STAFF COMMENTS:

- A. The applicant shall guarantee the extension of sanitary sewer to serve the lots being platted.
- B. The applicant shall guarantee any drainage improvements required by the platting of this property.
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- D. Traffic Engineering should be prepared for comment on the number of access openings being indicated to Tyler Road. It is recommended that only two openings be provided, with Lots 1 and 2 sharing a joint opening, with the second opening exclusively available for Lot 2. A joint access easement would need to be established by separate instrument, specifying the construction, maintenance and other conditions concerning use of this joint entrance. This easement needs to be reviewed by Planning and subsequently recorded by the applicant so that the recording information can be indicated on the final plat tracing. The platting's text shall be revised as necessary.
- E. On the final plat tracing a full 20-foot utility easement shall be established along the north line of Lot 1 to cover the existing sanitary sewer. An additional utility is already in this easement and the sewer line is just inside or along the southern extreme of the 10-foot easement.
- F. A portion of the right-of-way for Tyler and Maple adjacent to this plat was purchased by the City and therefore, is not being dedicated by this plat. The final plat tracing shall clearly indicate only the right-of-way being dedicated by this plat, while indicating that other right-of-way was obtained by condemnation or other means.
- G. On the final plat tracing the MAPC's signature block shall indicate "George Sherman, Acting Chairman," while the City's signature block shall indicate "Pat Burnett, Deputy City Clerk" instead of John Moir.
- H. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- I. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- J. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
