- D. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- E. Access to proposed Lot 4 is proposed to be by way of a 30-foot wide egress/ingress easement recorded of record on misc. book 579, page 696. A copy of this easement shall be submitted for the plat file. Unless the location of this access easement is changed, Lot 1 has no other access.

- G. The applicant has filed an associated vacation case (V-1468) which requests the vacation of that portion of a drainage easement, to the west of this replat, which is not included within this plat's perimeter. It should be noted that a 2-foot wide unencumbered strip of land, along the plat's west line, is being established for construction of a masonry wall.
- H. The applicant shall submit for recording with the plat, the cross lot drainage agreement required by the drainage plan for this property. This drainage agreement shall specify which lots will drain across other lots and shall state that the agreement runs with the land and is binding on future owners and assigns.

- J. On the final plat tracing, the access controls being dedicated to Pawnee and Oliver shall be divided up according to how many openings each lot will receive. For Pawnee, the following wording is suggested, "access control except for 1 opening per lot", accompanied by a 30-foot wide break in access control centered on the lot line common to Lots 2 and 3. For Oliver, the following wording is suggested, "access control except for 1 opening per lot" instead of "access control except for 2 openings" from Lots 2 and 3.
- K. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- L. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.

- O. The representative from City Engineering should be prepared to comment on the status of the applicant's drainage plan.
- P. The representative from K.G.&E. should be prepared to state if the K.G.&E. easement on this property is correctly depicted. Is the platting of a building setback required?
- Q. The representative from City Engineering should be prepared to comment on the amount of street rights-of-way needed for Oliver and Pawnee, to construct the numerous arterial street improvements required in Item "C" of these comments.
- R. The representative from the City Engineer's office should be prepared to comment on the status of the applicant's drainage plan. Specifically, are any drainage guarantees required?

 2. "The applicant shall guarantee the construction of a decel lane - free right turn from eastbound Pawnee to southbound Oliver, to be installed at the time that the City is prepared to install left turn lanes on Oliver at the intersection with Pawnee, or at the time that there is preparation to develop Parcel 5 with land uses and floor area that would exceed 3,000 average daily trip ends on that parcel, based on standard ITE trip generation rates as determined by the city's traffic engineer."  3. "The applicant shall guarantee the cost of reconstruction of the medial in Pawnee, to be installed with the first phase of development, providing for a minimum of 180 feet of storage in the eastbound left turn lane of Pawnee, and a raised medial providing protected left turn storage from westbound Pawnee into an entrance and left turns from the site into westbound Pawnee. Said guarantee shall be released should the property to the west be approved for a nonresidential zoning classification. The Wichita City Council may order the construction of the wall prior to the development of the property adjacent to the C.U.P. on the west if, in their estimation, a litter problem is occurring as a result of commercial development on this C.U.P." The dollar amount of the letter of credit for the private wall shall be worked out with City Engineering prior to submitting this plat for scheduling before the City Council.
