Re: S/D 90-7 BLASI ADDITION

Dear Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on March 1, 1990, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of February 23, 1990.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a title report by an abstract or title insurance company or an attorney's opinion that fee title is vested in the platfor.
3. Certification that all due real estate taxes have been paid.

Please call if you have any questions.

Sincerely,

R. Timothy Bickhaus  
Associate Planner

STAFF COMMENTS:

- A. On the final plat tracing only one (1) access opening shall be indicated for Lot 1. A guarantee shall also be provided to close one of the two drives presently serving this site. The platator's text shall be amended to indicate this access control.
- B. Since the alley adjacent to this site is still in use by abutting properties, and the present standard for alleys is 20-feet, this plat shall indicate the dedication of the west two feet of the plat for alley right-of-way. This is in lieu of the two feet of easement being granted by the present plat.
- C. The final plat tracing shall indicate a 20-foot building setback to Hillside. The applicant(s) are advised that the platting of the 20-foot building setback does not preclude the structures from being maintained or remodeled within the setback areas. However, the structures cannot be enlarged within the setback and if the structures are removed, any new construction must observe the platted building setback.
- D. The platator's text shall be amended to include wording noting that the contingent dedication of street right-of-way is "to the public" and that the dedication is binding of future owners and assigns."
- E. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- F. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- G. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- H. Recording of the plat within 30 days after approval by the City Council.
