

Constraints with Existing Zoning. The prohibition of residential use is the most significant disadvantage with the current “LI” zoning. “LI” allows uses incompatible with the urban core, by right or by Conditional Use, including: asphalt plant (general), gas and fuel storage, freight terminal, landfill, transfer station, and wrecking/salvage yard.

Proposed Zoning: “CBD” zoning would allow residential use, bed and breakfast inn and group homes. It will prohibit future establishment of kennels, tattoo parlors, day reporting centers, asphalt plant (general), gas and fuel storage, freight terminal, landfill, transfer station and wrecking/salvage yard. Other “CBD” advantages include the following: (1) removes the off-site parking requirements to allow flexibility in developing shared parking facilities to serve multiple parking needs, (2) eliminates building setbacks to allow zero-lot setbacks in character with traditional downtown development and that is compatible with the trends in loft/apartment uses, and (3) eliminates height restrictions to allow higher intensity use that reinforces the viability and liveliness of the downtown area.

At the MAPC meeting held December 8, 2005, no citizens spoke on the request. MAPC voted (11-0-1) to approve the zone change.

Financial Considerations: None

Legal Considerations: The ordinance has been reviewed and approved as to form by the Law Department.

Recommendation/Actions:

1. Adopt the findings of the MAPC and approve the zone change, and approve the first reading of the ordinance establishing the zone change, or;
2. Return the application to the MAPC for reconsideration.

(An override of the Planning Commission’s recommendation requires a two-thirds majority vote of the City Council on the first hearing.)

City of Wichita
City Council Meeting
January 10, 2006

Agenda Report No. _____

TO: Mayor and City Council

SUBJECT: DR2005-00023 Zone change from "LI" Limited Industrial to "CBD" Central Business District. Generally located between St. Francis Avenue, William Street, BNSF railroad right-of-way (one-half block east of Commerce Street) and Kellogg. (District I)

INITIATED BY: Metropolitan Area Planning Department *JLS*

AGENDA: Planning (Consent)

MAPC Recommendations: Approve subject to staff recommendations, vote (11-0-1).

MAPD Staff Recommendations: Approve the "CBD" zoning for the proposed area.

DAB Recommendations: Not applicable.

Background: On September 13, 2005, Wichita City Council voted (7-0) to initiate a rezoning from "LI" Limited Industrial to "CBD" Central Business District for an area generally described as being located between St. Francis Ave., William St., BNSF railroad right-of-way one-half block east of Commerce St. and Kellogg.

The City Council initiated the rezoning action pursuant to the Unified Zoning Code provision that the "Governing Body may initiate a zone change request with or without an application from the property owners" (Unified Zoning Code Art. V, Sec. V-A.1).

Analysis: The area proposed for rezoning to "CBD" is a three-block stretch flanking both sides of Commerce Street south of William Street to Kellogg. The BNSF railroad forms the eastern edge and St. Francis Street forms the western edge. The area is spontaneously undergoing a transition from industrial/manufacturing uses to a broader mix of uses with residential, commercial, and institutional uses being added. In the past five years, several retail shops have opened such as Dock 410 and Fiber Studio. Fiber Studio is unique because the owners of this site requested rezoning of the property to "CBD" in 2000 in order to locate the studio and gallery for artists on the main floor and a residence on the second floor. Just recently several other owners on the same block of Commerce also were approved for "CBD" zoning in order to combine studios with loft apartments. A larger loft conversion is underway on a "CBD" zoned tract across St. Francis Street (201 S. St. Francis, known as the Lofts at St. Francis) from the proposed rezoning area.

The area north of Waterman, except for two properties, was selected as the site for the Sedgwick County arena. The area site constitutes roughly 40 percent of this proposed rezoning initiative. These properties fall within the area shown for the arena building and the adjoining VIP parking lot. The most likely impact of this site selection will be intensified demand on the remainder of the area for more retail and restaurant types of commercial use, mixed with residential use. These uses would be added to or replace the existing mix of industrial, contractor sales and service (heating, electrical, etc) and auto repair uses.
