STAFF REPORT

MAPC June 10, 2004

CASE NUMBER: CON2004-00019

APPLICANT/AGENT: C Creek, LLC, c/o Jay W Russell (Owner); Baughman Company, PA, c/o Russ Ewy (Agent)

REQUEST: Conditional Use to permit a neighborhood swimming pool

CURRENT ZONING: "SF-5" Single-family Residential

SITE SIZE: 0.27 acre

LOCATION: Southeast of the intersection of Boston Street and Shiloh Street

PROPOSED USES: Neighborhood swimming pool

BACKGROUND: The applicant requests a Conditional Use to permit a neighborhood swimming pool on a 0.27-acre lot zoned "SF-5" Single-family Residential. The property is located southeast of the intersection of Shiloh Street and Boston Street approximately one block north of the intersection of Shiloh with Harry Street. The property is undeveloped. A neighborhood swimming pool requires a Conditional Use in "SF-5" unless the swimming pool is a designated use on the subdivision plat.

The property is located within an area being developed as a single-family development, Ballyclare. It abuts a large reserve for drainage serving both Ballyclare and DP 265 Crystal Creek C.U.P., which is approved for commercial use and located to the southeast along Harry.

The attached site plan shows a 16-foot by 32-foot swimming pool, six parking spaces (including an ADA designated space), and a 10-foot by 20-foot cabana for restrooms and pool equipment located south of the pool. A zoning adjustment will be required to allow parking in the front setback as close as eight feet from the property line, as shown on the proposed site plan.

Section IV-B.3 of the UZC requires screening in the form of decorative fencing, evergreen vegetation, or landscaped earth berms along the east and south property lines. The Landscape Ordinance requires a landscaped street yard and parking lot screening along Boston Street and Shiloh Street, and a landscape buffer along the east and south property lines. Planning staff recommends that the required landscaping be installed per a landscape plan to be approved by planning staff.

CASE HISTORY: The subject property is platted as part of Reserve D, Crystal Creek Addition, recorded August 20, 2003.

A portion of the lot was approved as DR 75-24 (approved by BoCC September 18, 1975) for construction of a sanitary sewer lagoon as an interim facility for surrounding subdivisions until construction of Four-Mile Creek Sewer System.

ADJACENT ZONING AND LAND USE:

NORTH:	"SF-5"	Vacant
EAST:	"SF-5"; "LC"	Vacant
SOUTH:	"SF-5"	Vacant
WEST:	"SF-5"	Vacant

PUBLIC SERVICES: The subject property has access to Shiloh Street and Boston Street, which are two-lane residential streets. Water, sewer, and other municipal services will be provided to the subject property.

CONFORMANCE TO PLANS/POLICIES: The Land Use Guide of the Comprehensive Plan identifies the subject property as appropriate for "Low Density Residential" development. This residential category provides for the lowest density of urban residential

land use and consists of traditional, single-family detached homes, zero lot line units and cluster subdivisions, as well as schools, churches and similar uses found in such areas. One of the objectives of the Plan is to “develop and maintain a system of parkland, open space and recreational facilities which provide a diverse set of recreational opportunities for existing and future residents.” The proposed neighborhood swimming pool is consistent with the Land Use Guide and the identified objective of the Comprehensive Plan.

RECOMMENDATION: Based on the information available prior to the public hearing, MAPD staff recommends the application be APPROVED, subject to the following conditions:

1. The site shall be developed in general conformance with the approved site plan.
2. The subject property shall be developed in accordance with the regulations of the Landscape Ordinance per a landscape plan approved by the Planning Director prior to the issuance of a building permit.
3. Screening in accordance with Section IV-B.3 of the Unified Zoning Code shall be provided along the east property line.
4. Prior to the issuance of a building permit, an administrative adjustment to permit parking within the front setback shall be acquired.
5. Development and use of the subject property for a neighborhood swimming pool shall be in accordance with all applicable federal, state, and local rules and regulations, including building and construction codes, health codes, and operational standards.
6. If the Zoning Administrator finds that there is a violation of any of the conditions of the Conditional Use, the Zoning Administrator, in addition to enforcing the other remedies set forth in the Unified Zoning Code, may, with the concurrence of the Planning Director, declare that the Conditional Use is null and void.

This recommendation is based on the following findings:

1. The zoning, uses and character of the neighborhood: The character of the surrounding area is that of a developing single-family residential neighborhood. The surrounding properties are zoned “SF-5” Single-family Residential and are currently being developed with single-family residences and associated open space reserves. A neighborhood swimming pool is accessory to and customarily associated with the zoning, uses, and character of a low-density residential area.
2. Extent to which removal of the restrictions will detrimentally affect nearby property. Locating a neighborhood swimming pool within a residential development will introduce more traffic and noise for the nearby residential properties. However, the recommended conditions of approval pertaining to screening and landscaping should address these problems. The proposed neighborhood swimming pool most likely will be an amenity to the neighborhood.
3. Conformance of the requested change to the adopted or recognized Comprehensive Plan and Policies: The Land Use Guide of the Comprehensive Plan identifies the subject property as appropriate for “Low Density Residential”

development. This residential category provides for the lowest density of urban residential land use and consists of traditional, single-family detached homes, zero lot line units and cluster subdivisions, as well as schools, churches and similar uses found in such areas. One of the objectives of the Plan is to “develop and maintain a system of parkland, open space and recreational facilities which provide a diverse set of recreational opportunities for existing and future residents.” The proposed neighborhood swimming pool is consistent with the Land Use Guide and the identified objective of the Comprehensive Plan.

4. Impact of the proposed development on community facilities: The proposed swimming pool will increase trips to the site, but the impact should be minimal and will not exceed the capacity of the street.
