Re: S/D 9760 - One-Step Final Plat of NEWMARKET SQUARE ADDITION

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on **September 11, 1997**, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of **September 5, 1997**.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.

Please call if you have any questions.

Sincerely,

Keith Gooch

Re: S/D 97-60- ONE-STEP FINAL PLAT OF NEWMARKET SQUARE

Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, September 4, 1997, the above captioned plat was considered. The action of the Committee was to approve the plat, subject to the following:

- A. The applicant shall guarantee the extension of sanitary sewer to serve the lots being platted.
- B. Municipal water exists along 21st St. North and Maize Road. Along Maize Road municipal water ends approximately at Sterling. City Engineering should comment on the need for any additional guarantees needed.
- C. The applicant shall guarantee any drainage improvements required by the platting of this property.
- D. City Engineering should be prepared to comment on the status of the applicant's drainage plan. **A guarantee for off-site drainage easements are requested. Also, a minimum pad elevation for Lot 1 shall be provided.**
- E. **Traffic Engineering** should be prepared to comment on the need for any street improvements to 21st St. North and also Maize Road. Based on the development plan, a left turn lane and a decel lane along Maize Road and 21st St. North adjacent to the development should be guaranteed. Also per the development plan cross lot circulation shall be provided between the parcels. Finally, engineering should comment on the number of access points provided on this plat and if the development plan should be amended in this respect. **A petition shall be submitted for Maize Road improvements.**
- F. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- G. The applicant shall install or guarantee the installation of all utilities and facilities which are

applicable and described in Article 8 of the MAPC

Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)

- H. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- I. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (Phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- J. The applicant is advised that various State and Federal requirements [specifically, but not limited to, the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147] for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- K. Perimeter closure computations shall be submitted with the final plat tracing.
- L. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.
- M. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.
- N. The applicant is asked to remove the initial L. from Larry Consolver's name.
- O. The applicant's agent is reminded a new plat binder shall be submitted prior to the final tracing, or the final plat shall correctly identify the persons with vested interests in this plat and provide places for their approval and signatures.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

S/D 97-60 -- One-Step Final Plan of NEWMARKET SQUARE
September 5, 1997 - Page 3

This matter will be forwarded to the Planning Commission for its consideration on Thursday, September 11, 1997 at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Keith Gooch
