B.M. 103-48 City Standard, N.E. Cor. Hillside & Pawnee

Note to Contractor:
 At the time of original survey, there was an 8" thick, 5' wide strip of concrete near the north east of and asphalt mat near the driveway parking lot. This concrete strip may be removed by the paving contractor during relocation of the present water main. If the paving contractor finds additional concrete left by the water company, he will be paid for such removal, as per job pavement item.
