Re: S/D 86-7 - HARVEST CHAPEL ADDITION

Dear Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on November 20, 1989, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of November 17, 1989.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a title report by an abstract or title insurance company or an attorney's opinion that fee title is vested in the plattor.
3. Certification that all real estate taxes for 1988 and all prior years have been paid.

Please call if you have any questions.

Sincerely,

R. Timothy Bickhaus  
Associate Planner

STAFF COMMENTS:

NOTE: A final plat for this site was approved by the MAPC on September 18, 1986. The plat, however, was never taken beyond MAPC's review. The applicant is now requesting that this plat again be considered. Because of the lapse in time since the original plat was considered, a new final has been submitted. This area was also involved in a BZA case (Co. BZA 15-85) involving a request to allow a reduced setback to 55th Street for a planned church expansion. The setback as indicated on this plat reflects what was approved by the Co. BZA case. This reduced setback was in part requested and allowed due to this site being required to dedicate major intersection right-of-way, while the site itself being of relatively limited depth from 55th Street South. The following comments are also primarily the same as those approved for the site in 1986, by the MAPC.

- A. The applicant shall guarantee the extension of City water to serve the lots being platted.
- B. The applicant shall guarantee the extension of sanitary sewer to serve the lots being platted.
- C. The applicant shall guarantee any drainage improvements required by the platting of this property.
- D. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- E. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- F. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- G. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- H. Recording of the plat within 30 days after approval by the City Council.
- I. The representative from City Engineering should be prepared to comment on the status of the applicant's drainage plan.
