Re: S/D 96-79 - CMI ADDITION (Final Plat)

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on December 5, 1996, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of November 21, 1996.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.

Please call if you have any questions.

Sincerely,

Don Losew  
Senior Planner

Re: S/D 96-79 - CMI ADDITION (Final Plat)

Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, November 21, 1996, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

- ☒ A. The applicant shall attempt to obtain a valid paving petition for Laura from Osie to this street's northern terminus at the railroad right-of-way to the north. If such a petition is not obtained, the applicant shall submit an affidavit, for recording, indicating a willingness to participate in any future paving of this street. *submit this*
- ☒ B. Although this site is served by a 2" water line at this time, the applicant is advised that such a water line is insufficient for fire protection. It is recommended that the applicant pursue a valid petition to extend an appropriate water line to this site and adjoining properties at this time. Otherwise, at the time of building permit application, this site may itself be required to provided for such a water line and fire hydrant improvement.
- ☒ C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- D. On the final plat tracing, ten (10) feet of right-of-way shall be dedicated to an alley along the west line of this plat. Both the face of the plat and the plat's text shall note such a dedication.
- E. On the final plat tracing, both the centerline of Laura shall be labeled and the amount of 1/2 street right-of-way (30') indicated.
- F. If the applicant chooses, the final plat tracing may delete the platted building setback. The setback will then be determined by the zoning ordinance and could consequently be interpreted as being equal to or less than 20-feet.
- G. The applicant is reminded that a plat binder is required to be submitted with the final plat.

This plat will be subject to a review of the platting binder and any relevant conditions found by such a review.

H. On the final plat tracing, the following changes shall be made:

1. The MAPC Chair shall be shown as John C. Frye
2. Deputy - shall be deleted from the City Clerk's signature line.

- I. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- J. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- K. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- L. Recording of the plat within 30 days after approval by the City Council and/or County Commission.
- M. In accordance with Section 16.04.040 - Permit Fees Item 2a,b (Ord. 42-583) and Section 17.12.065 - payment for connection to water system for properties not included in benefit districts (Ord. 42-584), this property may or may not have been included in a benefit district. The applicant/agent should contact Betty Roark, with OCI at 268-4341 and Chuck Steven, Water & Sewer at 268-4555, to determine whether assessments are due.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The **enclosed "marked"** copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, December 5, 1996 at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Don Losew  
Senior Planner
