Office:	
Commercial:	
Industrial:	
Total:	1

MINIMUM LOT AREA: 5.1 Acres

CURRENT ZONING: "R" Rural-Residential

VICINITY MAP:

FILE COPY

STAFF COMMENTS:

- A. Since neither municipal water nor sanitary sewer is available to serve this property, the applicant shall contact the Environmental Health Division of the Health Department to find out what tests may be necessary and what standards are to be met for approval of on-site sewerage facilities and water wells. A memorandum shall be obtained specifying approval.
- B. On the final plat tracing, both the face of the plat and the plattor's text shall indicate the dedication of access controls to both Oliver and 69th Street North. One hundred (100) feet of complete access control shall be indicated to both of these streets from the northeast corner of the plat. For the remaining frontages, two (2) openings to each street shall be indicated. The plattor's text shall also note that the location of such openings shall be approved by the County Engineer.
- C. Although a 30-foot building setback to both Oliver and 69th Street North would be required for property zoned "R" rural residential, being at the intersection of two, mile line roads, 35-foot building setbacks shall be platted from the two adjacent streets. Although residential at this time, the potential commercial development of such intersections should be considered.
- D. If no easements are being granted by this plat, the reference to such easements shall be deleted from the plattor's text.
- E. As indicated by the platting binder, the 2nd half of 1991 property taxes are due for this site. Prior to this plat being released for County Commission review, the applicant shall submit proof that these taxes have been paid.
- F. As requested by County Engineering prior to this plat being scheduled for City and County review, an approved drainage plan shall be obtained.
- G. On the final plat tracing the names of the County Commissioners shall be printed below their signature lines on the plat.
- H. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- I. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- J. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-946-4527) prior to development of the plat so that the type of

Re: S/D 92-23 A.M. ADDITION (Final Plat)

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on June 18, 1992, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of June 12, 1992.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developers.

Please call if you have any questions.

Sincerely,

Don Losew
Senior Planner
