RE: SUB 2000-11 -- One Step Final Plat of PLAZA CENTRAL OFFICE PARK 2ND ADDITION

At the regular meeting of the Metropolitan Area Planning Commission on March 30, 2000, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of March 24, 2000.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision, along with four (4) copies, to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot, residential developments.
4. Submission of a disk to the Planning Department detailing the final plat in digital format in Autocad. This will be used by the City and County GIS Departments.

If you have any questions concerning this matter, please call.

RE: SUB 2000-11 -- One Step Final Plat of PLAZA CENTRAL OFFICE PARK 2ND ADDITION

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, March 23, 2000, the above captioned plat was considered. The action of the Committee was to approve the final plat, subject to:

STAFF COMMENTS:

- A. The site is located within the Four Mile Creek sanitary sewer system and will be served by the County. On the final plat tracing, appropriate wording shall be added to the Mayor's signature block indicating the City's agreement to allow a County sewer district to be formed within the City. County Engineering requires a sanitary sewer layout. Applicant is reminded that sewer impact fees are significantly higher for development of this plat.
- B. City Engineering needs to comment on the need for guarantees or easements. A guarantee is required for the extension of City water.
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- D. City/County Engineering needs to comment on the status of the applicant's drainage plan. The drainage plan is approved. County Engineering recommends a potential drainage easement on the west line of Lot 1. A utility easement is requested along the south line of Lots 2 and 3.
- E. Traffic Engineering needs to comment on the access controls. In accordance with the Protective Overlay, the plat proposes one access opening along Central and two access openings along Jackson. The access controls are approved.

- F. The Applicant shall guarantee the closure of any driveway openings being located in areas of complete access control or that exceed the number of allowed openings.
- G. A cross-lot access and circulation agreement shall be provided.
- H. **Traffic Engineering** shall comment on the need for street improvements. A petition was provided with the Plaza Central Office Park Addition to the east which guarantees the paving of Jackson to commercial street standards. Distances shall be shown for all segments of access control. **No improvements are required.**
- I. A Notice of Protective Overlay indicating the Protective overlay has been filed with the MAPD shall be submitted.
- J. The platlor's text shall include language that a drainage plan has been developed for the plat and that all drainage easements, rights-of-way, or reserves shall remain at established grades or as modified with the approval of the applicable City or County Engineer, and unobstructed to allow for the conveyance of stormwater.
- K. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- L. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- M. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (Phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- N. The applicant is advised that various State and Federal requirements (specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147) for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- O. The owner of the subdivision should be aware of the fact that the development of any subdivision greater than five (5) acres in size may require an NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Further, on all construction sites, the City of Wichita requires that best management practices be used to reduce pollutant loadings in storm water runoffs.
- P. Perimeter closure computations shall be submitted with the final plat tracing.
- Q. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.

RE: SUB 2000-11 -- One- Step Final Plat of PLAZA CENTRAL OFFICE PARK 2ND ADDITION

March 24, 2000

Page 3

- R. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.
- S. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat in digital format in AutoCAD. This will be used by the City and County GIS Department.
- T. City Fire Department requires the renaming of Jackson to Jackson Heights.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, March 30, 2000, at 1:00 p.m.

The enclosed "marked" copy of the plat is for your information and files.
