RE: S/D 99-23 -- Final Plat of BUSTOS ADDITION

At the regular meeting of the Metropolitan Area Planning Commission on April 15, 1999, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of April 9, 1999.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision, along with four (4) copies, to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.
4. Submission of a disk to the Planning Department detailing the final plat in digital format in Release 13 Version of Autocad. This will be used by the City and County GIS Departments.

If you have any questions concerning this matter, please call.

Sincerely,

Neil Evan Strahl, Senior Planner
Current Plans Division

RE: S/D 99-23 -- Final Plat of McFARREN-BUSTOS ADDITION

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, April 8, 1999, the above captioned plat was considered. The action of the Committee was to approve the final plat subject to:

STAFF COMMENTS:

✓ A. Existing municipal services are available to serve this site. City Engineering needs to verify if any guarantees or easements are required. No guarantees are required.

✓ B. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.

✓ C. City Engineering needs to comment on the status of the applicant's drainage plan and the need for a floodway reserve. The drainage plan is approved. A Floodway reserve should be platted.

✓ D. The plat has dedicated access control except for one opening along 34th Street North. The plat's text shall note that the access controls are being dedicated to the City of Wichita.

✓ E. The final plat tracing shall reference a tie point to a section corner.

✓ F. The plat's text shall include language that a drainage plan has been developed for the plat and that all drainage easements, rights-of-way, or reserves shall remain at established grades or as modified with the approval of the applicable City or County Engineer, and unobstructed to allow for the conveyance of stormwater.

✓ G. The lot exceeds the maximum lot width to lot depth ratio of 2.5 to 1, and a modification will need to be approved.

✓ H. The applicant is reminded that a platting binder is required with the final plat tracing. Approval of this plat will be subject to submittal of this binder and any relevant conditions found by such a review.

- I. The plat's text shall include the standard floodway language.
- J. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- K. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- L. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- M. The applicant is advised that various State and Federal requirements [specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147] for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- N. The owner of the subdivision should be aware of the fact that the development of any subdivision greater than five (5) acres in size may require an NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Further, on all construction sites, the City of Wichita requires that best management practices be used to reduce pollutant loadings in storm water runoffs.
- O. Perimeter closure computations shall be submitted with the final plat tracing.
- P. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.
- Q. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.
- R. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat in digital format in Release 13 version of Autocad. This will be used by the City and County GIS Department.
- S. **City Fire requires the submission of a restrictive covenant limiting construction of a dwelling to be within 150 feet from the front property line; unless an approved driveway is constructed.**

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

S/D 99-23 - One-step Final Plat of MCFARREN-BUSTOS ADDITION

April 9, 1999

Page 3

This matter will be forwarded to the Planning Commission for its consideration on Thursday, April 15, 1999, at 1:30 p.m.

If you have any questions concerning this matter, please call.

Sincerely,

A handwritten signature in cursive script, appearing to read "Neil Evan Strahl".
