Gary E. Rebenstorf, City Attorney

BACKGROUND: The applicant requests "OW" Office Warehouse zoning on a 1-acre platted site, currently zoned "SF-5" Single-Family Residential, for an office and warehouse use at a converted fire station. The application area is North of West MacArthur and west of Exchange (600 West MacArthur), approximately ¼ mile west of I-235. The application site is a former City of Wichita fire station, built in 1967, and last used in February of 2003.

North of the application area is a large mobile home park; south of the application area, across MacArthur are several single-family residences and an apartment complex (DP 72). East of the application area are several single-family residences, vacant land, and I-235. West of the site is vacant GC zoned property and a GI zoned natural gas facility.

Analysis: The MAPC heard this request on October 10, 2004, and recommended approval (11-0) without the staff recommended right of way dedication. Three residential neighbors from spoke against the application with truck traffic concerns. Staff has received four protest petitions on this case, resulting in an 11.56% protest area, which does **not** require a three-fourths majority vote to override. See the attached protest calculation diagram.

Financial Considerations: None

Legal Considerations: The ordinance has been reviewed and approved as to form by the Law Department.

Recommendation/Actions: It is recommended that the City Council

1. Concur with the findings of the MAPC and approve the first reading of the ordinance establishing the zone change; or
2. Return the application to MAPC for reconsideration.

(An override of the Planning Commission's recommendation requires a two-thirds majority vote of the members of the governing body on the first hearing.)
