Re: S/D 91-31 (Final Plat) Jackie Kelley Addition

Dear Don:

At the regular meeting of the Metropolitan Area Planning Commission on August 15, 1991, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of August 9, 1991.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developers.

Please call if you have any questions.

Sincerely,

Don Losew
Senior Planner

AGENDA ITEM NO. 1-3

August 15, 1991

STAFF REPORT
(Final Plat Approved 8/8/91;
Preliminary Plat Approved 7/11/91)

CASE NUMBER: S/D 91-31 - JACKIE KELLEY ADDITION

OWNER/APPLICANT: Robert G. Kelley, etux, Box 322, Wichita, KS 67201

SURVEYOR/ENGINEER: Moehring & Associates, 433 South Hydraulic, Wichita, KS 67211

LOCATION: North side of 21st St. North and 1/2 mile west of Maize Rd.

SITE SIZE: 5.45 Acres

NUMBER OF LOTS

Residential:	1
Office:	
Commercial:	
Industrial:	
Total:	1

MINIMUM LOT AREA: 5.0039 Acres

CURRENT ZONING: "R-1" Suburban Residential

PROPOSED ZONING: "AA" Single Family

VICINITY MAP:

NOTE: This site is presently located in the County with "R-1" Suburban residential zoning. As it lies adjacent to the City limits, it will need to be annexed and subsequently rezoned to "AA" Single Family.

STAFF COMMENTS:

- A. Since this property is adjacent to the City of Wichita, the applicant shall request annexation into the City. The final plat shall not be scheduled for City Council review until annexation has occurred. Upon annexation, this property will take on City "AA", one family dwelling district zoning.
- B. Since sanitary sewer is presently not available to serve this site, the applicant shall contact the Environmental Health Division of the Health Department to find out what standards are to be met and what tests may be required for approval of on-site sewerage. A memorandum shall be obtained specifying approval. The applicant is advised that the use of an on-site sanitary sewer system is only intended as a temporary facility. Also, the applicant needs to verify with the Health Department the requirements for locating any lagoon on this site adjacent to such a facility on adjacent property.
- C. The applicant shall submit a petition for the future extension of municipal sewer to this site. This petition will be held until it can be combined with other guarantees for the extension of sanitary sewer to this site. As requested by City Engineering, the final plat tracing shall also indicate a 20 foot utility easement along its south line for the future extension of sanitary sewer.
- D. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- E. Approval of this plat will require a waiver of the lot depth to width ratio of the Subdivision Regulations. The Subdivision Regulations state that, "the maximum depth of all residential lots shall not exceed 2-1/2 times the width thereof."
- F. The applicant should be advised the area of this site is in the Urban Growth Center, meaning lots in this area should be urban in nature as to configuration. In the future, special assessments will be extremely high for a lot of this configuration.
- G. As indicated by the drainage plan for this site, an off-site drainage agreement needs to be obtained. This agreement shall be submitted to Planning, for recording, with the final plat tracing.
