NOW, THEREFORE, BE IT RESOLVED by the Metropolitan Area Planning Commission that this application be approved to allow a Utility, Major on .51 acre zoned "RR" Rural Residential described as:

This recommendation is based on the following findings:

1. The zoning, uses and character of the neighborhood: RR Rural Residential and SF-20 Single-family Residential zoning surrounds the application area. Nearby uses range from large-lot suburban type residential to agricultural.
2. The suitability of the subject property for the uses to which it has been restricted: The site could continue to be used as zoned, however the proposed installation will have to be sited along the pipeline to accomplish the desired end.
3. Extent to which removal of the restrictions will detrimentally affect nearby property: The installation should not detrimentally impact nearby properties. It is approximately 700 feet to the nearest residence.
4. Relative gain to the public health, safety and welfare as compared to the loss in value or the hardship imposed upon the applicant: Denial would force the applicant to find another location and probably be an economic hardship. Crude oil is a product used by virtually everyone. Installations necessary to transport crude oil would normally be beneficial to the public's welfare.
5. Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies: The Comprehensive Plan contains location criterion recommending that utility facilities with significant noise, odor and other nuisance elements should be located away from residential areas. This site is reasonably remote from residences.
6. Impact of the proposed development on community facilities: None identified.

STAFF REPORT

MAPC 9-22-2005

Haysville 8-25-2005

- CASE NUMBER: CON 2005-00034
- APPLICANT/AGENT: Walter L Branch / Semi Crude, L.P. (Glenn Collum)
- REQUEST: Conditional Use to permit a Utility, Major
- CURRENT ZONING: RR Rural Residential
- SITE SIZE: .51 acre
- LOCATION: North of 87th Street South, approximately ½ mile west of
Broadway/Highway 81
- PROPOSED USE: Pump site to provide pressure for crude oil pipeline

BACKGROUND: The applicant is requesting a Conditional Use to permit a “utility, major” which would allow the installation of a pumping unit on an approximately one-half acre site located north of 87th Street South and approximately one-half mile west of Broadway/U.S 81 Highway. The application area is a 150-foot by 150-foot square piece of land that is zoned RR Rural Residential. The pumping unit will provide additional pressure for a four-inch crude oil pipeline that runs through the eastern third side of the application area. The pump is to be located just west of the pipeline, and will be connected to the pipeline. In the western third of the site a control building exceeding 150 cubic feet is to be located to the west of the pump. A transformer bank and drag reducing agent (DRA) skid is also shown on the site plan. The site is to be fenced and gated. County Public Works has reviewed the proposed site plan and approved the access point.

The *Wichita-Sedgwick County Unified Zoning Code* defines a “utility, major” as a service similar to services and facilities of agencies that provide the general public with electricity, gas, heat, steam, communication, rail transportation, water, sewage collection or other similar services that exceed 150 cubic feet in size and six feet in height that might generate discernable noise, odor or vibration in a residential district. The code permits a major utility as a Conditional Use in the RR district.

Surrounding land is zoned RR Rural Residential and SF-20 Single-family Residential and developed with a mix of agricultural and large-lot residential uses. There are residences located to the east, southwest and further to the northwest.

CASE HISTORY: None

ADJACENT ZONING AND LAND USE:

NORTH: RR Rural Residential; agriculture
SOUTH: SF-20 Single-family Residential, RR Rural Residential; agriculture and residences
EAST: RR Rural Residential; agriculture
WEST: RR Rural Residential; agriculture

PUBLIC SERVICES: Public services are not required for this installation

CONFORMANCE TO PLANS/POLICIES: The Comprehensive Plan contains location criterion recommending that utility facilities with significant noise, odor and other nuisance elements should be located away from residential areas.

RECOMMENDATION: Based upon information available prior to the public hearings, planning staff recommends that the request be APPROVED, subject to development of the site in substantial compliance with the approved site plan.
