Re: S/D 95-7 D. EDWARDS ADDITION (Final Plat)

Dear Mr. Savoy:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, February 16, 1995, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

- ☒ A. The applicant shall attempt to obtain a valid paving petition for 34th Street North from Arkansas eastward to Jackson. If such petition cannot be obtained, an affidavit shall be submitted indicating that this site will participate in any future paving of this street.
- ☒ B. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- ☒ C. The final plat shall indicate the platting of the 15-foot building setback from Jackson through the existing building (shed) which encroaches into the setback area. Central Inspection has advised that the platting of this building setback does not preclude the property owner from maintaining or remodeling that portion of the building within the setback area. The building cannot, however, be enlarged within the setback and, if the building is removed, any new building construction must observe the platted building setback.
- ☒ D. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- ☒ E. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.

- g* Perimeter closure computations shall be submitted with the final plat tracing Section 5-101(c).
- h* Recording of the plat within 30 days after approval by the City Council.
- i* The applicant's agent is reminded that a detailed lot grading plan needs to be submitted for any multi-lot residential plat.
