

BACKGROUND: The applicant is requesting a use exception to permit vehicle rental in the Light Commercial District as an accessory use to an existing self-service storage facility. The vehicles for rent would be limited to two Ryder trucks which would be stored in front of the warehouses in parking spaces which are already paved and striped. A total of 8 parking spaces is required for the self-service storage facility and 8 are designed in front of the warehouses. However, there is sufficient paved area for 2 or 3 more spaces in front and at least 2 spaces in the interior of the site; thus, no required parking for the storage facility will be deleted by the parking of Ryder trucks in 2 of the spaces near 21st Street. Due to the limited depth of the parking spaces, however, the Ryder trucks permitted to be stored on this site for rental purposes should be limited to the smaller sizes commonly referred to as the 10-foot and 15-foot "boxes" which have overall vehicle lengths of approximately 18 and 23 feet.

ADJACENT ZONING AND LAND USE:

NORTH	"LC" w/BZA	Self-service storage warehouses
SOUTH	"BB" & "B"	Offices
EAST	"AA"	Undeveloped
WEST	"LC"	Strip center

RECOMMENDATION: Should the Board determine that vehicle rental is appropriate at this location, it is recommended that the exception be approved, subject to the following conditions:

1. This use exception is granted for the rental of Ryder trucks only and is limited to 2 vehicles being available for rent at this location at any one time. The vehicles shall be no larger than the 15-foot "boxes" which have an overall vehicle length of approximately 23 feet.
2. When stored on site, the Ryder trucks shall be parked in parking spaces behind the front 35-foot building setback line (the 2 spaces nearest the warehouses on each side of the lot).
