

BACKGROUND: The applicants are requesting an exception to the required 6.5-ft. tall solid masonry screening for a motel (bed and breakfast) in the "BB" district as permitted by the regulations. They propose a 6.5-ft. tall solid wood fence. The Board may grant an exception within certain guidelines, provided the screening does not permit light on debris to pass through to adjacent properties and provided that landscape plantings alone are not deemed sufficient screening.

ADJACENT ZONING AND LAND USE:

NORTH	"B"	Church
SOUTH	"AA"	Residences
EAST	"B"	Lodge w/large paved parking lot
WEST	"B"	Residence

RECOMMENDATION: Should the Board determine that a 6.5-ft. wood fence in lieu of a masonry wall is appropriate at this location, it is recommended that the exception be approved, subject to the following conditions:

1. A 6.5-ft. tall solid wood fence designed to prevent the passage of light and debris shall be installed along the west and east property lines, but in no case closer to Douglas or Oakland than the front yard 20-ft. setback lines. Fences or walls 3 ft. or less in height may also be installed along the Douglas and/or Oakland frontages.
