Re: S/D 94-24 FELLOWSHIP ACRES ADDITION - (Final Plat)

Dear Mr. Rishel:

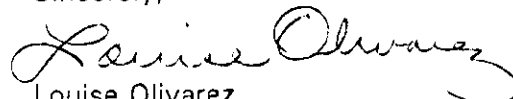

At the regular meeting of the Metropolitan Area Planning Commission on September 22, 1994, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of September 16, 1994.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.

Please call if you have any questions.

Sincerely,

Louise Olivarez
Principal Planner

Re: S/D 94-24 FELLOWSHIP ACRES ADDITION (Final Plat)

Dear Mr. Rishel:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, September 15, 1994, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

A. The applicant shall submit a petition to guarantee the extension of Wichita water across this Addition's frontage on 135th Street West. The applicant shall also submit a petition to guarantee the extension of Wichita sanitary sewer to serve this lot. These petitions will be held until these utilities are available for extension.

~~B.~~
9-19
Since neither municipal water nor sanitary sewer is available to serve this property, the applicant shall contact the Environmental Health Division of the Health Department to find out what tests may be necessary and what standards are to be met for approval of on-site sewerage facilities and water wells. A memorandum shall be obtained specifying approval.

~~C.~~
Halt
A.L.T.
The applicant shall attempt to obtain a valid paving petition for 135th Street West adjacent to this site. If such a petition cannot be provided, the applicant is advised to meet with City Engineering to discuss if this site could be included within other petitions being proposed for 135th Street between Maple and U.S. 54. If a valid petition cannot be provided or this site included in another petition, the applicants shall submit an affidavit to the City of Wichita indicating their willingness to participate in any future paving guarantees (petitions) for this street.

~~D.~~
The right-of-way being dedicated for the frontage road shall be 50 feet measured parallel to the existing U.S. 54 right-of-way.

E. The applicant shall guarantee, by petition to the County, the paving of the frontage road to suburban standards. This petition will be held until the road is extended west.

RECORDED

~~F.~~ The name of the frontage road shall be designated on the face of the plat as Harry Drive.

G. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.

H. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.

I. Numerous corrections need to be made on the final plat tracing before this plat can be forwarded to the governing bodies for review. One of the major corrections needed is the legal description in the surveyor's certificate. The legal given on this final plat submitted for Subdivision Committee review is for Lot 1 only, without any street right-of-way being included. That would indicate that all of the right-of-way shown for 135th Street and for the frontage road already exists, yet the plattor's text refers to the dedication of streets. The legal description must include all right-of-way now in this applicant's ownership which is being dedicated by this plat for streets as well as all land being platted into a lot.

*tracing
now change
but plat
bruder
has old
log*

The plattor's text shall dedicate the access controls depicted on the face of the plat, noting that the dedication is to the appropriate governing body with the location of any allowed openings to be approved by the appropriate engineer.

The signature block for Wichita City Council approval shall be included since this site is within 3 miles of the Wichita city limits.

All signature lines are required to have the names printed or typed beneath the lines.

All numbers and words on the final plat tracing shall be large enough and clear enough to be read easily.

Several other corrections which will be marked on the surveyor's copy of this plat and returned to him after the Subdivision Committee meeting shall also be shown on the final plat tracing.

see note on tracing

Item 8 of the platting binder references an easement granted to KG&E in 1936. The applicant or agent shall review this document and if the easement affects Lot 1, it shall be shown on the face of the plat. A copy of the recorded easement shall be submitted to the Planning Department.

~~K.~~ Perimeter closure computations shall be submitted with the final plat tracing.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

S/D 94 - 24 FELLOWSHIP ACRES ADDITION Final Plat
Page 3 - September 16, 1994

This matter will be forwarded to the Planning Commission for its consideration on Thursday, September 22, 1994 at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Louise Olivarez
Principal Planner

STAFF COMMENTS:

- A. The applicant shall submit a petition to guarantee the extension of Wichita water across this Addition's frontage on 135th Street West. The applicant shall also submit a petition to guarantee the extension of Wichita sanitary sewer to serve this lot. These petitions will be held until these utilities are available for extension.
- B. Since neither municipal water nor sanitary sewer is available to serve this property, the applicant shall contact the Environmental Health Division of the Health Department to find out what tests may be necessary and what standards are to be met for approval of on-site sewerage facilities and water wells. A memorandum shall be obtained specifying approval.
- C. The applicant shall attempt to obtain a valid paving petition for 135th Street West adjacent to this site. If such a petition cannot be provided, the applicant is advised to meet with City Engineering to discuss if this site could be included within other petitions being proposed for 135th Street between Maple and U.S. 54. If a valid petition cannot be provided or this site included in another petition, the applicants shall submit an affidavit to the City of Wichita indicating their willingness to participate in any future paving guarantees (petitions) for this street.
- D. The right-of-way being dedicated for the frontage road shall be 50 feet measured parallel to the existing U.S. 54 right-of-way.
- E. The applicant shall guarantee, by petition to the County, the paving of the frontage road to suburban standards. This petition will be held until the road is extended west.
- F. The name of the frontage road shall be designated on the face of the plat as Harry Drive.
- G. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- H. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- I. Numerous corrections need to be made on the final plat tracing before this plat can be forwarded to the governing bodies for review. One of the major corrections needed is the legal description in the surveyor's certificate. The legal given on this final plat submitted for Subdivision Committee review is for Lot 1 only, without any street right-of-way being included. That would indicate that all of the right-of-way shown for 135th Street and for the frontage road already exists, yet the plattor's text refers to the dedication of streets. The legal description must include all right-of-way now in this applicant's ownership which is being dedicated by this plat for streets as well as all land being platted into a lot.

The plattor's text shall dedicate the access controls depicted on the face of the plat, noting that the dedication is to the appropriate governing body with the location of any allowed openings to be approved by the appropriate engineer.

The signature block for Wichita City Council approval shall be included since this site is within 3 miles of the Wichita city limits.

All signature lines are required to have the names printed or typed beneath the lines.

All numbers and words on the final plat tracing shall be large enough and clear enough to be read easily.

Several other corrections which will be marked on the surveyor's copy of this plat and returned to him after the Subdivision Committee meeting shall also be shown on the final plat tracing.

- J. Item 8 of the platting binder references an easement granted to KG&E in 1936. The applicant or agent shall review this document and if the easement affects Lot 1, it shall be shown on the face of the plat. A copy of the recorded easement shall be submitted to the Planning Department.
- K. Perimeter closure computations shall be submitted with the final plat tracing.
