Re: Final Plat S/D 86-56 - WOODLAND ESTATES

Dear Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on August 7, 1986, the above-captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of July 31, 1986.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the Board of City Commissioners for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a title report by an abstract or title insurance company or an attorney's opinion that fee title is vested in the platfor.
3. Certification that all real estate taxes for the first half of 1986 and all prior years have been paid.

Please call if you have any questions.

Sincerely,

Forrest L. Nagley
Senior Planner

- K. The applicant shall submit a covenant which provides for four (4) off-street parking spaces per dwelling unit on each lot which abuts a 58-foot street. The covenant shall inventory the affected lots by lot and block number and shall state that the covenant runs with the land and is binding on future owners and assigns.
- L. The applicant shall submit an avigational easement covering all of subject plat and a restrictive covenant assuring that adequate construction methods will be used to minimize the effects of noise pollution in the habitable structure constructed on subject property.
- M. The final plat shall indicate on the face of the plat the minimum building pad elevations required for Lots 1 thru 6, Block 2. The minimum building pad shall be noted in both Mean Sea Level and City Datum.
- N. On the final plat tracing, the 10-foot wide K.G.&E. easements shall be relabeled as "10-foot utility easements".
- O. On the final plat tracing, a 15-foot wide "street, drainage and utility easement" shall be platted within Reserves A and B adjacent to the narrow public street right-of-way (Gatewood). These easements were included as part of the approved preliminary plat.
- P. On the final plat tracing, the granting of the street, drainage and utility easement shall be mentioned in the plat's text. The following wording is suggested. "Easements for the construction and maintenance of street, drainage and public utilities, as indicated on the accompanying plat, are hereby granted."
- Q. The representative from the City Engineer's office should be prepared to comment on the status of the applicant's drainage plan. Specifically, what minimum building pad is required and what drainage guarantees are needed?
- R. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(C).
- S. Recording of the plat within 30 days after approval by the Board of City Commissioners.

STAFF COMMENTS:

- A. The applicant shall guarantee the extension of sanitary sewer to serve the lots being platted.
- B. The applicant shall guarantee the extension of City water to serve the lots being platted.
- C. The applicant shall guarantee the paving of the proposed interior streets.
- D. Since Gatewood (collector street) is being platted with no lots fronting directly on it, and further, in order to preserve as many of the existing trees as possible, the paving width for Gatewood shall be 31 feet from back of curb to back of curb. The normal paving width is 37 feet.
- E. As per the sidewalk plan for this property, the applicant shall guarantee the construction of a sidewalk within Reserves A and C. The amount of sidewalk within the reserves to be guaranteed is approximately 725 feet in length.
- F. The applicant shall guarantee any drainage improvements required by the platting of this property.
- G. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- H. Prior to release of this plat for recording, the structures which encroaches into the street rights-of-way and utility easements being dedicated by this plat must be removed. Once the structures have been removed, a letter so stating shall be submitted from the platting engineer.
- I. Provisions shall be made for ownership and maintenance of the proposed reserves. The applicant shall either form a lot owners' association prior to recording the plat or shall submit a covenant stating when the association will be formed, when the reserves will be deeded to the association and who is to own and maintain the reserves prior to the association taking over those responsibilities.
- J. For those reserves being platted for drainage purposes, the required covenant which provides for ownership and maintenance of the reserves shall grant, to the City, the authority to maintain the drainage reserves in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by a method similar to special assessments.
