Re: S/D 91-56 Walker's Cobblestone Addition

Dear Don:

At the regular meeting of the Metropolitan Area Planning Commission on October 24, 1991, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of October 18, 1991.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developers.

Please call if you have any questions.

Sincerely,

Mike Lindebak, City Engineer

- K. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- L. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- M. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-946-4527) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- N. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- O. Recording of the plat within 30 days after approval by the City Council.

STAFF COMMENTS:

- A. The applicant is advised that under the conditions of the Conditional Use (CU-267) this plat is interpreted to constitute the required site plan and is proposing to be developed with one detached, single-family structure on each individual lot rather than clustered, detached, single family structures on one overall lot.
- B. The applicant shall guarantee the extension of sanitary sewer to serve the lots being platted. The applicant is advised that this site is also in an area subject to the County's sanitary sewer impact fees.
- C. Prior to this plat being scheduled for City Council review the applicant shall submit and obtain approval of a drainage plan. Any required drainage improvements shall be guaranteed.
- D. Since this plat is in essence not vacating any previous dedications or easements reference to KSA 12-512(b) should be deleted from the surveyor's text. This surveyor's text should however reference the quarter section in which the plat is located.
- E. The final plat tracing shall for a County Plat, also indicate a block number or letter.
- F. Since no streets are being dedicated by this plat, reference to such a dedication shall be deleted from the plattor's text. Further, the plattor's text shall note that the site is "being platted into lots and a Block" to be known as Walker's Cobblestone Addition. The granting of the utility easements should still be indicated.
- G. On the face of the final plat tracing, the complete access to 13th St. North shall be clearly indicated as extending across all 3 lots.
- H. On the final plat tracing, the center lines (CL) of the adjacent streets shall be indicated along with the amount of half street right-of-way available.
- I. Since this site is within 3-miles of the City of Wichita, this plat must also be reviewed by the City Council. An appropriate City of Wichita signature block shall therefore be added to the final plat tracing.
- J. The applicant's surveyor is reminded that a title binder is required at the time that a final plat is submitted.
