Re: S/D 92-66 THE DUGAN CENTRE SECOND ADDITION (Final Plat)

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on December 18, 1992, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of December 11, 1992.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developers.

Please call if you have any questions.

Sincerely,

Don Losew
Senior Planner

Mike Lindebak, City Engineer

- K. The final plat shall state in the plat's text the purposes of the proposed reserves as well as who is to own and maintain the reserves.
- L. Provisions shall be made for ownership and maintenance of the proposed reserves. The applicant shall either form a lot owners' association prior to recording the plat or shall submit a covenant stating when the association will be formed, when the reserves will be deeded to the association and who is to own and maintain the reserves prior to the association taking over those responsibilities.
- M. For those reserves being platted for drainage purposes, the required covenant which provides for ownership and maintenance of the reserves shall grant, to the City, the authority to maintain the drainage reserves in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by a method similar to special assessments.
- N. The applicant is advised that a portion of Lot 1 is within an indicated FEMA flood area, and that prior to a building being allowed in this area, revision of the FEMA flood map will be necessary.
- O. The indicated minimum building pad elevation shall also be referenced in the plat's text. It shall also be indicated if this elevation involves the lowest opening or floor level. Also, the required elevation shall be three (3) feet higher than presently dedicated.
- P. The applicant shall submit an avigational easement covering all of subject plat and a restrictive covenant assuring that adequate construction methods will be used to minimize the effects of noise pollution in the habitable structures constructed on subject property.
- Q. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- R. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- S. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- T. Recording of the plat within 30 days after approval by the City Council.

STAFF COMMENTS:

- A. The applicant shall submit a guarantee to extend sanitary sewer to all of the lots now being platted and shall either resubmit petitions or submit square footage information so that existing guarantees can be respread (water, drainage, etc.).
- Also, the final plat tracing shall indicate any additional easements needed for the extension of sanitary sewer, or to cover existing sewer lines such as to Lot 2.
- B. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- C. On the final plat tracing, Taft, adjacent to the north line of this plat shall be indicated with the center line and half street right-of-way shown.
- D. Prior to this plat being scheduled for City Council review, the applicant shall obtain an adjustment to CUP, DP-151, Amendment #1, so that the boundaries of the plat correspond to the CUP's parcel boundaries. The applicant is advised that as now indicated in the CUP only four (4) buildings, one per lot, would be expected.
- E. On the final plat tracing, the note in regard to building setbacks should be amended to indicate that the CUP is DP-151, "Amendment #1".
- F. For Lots 3 and 4, since access is being allowed to Taft, the word "complete" should be eliminated from the face of the plat, north of these lots.
- G. For Lot 2, either an agreement needs to be recorded which allows access to it from Lot 1 or a private access easement needs to be established and shown on this plat with appropriate recording information. If an agreement is used, a recorded copy shall be submitted for the plat file.
- H. In terms of the access easement along the west line of Lot 1, since this is a private easement, the applicant shall record this easement and show the recording information on the final plat tracing. A copy shall be provided for the plat file.
- I. The applicant is advised that the access of Lot 1, to Taft will be counted as one of the openings originally allocated to Parcel 4 of the CUP.
- J. The final plat shall indicate the platting of a Reserve, for drainage, rather than the drainage dedication as is presently being indicated.
