RE: V-1813; Request to vacate flood reserve

Dear Mr. and Mrs. Warren,

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission, Thursday, May 27, 1993, the above referenced vacation request was considered.

The action of the Committee was to recommend that this vacation be approved, subject to:

- A. Any relocation or reconstruction of utilities necessitated by this vacation shall be the sole responsibility and expense of the applicant(s).
- B. Applicants shall contact County Engineering to determine the appropriate amount of flood reserve that should be retained, and comply with all conditions and guarantees required.
- C. Prior to this case being scheduled for Board of County Commissioners review, applicant(s) shall submit a [revised] floodway reserve agreement to County Engineering for review, approval and processing. Applicant then shall submit a copy of the approved floodway reserve agreement to MAPD for the vacation file.

This vacation case will be forwarded to the Metropolitan Area Planning Commission for its consideration on Thursday, June 3, 1993, at 1:30 p.m., in the Planning Conference Room, Tenth Floor, City Hall, 455 North Main

Street. Upon satisfactory completion of all conditions, this case will be scheduled for final public hearing by the Sedgwick County Board of County Commissioners.

Should you have any questions regarding this vacation case, please feel free to contact me at 268-4495.

Sincerely,

NOTE: Applicant(s) have previously contacted County Engineering regarding the location of, and encroachment upon, floodway reserve on this parcel. County Engineering has stated that it is customary to vacate all floodway reserve (as described in the [existing] recorded floodway reserve agreement) for a parcel, and to subsequently accept a new [revised] floodway reserve agreement from the applicant(s). The new floodway reserve agreement will indicate, by legal description, [revised] boundaries of floodway reserve to be retained, and will vacate only that portion of the [pre-]existing floodway reserve under encroachment.

Prior to this case being scheduled for Board of County Commissioners review, applicant(s) shall submit a [revised] floodway reserve agreement to County Engineering for review, approval and processing.
