AGENDA ITEM REQUEST

Proposed Agenda Item: ZON2007-00011 – Sedgwick County Zone change from “RR” Single-family Residential to “GC” General Commercial. Generally located northeast of the intersection of 21st Street and 391st Street (K-251). (District III)

Presented by: John L. Schlegel, Planning Director *JLS*

Recommended Action: Approve the zone change to GC and Protective Overlay #186; adopt the findings of the Metropolitan Area Planning Commission; and authorize the Chairman to sign the resolution.

Proposed Agenda Date: May 23, 2007

Outside Attendees: P&J Storage LLC (Applicant)
Certified Engineering Design (c/o Harlan Foraker-agent)

Multimedia Presentation: PowerPoint

Donations: Not applicable

Background: The applicants are requesting a zone change from RR to GC to bring a non-conforming use into zoning compliance on an unplatted tract that is approximately six acres in size. The proposed zone change would permit vehicle storage uses south of Cheney Reservoir Dam, northeast of the intersection of 391st St. and West 21st St. The applicant is seeking GC General Commercial zoning, subject to a Protective Overlay, that would permit the following uses: inside and outside storage, RV and boat storage, Vehicle repair, Marine repair, Self-service storage, Vehicle storage yard, RV and boat sales. The 5.9-acre site currently contains an old restaurant/convenience store and a fenced in area containing abandoned RV's and boats. The application area has approximately 827 feet of frontage along K-251 (391st Street). Access to the site will be from K-251, via an existing driveway located on the southwest part of the property, directly in front of the vacant convenience store/restaurant.

The Sedgwick County Sign Code allows 19 different types of signage in the GC district, including billboards. One 300 square-foot billboard would be permitted on this site. Up to 1,140 square feet of signage would be allowed on this site with a maximum size of 400 square feet for certain types of signs (e.g. wall, projecting, awning and canopy), and 300 square feet for ground or pole signs.

The surrounding area is undeveloped other than structures directly to the west, which are used for lake operations. The properties that would be impacted by this proposed rezone would be the vacant RR zoned property to the north and east, and the LC zoned property to the south. The site will have to be developed in conformance with zoning screening requirements, compatibility setbacks, height and noise standards, and zoning lighting limitations.

Analysis: At the MAPC meeting held April 19, 2007, MAPC voted (11-1) to approve subject to applicant's request for GC and with Protective Overlay #186. No citizens were present to speak and no protests have been received.

Alternatives:

1. Approve the zone change to GC with Protective Overlay #186, approve the resolution and authorize the Chairman to sign the resolution.
2. Return such recommendation to the MAPC with a statement specifying the basis for the BOCC's failure to approve or disapprove.
3. Deny the zone change and override the MAPC recommendation with a 2/3 vote.

Financial Considerations:  *Approved by Division of Finance*

Policy Considerations: The MAPC recommendations are based upon the findings of fact stated in the MAPC minutes.

Legal Considerations:  *Approved as to form and signed by County Counselor's Office*
