Re: S/D 94-77 VAUTRAVERS ADDITION - (Final Plat)

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on Thursday, November 3, 1994, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of October 27, 1994.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.

Please call if you have any questions.

Sincerely,

Don Losew
Senior Planner

cc: Ralph Vautravers, 7006 Clearmeadows Circle, Wichita, KS 67205
Mike Lindebak, City Engineer

STAFF COMMENTS:

- A. Any drainage improvements required by the platting of this property shall be done at the time of site development.
- B. As indicated by City Engineering, rather than a drainage easement, this site requires the platting of a Floodway. The platting text shall also be amended to reference the standard floodway language.
- C. The applicant shall submit a copy of the instrument which establishes the Colorado Oil and Gas Corporation Pipeline Easement on this property. The applicant's agent shall determine any setback requirements from the pipeline by researching the text of the pipeline agreement. If a setback from the pipeline easement is provided for in the pipeline easement agreement, it shall be indicated on the face of the plat.
- D. Any relocation, lowering or encasement of the pipeline, made necessary by this development, will not be at the expense of the City.
- E. On the final plat tracing, the MAPC signature block shall be amended to indicate John W. McKay Jr. as Chairman.
- F. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- G. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- H. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- I. Recording of the plat within 30 days after approval by the City Council.
- J. The applicant is advised that this site is located in a designated "ponding area" and at the time of site development, this site's grading plan will require approval by the City's Flood Control Office.
