

- K. In order to alert all future owners of lots being accessed by the private streets, a restrictive covenant shall be submitted for recording, which states that the private streets will not be accepted by a governing body as a public street dedication unless a guarantee for paving the streets, to a public standard, is also provided. The covenant shall also alert future owners that the further division of their lots, by lot split or replat, will not be approved unless the street, accessing their property, is paved to the standards of a public street.
- L. As requested by K.G.&E., the final plat tracing shall indicate a 10-foot utility easement centered on the common property line of Lots 6 and 7.
- M. The final plat tracing shall reference the required minimum building pad elevation in Mean Sea Level as well as City Datum.
- N. On the final plat tracing, the County Commission's signature block shall be amended to reference the following names in the following order:
1. Tom Scott - Chairman
 2. Mark F. Schroeder - Pro-tem Chairman
 3. David Bayouth - Commissioner
 4. Bernard A. Hentzen - Commissioner
 5. Billy Q. McCray - Commissioner
- O. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- P. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-946-4527) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- Q. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- R. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(C).
- S. Recording of the plat within 30 days after approval by the City Council.
- T. The representative from County Engineering should be prepared to comment on the status of the applicant's drainage plan.

STAFF COMMENTS:

NOTE: An overall preliminary plat for this site was reviewed by the Subdivision Committee on October 9, 1987. The preliminary plat involved the platting of 78.5 acres into 45 residential lots and one (1) office lot. However, only a portion of this overall plat was approved for final platting.

This plat involves a segment of the portion approved for platting. Suburban-sized lots, accessed by way of private streets in some cases and improved to the standards of a suburban street, are being platted. The applicant is attempting to develop a plat around the theme of horse riding trails and extensive open spaces.

- A. The applicant shall guarantee the extension of sanitary sewer to serve the lots being platted.
- B. The applicant shall guarantee the extension of City water to serve the lots being platted.
- C. The applicant shall guarantee the construction of the private streets to the suburban street standard.
- D. The applicant shall guarantee any drainage improvements required by the platting of this property.
- E. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- F. Since this property will utilize City of Wichita water, the applicant shall submit an outside-the-City water service application and associated restrictive covenant.
- G. The final plat shall state in the plat's text the purposes of the proposed reserves as well as who is to own and maintain the reserves.
- H. Provisions shall be made for ownership and maintenance of the proposed reserves. The applicant shall either form a lot owners' association prior to recording the plat or shall submit a covenant stating when the association will be formed, when the reserves will be deeded to the association and who is to own and maintain the reserves prior to the association taking over those responsibilities.
- I. For the reserve being platted for drainage purposes, the required covenant which provides for ownership and maintenance of the reserve shall grant, to the County, the authority to maintain the drainage reserve in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by a method similar to special assessments.
- J. For the reserve being platted for private street purposes, the required covenant which provides for ownership and maintenance of the reserve shall grant, to the governing body, the authority to maintain the private street reserve in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by a method similar to special assessments.

