDATION FROM METROPOLITAN AREA PLANNING COMMISSION
TO BOARD OF COUNTY COMMISSIONERS

PROPOSED AGENDA ITEMS : SCZ-0752 - Zone Change from "LI" Limited Industrial to "SF-6" Single-Family Residential (123.0 acres) and "TF-3" Two-Family Residential (16.52 acres), located north of 29th Street North, east of Ridge Road.

PRESENTED BY: Marvin S. Krout, Director of Planning

PROPOSED AGENDA DATE: November 12, 1997

COMMISSION DISTRICT #4

MAPC Recommendation: Approve, subject to platting within 1 year (10-0).

Staff Recommendation: Approve, subject to platting within 1 year.

Background/Discussion: The applicant requests a zone change to "SF-6" Single-Family Residential and "TF-3" Two-Family Residential from "LI" Limited Industrial on a 139.52 ± acre (123.0 acres for "SF-6" and 16.52 acres for "TF-3") unplatted tract located north of 29th Street North, east of Ridge Road.

The applicants are requesting the zone change in order to allow the development of The Crosswinds residential subdivision. The plat shows residential development occurring on 181 lots (8,000 square foot minimum), with one commercial lot (not part of the application area and will remain zoned "LI") located at the southwest corner of the subject property, adjacent to the Missouri Pacific Railroad tracks. The proposed "TF-3" portion of the development is located on the east side of Ridge Road, approximately ¼ mile north of 29th Street, with the "SF-6" development located nearly ½ mile east of Ridge Road.

The subject property is currently zoned "LI" and the western 71.8 acres of the application area was approved for a conditional use (CU-368) by the County Commission on May 11, 1994 to allow topsoil extraction. The balance of the subject property is currently undeveloped and used for agricultural purposes.

The surrounding area to the north is zoned "SF-20" and used for agricultural purposes. South and east of the application area is property zoned "LI" and has a mix of agricultural, industrial and residential uses. Across Ridge Road to the west is property zoned "LI" and "SF-6" and is also a mix of agricultural, recreational (a large lake via two sand extraction operations) and residential uses (Forest Lakes Addition).

The most recent information pertaining to wetlands from the Sedgwick County Soil Conservation District and the Soil Survey of Sedgwick County indicates that nearly all of the site is situated within the 100 year flood plain. Also, the majority of the subject property includes Carwile fine sandy and Lesho loam soils, which are commonly associated with wetlands.

According to the survey, the soil type may not preclude the development of the site, however prior to developing this site the applicant would need to meet with the Corps of Engineers and acquire all necessary permits for the protection and management of any wetland or riparian areas located within the application area.

During the October 16, 1997 MAPC meeting, the agent for the applicant discussed the proposed residential development. After limited discussion, the MAPC voted (10-0) to approve the request subject to platting the property within one year, as recommended by staff. There have been no protest petitions filed for this case.

- Recommended Action:
1. Adopt the findings of fact of the Metropolitan Area Planning Commission and approve the zone change subject to the condition of platting; adopt the resolution and authorize the chairman to sign; and instruct the Planning Department to withhold publication until the plat has been recorded with the Register of Deeds; or
 2. Return to the Planning Commission for reconsideration.

(An override of the Planning Commission's recommendation requires a 2/3rd majority vote of the membership of the governing body on first hearing).
