said curve; thence S01°44'13"E, 292.71 feet to a point on a curve to the
right; thence southeasterly, southerly, southwesterly, westerly, north-
westerly, and northerly along said curve, having a central angle of
269°36'33" and a radius of 90.00 feet, an arc distance of 423.50 feet,
(having a chord length of 127.71 feet bearing S64°34'40"W), thence
S89°54'40"W, 999.31 feet to a point on the west line of said NE1/4;
thence N00°25'47"E along the west line of said NE1/4, 1670.00 feet
to the point of beginning.

Existing public easements and dedications being vacated by virtue
of K.S.A. 12-512(b).

Baughman Company, P.A.

Michael G. Conrey
18-971
Surveyor
Michael G. Conrey

Know all men by these presents that we,
the undersigned, have caused the land in the surveyors certificate to be
platted into a Lot, a Block, Streets, and Reserves to be known as
"NORTHEAST MIDDLE SCHOOL ADDITION", Wichita, Sedgwick County, Kansas.
The utility easements are hereby granted as indicated for the construction
and maintenance of all public utilities. The drainage easement is hereby
granted as indicated for drainage purposes. The streets are hereby
dedicated to and for the use of the public. Reserve "A" is hereby
reserved for entry monuments, signage, open space, landscaping, berms,
drainage, and utilities. Reserves "B" and "C" are hereby reserved for
entry monuments, open space, landscaping, berms, utilities, and streets.
Reserves "A", "B", and "C" shall be owned and maintained by the owner
of Lot 1, Block A. All abutters rights of access to or from 45th Street
North over and across the north line of Lot 1, Block A, and Reserve "A"
are hereby granted to the City of Wichita, Kansas.

RE: SUB 2001-119 -- One-Step Final Plat of Northeast Middle School Addition

At the regular meeting of the Metropolitan Area Planning Commission on December 20, 2001, the above captioned plat was considered. The action of the Planning Commission was to approve the plat as recommended by the Subdivision Committee subject to the conditions stated in our letter dated December 13, 2001:

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision, along with four (4) copies, to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision Regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot, residential developments.
4. Submission of a disk to the Planning Department detailing the final plat in digital format in Autocad. This will be used by the City and County GIS Departments.

If you have any questions concerning this matter, please call.

RE: SUB 2001-119 – One-Step Final Plat of Northeast Middle School Addition

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, December 13, the above captioned plat was considered. The action of the Committee was to approve the final plat, subject to the following:

STAFF COMMENTS:

- A. City Engineering needs to comment on the need for guarantees or easements. The applicant shall provide a guarantee for extension of water, sewer and drainage.
- B. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- C. City Engineering needs to comment on the status of the applicant's drainage plan. An off-site drainage easement is required.
- D. Traffic Engineering requests a 66-ft right-of-way width for Broadview Circle.
- E. The applicant shall guarantee the installation of the proposed street to the urban street standard. The guarantee shall also provide for sidewalks on both sides of the street.
- F. Provisions shall be made for ownership and maintenance of the proposed reserves. The applicant shall either form a lot owners' association prior to recording the plat or shall submit a covenant stating when the association will be formed, when the reserves will be deeded to the association and who is to own and maintain the reserves prior to the association taking over those responsibilities.
- G. For those reserves being platted for drainage purposes, the required covenant which provides for ownership and maintenance of the reserves shall grant, to the City, the authority to maintain the drainage reserves in the event the owner(s) fail to do so. The

www.wichitagov.org

- covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by the governing body.
- H. City Fire Department needs to comment on the street length of Broadview Circle (1650 feet) exceeding the 1,200-ft limitation of the Subdivision Regulations. The Subdivision Committee has approved a modification.
- I. An off-site dedication of right-of-way is required to provide a connection to the east with Eagle's Landing at North Oliver Addition.
- J. The City Fire Department/GIS needs to comment on the plat's street names. The street names are approved.
- K. The applicant shall submit a copy of the instrument which establishes the pipeline easements on the property, which verifies that the easements shown are sufficient and that utilities may be located adjacent to and within the easements. Any relocation, lowering or encasement of the pipeline, required by this development, will not be at the expense of the City.
- L. The applicant's agent shall determine any setback requirements for the pipelines by researching the text of the pipeline agreements. If a setback from the pipeline easements is provided for in the pipeline easement agreements, it shall be indicated on the face of the plat.
- M. The owners noted in the platting binder need to be signatories to the plat, or a revision to the binder showing that the site's ownership is only in the party now shown on the final plat.
- N. The platting text shall include language that a drainage plan has been developed for the plat and that all drainage easements, rights-of-way, or reserves shall remain at established grades or as modified with the approval of the applicable City or County Engineer, and unobstructed to allow for the conveyance of stormwater.
- O. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- P. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- Q. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (Phone 316-946-4556) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- R. The applicant is advised that various State and Federal requirements (specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147) for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.

- S. The owner of the subdivision should be aware of the fact that the development of any subdivision greater than five (5) acres in size may require an NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Further, on all construction sites, the City of Wichita requires that best management practices be used to reduce pollutant loadings in storm water runoffs.
- T. Perimeter closure computations shall be submitted with the final plat tracing.
- U. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.
- V. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.
- W. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat in digital format in AutoCAD. This will be used by the City and County GIS Department.

If this plat requires the guaranteeing of improvements, a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Certificates, which are required if petitions are submitted, and forms for the bond and Irrevocable Letter of Credit are also available from this office.

This case will be forwarded to the Planning Commission on Thursday, December 20, 2001, at 12:00 p.m.

The enclosed "marked" copy of the plat is for your information and files.

If you have any questions concerning this matter, please call.