FINAL PLAT

SAVANNA

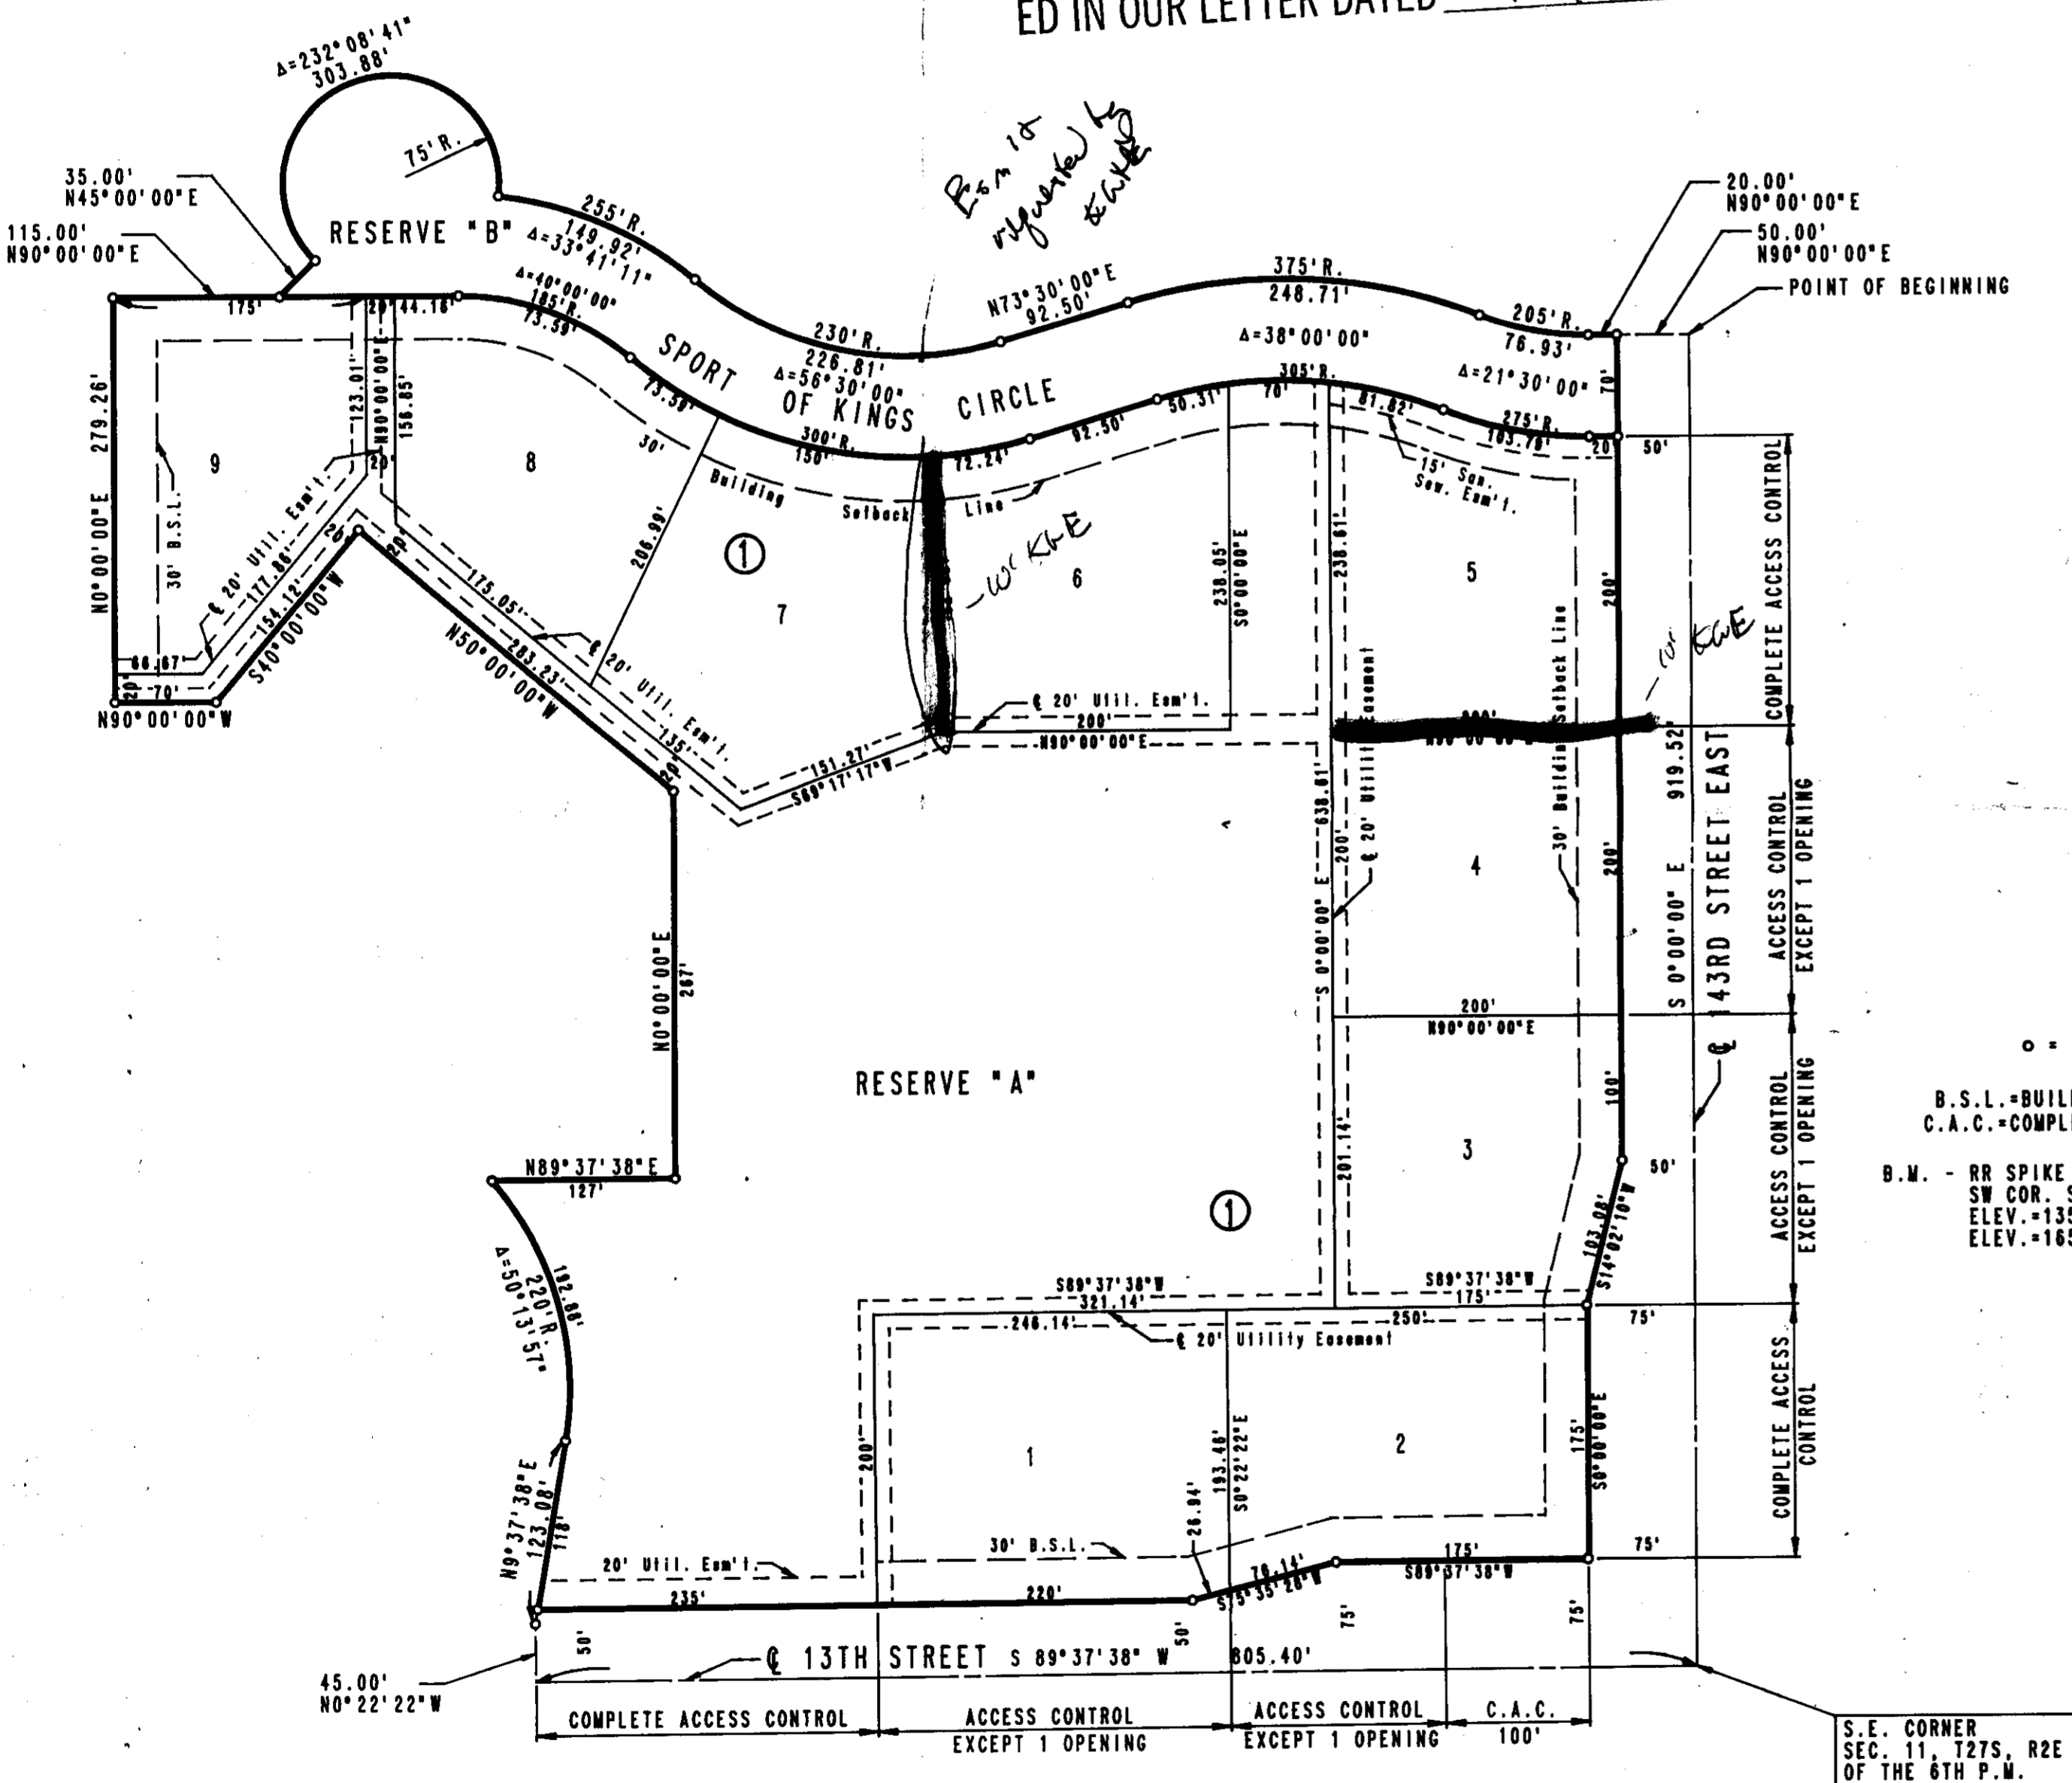

AT CASTLE ROCK RANCH

AN ADDITION TO SEDGWICK COUNTY, KANSAS

Re: Final Plat S/D 87-40 - SAVANNA AT CASTLE ROCK RANCH

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on February 18, 1988, the above-captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of February 11, 1988.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a title report by an abstract or title insurance company or an attorney's opinion that fee title is vested in the plattor.
3. Certification that all real estate taxes for 1987 and all prior years have been paid.

Please call if you have any questions.

Sincerely,

Donald Losew
Junior Planner
