Re: S/D 97-76 -- Final Plat of THE PLAZA AT CHERRY CREEK HILLS

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on January 15, 1998, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of January 9, 1998.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.
4. Submission of a disk to the Planning Department detailing this plat. This will be used by the City and County GIS Departments.

Sincerely,

Neil Evan Strahl, AICP
Senior Planner, Current Plans Division

Re: S/D 97-76 -- Final Plat of THE PLAZA AT CHERRY CREEK HILLS

Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, January 8, 1998, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

- A. **City Engineering** needs to indicate if any additional guarantees are needed for water or sanitary sewer improvements to serve this site. It does not appear that Lot 2 has direct access to sanitary sewer. *City Engineering has indicated that existing facilities are acceptable and no additional guarantees are needed.*
- B. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- C. **Traffic Engineering** needs to comment on the acceptability of the platted access controls as well as any needed improvements to Oak Knoll. Oak Knoll is designated as a two-lane arterial on the 2020 Transportation Plan. *Traffic Engineering has requested that the 40-foot complete access control from Lot 2 to Pawnee be increased to 100 feet. No street improvements are required.*

The final plat has denoted the requested 100-foot access control from Lot 2 to Pawnee.

- D. **City Engineering** needs to comment on the status of the applicant's drainage plan. *City Engineering has approved the drainage plan and indicated that an off-site drainage easement is required to be obtained from KG&E for drainage onto their property to the west. A guarantee for storm sewer extension is also required, and a cross-lot drainage agreement.*
- E. The applicant shall submit an avigational easement covering all of the subject plat and a restrictive covenant assuring that adequate construction methods will be used to minimize the effects of noise pollution in the habitable structures constructed on the subject property.

- F. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- G. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- H. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- I. The applicant is advised that various State and Federal requirements [specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147] for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- J. Perimeter closure computations shall be submitted with the final plat tracing.
- K. Recording of the plat within thirty (30) days after approval by the City Council and/or county Commission.
- L. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.
- M. The Chairman of the MAPC should be amended to read Richard Lopez.

If this plat requires the guaranteeing of improvements, a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also certificates, which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit, are also available from this office.

The enclosed "marked" copy of the plat is for your information and files.

S/D 97-76 -- Final Plat of THE PLAZA AT CHERRY CREEK HILLS
January 9, 1998 - Page 3

This matter will be forwarded to the Planning Commission for its consideration on Thursday, January 15, 1998, at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Neil Evan Strahl, AICP
Senior Planner, Current Plans Division
