Re: S/D 93-1 STEVE KELLEY 2ND ADDITION (Final Plat)

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on January 28, 1993, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of January 21, 1993.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developers.

Please call if you have any questions.

FILE

Sincerely,

Don Losew
Senior Planner

Mike Lindebak, City Engineer

not being shown on this final plat.

- G. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- H. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- I. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-946-4527) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- J. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- K. Recording of the plat within 30 days after approval by the City Council.

STAFF REPORT
(Final Plat Approved 1/21/93)

CASE NUMBER: S/D 93-1 STEVE KELLEY 2ND ADDITION

OWNER/APPLICANT: Steve Kelley Construction, Inc., 2301 Cedar Crest Drive, Wichita, KS 67223

SURVEYOR/ENGINEER: Baughman Company, P.A., 315 Ellis, Wichita, KS 67211

LOCATION: East of West Street and south of Central

SITE SIZE: 24,788 square feet

NUMBER OF LOTS

Residential:	2
Office:	
Commercial:	
Industrial:	
Total:	2

MINIMUM LOT AREA: 9,534 sq. ft.

CURRENT ZONING: "AA" One-family Dwelling

VICINITY MAP:

STAFF COMMENTS:

- A. The applicant shall attempt to obtain sufficient right-of-way from the north line of this addition, southward to St. Louis or from the south line of this plat northward to Newell so as to provide total right-of-way of 60 feet for Kessler. If such right-of-way cannot be obtained, this plat's approval shall be subject to the waiver of such right-of-way requirements by both the Planning Commission and City Council.
- B. Urban subdivisions also require that adjacent streets be paved. For this site, that should either require that Kessler be paved out to St. Louis and St. Louis westward to the existing paving. Alternatively Kessler could be paved northward to the existing paved section north of Newell. Waiver of an improvement standard such as paving must be obtained from the City Council. This plat shall either be subject to the guaranteeing of a paved street or will be subject to the waiver of such a requirement by the City Council. That is, the applicant shall attempt to obtain a valid paving petition for Kessler from St. Louis to Newell.

If the applicant is unable to obtain a valid petition and chooses to seek a waiver, the applicant shall submit an affidavit for recording, indicating that these properties will be willing and subject to any future paving requests.

- C. The applicant shall guarantee the extension of City water to serve the lots being platted.
- D. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- E. As indicated on the sketch plat, an existing sanitary sewer line along the south line of Lot 2 is being covered by a six (6) foot utility easement. As requested by City Engineering, a 15-foot easement needs to be provided at this location. Also, the plat's text is indicating the vacation of such easements while the face of the plat is implying that this easement is still being retained as originally granted (i.e., film and page numbers shown).

The final plat tracing should clearly indicate that this easement is being vacated and replatted by noting this in the plat's text and by the face of the plat simply depicting an appropriate easement (as requested by City Engineering) along the south line of Lot 2 (i.e., without reference to a film and page number).

- F. Prior to this plat being scheduled for City Council review, the applicant shall indicate that they are the only owners of this property and may sign as such on the plat tracing. The present platting binder for this site indicates other owners which are
