RE: S/D 99-73 -- One-Step Final Plat of 127th RETAIL ADDITION

At the regular meeting of the Metropolitan Area Planning Commission on November 29, 1999, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of November 19, 1999.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision, along with four (4) copies, to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot residential developments.
4. Submission of a disk to the Planning Department detailing the final plat in digital format in Release 13 Version of Autocad. This will be used by the City and County GIS Departments.

RE: S/D 99-73 -- One-Step Final Plat of 127th RETAIL ADDITION

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, November 18, 1999, the above captioned plat was considered. The action of the Committee was to approve the final plat, subject to:

STAFF COMMENTS:

- A. County Engineering needs to comment on the need for any guarantees or easements. The site will be served by the Four Mile Creek sanitary sewer system. *A petition is required for extension of sanitary sewer. The utility easement for the existing sewer line shall be increased to 20 feet. An additional utility easement is required for Lot 6 for the sewer extension.*
- B. City water appears to be available to serve this site. City Engineering needs to comment on the need for guarantees or easements. *A guarantee is required for extension of City water.*
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- D. City Engineering needs to comment on the status of the applicant's drainage plan. *The drainage plan is approved. Storm sewer improvements may be part of the site development.*
- E. In accordance with the CUP approval, the plat proposes one joint access opening and one major access opening for both Central and 127th St. East. The joint opening on Central is limited to right-in/right-out turn movements by construction of a channelized "Y" opening at the site entrance or by construction of a raised central median on Central. The CUP also permitted one access opening along Garnett located up to 300 feet south of Central, and a

second access opening if the property to the west is rezoned from SF-6, Single Family Residential. Distances shall be shown for all segments of access control. The plat's text shall note that the access controls are being dedicated to the City of Wichita and that the location of the openings are subject to approval by the City Engineer.

- F. The Applicant shall guarantee the closure of all driveway openings being located in areas of complete access control or that exceed the number of allowed openings.
- G. The joint access easements shall be established by separate instrument. The instruments shall state the purpose of the easement as well as which properties benefit from the easement. Initial construction responsibilities and future maintenance of the driveways within the easement shall also be addressed by the text of the instrument.
- H. In accordance with the CUP approval, a cross-lot access and circulation agreement shall be provided.
- I. In accordance with the CUP, the following traffic improvements are required: a continuous right turn lane along 127th St. East, extension of the left turn lane on Central at least 30 feet west of the curb of the major opening, and a guarantee for paving of Garnett if proposed to be used for access.
- J. The Applicant is reminded that a landscape buffer is required along the southern property line.
- K. A CUP Certificate shall be submitted to MAPD identifying the approved CUP (referenced as DP-247) and its special conditions for development on this property.
- L. On the final plat tracing, a note shall be placed on the face of the plat indicating that this Addition is subject to the conditions of DP-247.
- M. The plat's text shall include language that a drainage plan has been developed for the plat and that all drainage easements, rights-of-way, or reserves shall remain at established grades or as modified with the approval of the applicable City or County Engineer, and unobstructed to allow for the conveyance of stormwater.
- N. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- N. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- O. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.

- P. The applicant is advised that various State and Federal requirements [specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147] for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- Q. The owner of the subdivision should be aware of the fact that the development of any subdivision greater than five (5) acres in size may require an NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Further, on all construction sites, the City of Wichita requires that best management practices be used to reduce pollutant loadings in storm water runoffs.
- R. Perimeter closure computations shall be submitted with the final plat tracing.
- S. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.
- T. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property. **Southwestern Bell and KGE have requested additional easements.**
- U. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat in digital format in Release 13 version of AutoCAD. This will be used by the City and County GIS Department.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

This matter will be forwarded to the Planning Commission for its consideration on Monday, November 29, at 12:30 p.m.

The enclosed "marked" copy of the plat is for your information and files.

If you have any questions concerning this matter, please call.

Sincerely,

Neil Evan Strahl, Senior Planner
Current Plans Division

<u>MINIMUM LOT AREA:</u>	33,479 Sq. Ft.
<u>CURRENT ZONING:</u>	LC, Limited Commercial
<u>PROPOSED ZONING:</u>	Same

A detailed street map of a residential area in Raytheon. The map shows a grid of streets including Chamberlain, Tipperary, Central, and 127th St East. A large area is labeled 'RAYTHEON'. A specific location is marked with a black arrow and labeled 'S/D 99-73 #6247A'. The map also shows a bridge over a river, a highway labeled '96', and a road labeled '35 (KTA)'. Various street names are visible, such as Chamberlain, Tipperary, Central, 127th St East, and 35 (KTA). The map includes a north arrow and a scale bar.

Note: This site is a replat of Lot 1 of the Gilder's Gardens Addition in addition to unplatted land. A zone change (Z-3336) was approved to LC, Limited Commercial for this site subject to platting. The site is also subject to the 127th Retail Center CUP (DP-247).

STAFF COMMENTS:

- A. County Engineering needs to comment on the need for any guarantees or easements. The site will be served by the Four Mile Creek sanitary sewer system. **A petition is required for extension of sanitary sewer. The utility easement for the existing sewer line shall be increased to 20 feet. An additional utility easement is required for Lot 6 for the sewer extension.**
- B. City water appears to be available to serve this site. City Engineering needs to comment on the need for guarantees or easements. **A guarantee is required for extension of City water.**
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- D. City Engineering needs to comment on the status of the applicant's drainage plan. **The drainage plan is approved. Storm sewer improvements may be part of the site development.**
- E. In accordance with the CUP approval, the plat proposes one joint access opening and one major access opening for both Central and 127th St. East. The joint opening on Central is limited to right-in/right-out turn movements by construction of a channelized "Y" opening at the site entrance or by construction of a raised central median on Central. The CUP also permitted one access opening along Garnett located up to 300 feet south of Central, and a second access opening if the property to the west is rezoned from SF-6, Single Family Residential. Distances shall be shown for all segments of access control. The plat's text shall note that the access controls are being dedicated to the City of Wichita and that the location of the openings are subject to approval by the City Engineer.
- F. The Applicant shall guarantee the closure of all driveway openings being located in areas of complete access control or that exceed the number of allowed openings.
