Along the west property line of Parcel 1 where existing screening does not exist, landscaping shall be provided at 1.5 times the minimum ordinance requirements, shall be a combination of deciduous and evergreen landscaping, and shall have a minimum planting size for all deciduous trees no smaller than 2-inch caliper and all evergreen trees shall be a minimum of 6 feet in height.
 - Solid screening shall be provided within Parcels 1, 2, 3 and 4 for all outdoor work and storage areas, parking lots and loading docks within 150 feet of residential zoning district or public street right-of-way in order to screen these areas from residential zoning districts.
 - Rooftop mechanical equipment within Parcels 1, 2, 3 and 4 shall be screened from ground level view per Unified Zoning Code.

- The Transfer of title of all or any portion of land included within the Community Unit Plan (or any amendments thereto) does not constitute a termination of the plan or any portion thereof but said plan shall run with the land and be binding upon present owners, their successors and assigns.
- The development of this property shall proceed in accordance with the development plan as recommended for approval by the Planning Commission and approved by the Governing Body, and any substantial deviation of the plan, as determined by the Zoning Administrator and the Director of Planning, shall constitute a violation of the building permit authorizing construction of the proposed development.
